## Itinerary

Itineraries on some departure dates may differ, please select the itinerary that you wish to explore.

## DAY 1 - Arrive Ushuaia

Arrive into Ushuaia, the southernmost city in the world, at any time. Make your own way to the hotel and enjoy the evening at leisure. Sitting on the shores of the Beagle Channel, Ushuaia actually means 'the bay facing westward' in the language of the original Yamna inhabitants. Once a penal colony (the presidio was disbanded in the 1940s) for political prisoners as well as hardened criminals, Ushuaia is now a major tourist attraction, particularly for people such as ourselves cruising to Antarctica. The town of 40,000 is also a major ski resort area for both alpine and cross-country skiers and offers magnificent hiking in Parque Nacional Tierra del Fuego, the only coastal national park in Argentina.

**Accommodation: Hotel in Ushuaia to be confirmed** (or similar)

Standard Hotel

## DAY 2 - Ushuaia

Today we will embark on the expedition ship. Embarkation time is set for 4:00 pm. The morning is free to do any last minute shopping, an optional excursion to Tierra Del Fuego National Park or a good hike up to the Marshall Glacier. The evening is spent on board the ship watching the sunset over the Beagle Channel. Please note, whilst it is our intention to adhere to the itinerary described below, there is a certain amount of flexibility built into the itinerary and on occasion, it may be necessary or desirable, to make alterations. Our trips are at the mercy of the weather and ice, which is vastly changeable in these parts, but our experienced expedition crew will take advantage of any presented opportunities, to ensure that you have a truly memorable trip. On the first day onboard, your Expedition Leader will give you an expedition overview.

## DAY 3 - The Drake Passage

Our adventure begins with a 400 mile crossing of the passage that bears the name of the 16th century English explorer Sir Francis Drake. The M Expedition is at home in this part of the Southern Ocean, known for the unimpeded fetch of the winds that encircle the Antarctic.

## DAY 4 - At Sea

During our second day at Sea, we cross the Antarctic Convergence - a meeting of cold polar water flowing north and warmer equatorial water, moving in the opposite direction. This mixing pushes nutrient rich waters to the surface attracting a variety of seabirds, whales and other species. As we make the passage, you will have time to become acquainted with the ship and frequent the common areas that include the lounge, dining hall, library and lecture hall where we meet our guides, ship's crew and expedition staff. We also begin the lecture and information sessions to learn the extraordinary human and natural history of the Antarctic region.

## DAY 5 - Arriving into the Great White Continent

This is what we've all been waiting for - a chance to step foot on the Great White Continent! Over the next few days we will navigate southwards making stops in the South Shetland Islands then through the Bransfield Strait and to the Antarctic Peninsula. Our goal is to attempt two excursions per day, while we navigate through the area, but our itinerary and daily schedule will be based on the local weather and ice conditions that we encounter.

## DAY 6 - Antarctic Peninsula and South Shetland Islands

The Antarctic Peninsula and the South Shetland Islands abound with wildlife activity. Penguins gather with their fast-growing chicks, whales are seen in great numbers, seals haul out onto ice floes and beaches and numerous albatross and other seabirds trail in our wake. There is plenty of time to enjoy the sheer beauty and the breathtaking scenery of ice-choked waterways, blue and white icebergs, impressive glaciers and rugged snow-capped mountains. The Peninsula also has a remarkable history and during the voyage, we will learn about some of the most important and dramatic expeditions to this remote corner of the world. Keeping a lookout from the Bridge or the deck of the ship, as we thread our way along the continent, you'll feel the same sense of excitement as many of those early Explorers. The continent itself is roughly circular with a spindly arm, called the Antarctic Peninsula, reaching northwards towards Tierra del Fuego. South America is the nearest landmass, some 600 miles away.

## DAY 7 - Antarctic Peninsula and South Shetland Islands

Antarctica is a continent of superlatives. It is the coldest, windiest, iciest and highest of all the major landmasses in the world. It is the continent with the longest nights and the longest days and it is home to the world's greatest concentration of wildlife. It is also one of the last true wilderness areas left on earth - largely unchanged since the early Explorers and Whalers first landed on its inhospitable shores less than two centuries ago.

## DAY 8 - Antarctic Peninsula

Heading further along the peninsula, we will travel to shore by Zodiac and visit some of the vast penguin rookeries that can be found here. From a distance, the landscape appears to be dotted with tiny specs of white and black, revealed to be a mass of raucous penguins, once you step ashore. You will enjoy spotting a variety of breeds - Gentoo, Adelie and Chinstrap, all easily identifiable by their markings. You will have plenty of time to walk amongst these curious, aquatic birds - an excellent opportunity for some photography, or simply sit and enjoy the breath taking scenery in front of you.

# Polar information

## Ship information

At a nimble 105 metres (345 ft) in length, with a capacity to hold 132 guests, the Expedition is an ideal vessel to ply polar waters. The ship is large enough to provide stability, speed, spacious cabins and ample public space. Yet she is small enough to manoeuvre in remote areas and get you close to the action. Ship stabilizers ensure a smooth ride in rough waters, such as the infamous Drake Passage, allowing you to enjoy more of your time at sea. A fleet of ten zodiacs allows passengers to get out and actively explore the remote shores of our destinations. The Expedition is a speedy vessel. A top speed of 16 knots means you'll spend less time getting from A to B, and more time to explore your surroundings.

### Optional activities

To add to your polar adventure, take to a kayak for an eye-to-eye view with seals and whales or camp in some of the most remote and beautiful places on earth. Kayaking is available as an optional excursion on your Antarctica trip for GBP 839 per person. Camping is available as an optional excursion on our Antarctica trips for GBP 249 per person. You must book prior to travel and space is limited - so book early to secure your place! Please speak to one of our polar experts to request availability. .

### Clothing

Dress on board is informal. Pack comfortable, casual clothing for all activities. Wind and waterproof outer layers are essential, and the most important piece of clothing you will bring is a parka. Beware of tight clothing that leaves no room for trapped air, which is an excellent insulator. Wool, silk and some of the new synthetic fibres, like polar fleece, retain heat better than cotton. Parkas This will be provided by the ship operator. Please register your size with us before travel and we will arrange for your parka to be available in your cabin on arrival. Gloves Keeping your hands warm and dry can be a challenge. Thin polypropylene gloves can be worn underneath warm outergloves. This allows you some protection from the cold when removing your gloves to operate your camera etc. We strongly recommend that you bring more than one pair of gloves, in case one gets wet (or lost). Hat/Cap Warm, woollen hat/cap to protect your ears, as well as a scarf, neck gaiter or other face protection, such as a balaclava. Trousers Water-resistant trousers of coated nylon or, even better, Gore-Tex® are essential for your comfort. They can be worn over your regular clothes to keep you warm and dry. We suggest that you purchase trousers a few sizes larger than you normally wear as you will be wearing them over other clothing. Gore-Tex® or similar fabrics are excellent for keeping out wind and water without trapping excess heat. Rain gear and Gore-Tex® products can be found in any outdoor sport clothing store. In addition to your waterproof trousers, warm ski pants are suggested if you have them. Warm trousers such as jeans, corduroys etc are also good. Socks Warm wool socks worn over a thin pair of silk, polypropylene socks should provide enough warmth and insulation for your feet. Bring several pairs of socks, since you will inevitably get your feet wet. Outer Clothing Woollen, knit or cotton sweaters/tops, polar fleece tops (medium weight), several cotton turtlenecks and T-shirts for layering on and off the ship. Underclothing Thermal underwear is highly recommended as it will keep you warm without adding bulk. Most polar travellers prefer a lightweight version.

### Footwear

Complimentary, used waterproof boots will be supplied onboard. However, guests might want to bring their own if they are the following sizes due to the limited quantities onboard: - men's UK size 12 & 13 1/2 - women's UK size 3 and below & size 7 and above Guests must bring their own if they are: - men's UK size 6 1/2 or smaller - men's UK size 13 1/2 or larger - women's UK size 2 or smaller - women's UK size 9 1/2 or larger These are rubber, waterproof boots that are just below your knees with a strong, ridged non-skid sole. You usually have to step from the Zodiac into icy water up to 30 cm high on most landings. Do not bring heavy, cumbersome boots that make it difficult to walk, or boots with metal cleats as they cannot be used for landings. For maximum warmth, wear loose-fitting boots and two pairs of socks. We strongly recommend investing in some good thermal socks, as your feet can get quite cold when sitting in the Zodiacs. Try out your boots before the voyage.

### Luggage

15Kg

### Luggage: On tour

One main piece of baggage and daypack. Remember you are expected to carry your own luggage so don't overload yourself. Please note that a 15kgs luggage weight limit is sporadically enforced on the internal flight to Ushuaia, occasionally charges may be levied against passengers taking luggage in excess of 15kgs.

### Equipment

Sunglasses and sun cream Personal toiletries A refillable water bottle Books/reading material Camera and memory cards (and something to protect the camera when out in the elements) Seasickness remedy Walking poles Personal First Aid

### Tipping

#### Local crew

Tipping is of considerable significance to the people who will take care of you during your travels. It is an expression of satisfaction. The suggested amount is USD \$10 - 15 per person per day spent on board. Of course, tipping is a personal choice and the suggested amount is set only as a guideline. The money is collected by the Hotel Manager at the end of the voyage and distributed among the crew and Expedition Staff. The Officers choose not to participate in the tipping pool.
