DAY 2 - Visit Madaba and cycle to Mt Nebo and descend to Dead Sea

This morning we visit the spectacular Byzantine and Umayyad mosaics of Madaba including the famous 6th century mosaic map of the Holy Land. We then start cycling toward Mt Nebo, reputedly the burial place of Moses and certainly the site for a spectacular view over the valley below. We will stop en route for our included picnic lunch. Freewheeling down the stunning series of switchbacks towards the unique setting of the saline waters of the Dead Sea, at nearly 400m below sea level the lowest point on earth is a great way to start this trip! Surrounded by barren hills, this unparalleled body of water has an amazingly high salt content (33%), resulting in the absence of any form of animal life and creating an almost impossible propensity to sink. We will have the opportunity to 'swim' in its buoyant waters and enjoy the therapeutic properties of its mineral rich mud before continuing on up to Shobak by bus for our overnight stop. On all of the rides you will be provided with filtered water, tea and seasonal fruit and veg for snacks (included). Our total cycling distance today is approximately 36 kilometres.

DAY 3 - Cycle from Shobak Crusader Castle to Petra

This morning, we drive the short distance across the valley to Shobak Castle. The first of the series of Crusader Castles built in Jordan, it was constructed by Baldwin I in 1115 and only surrendered in 1189 to the Great Salahdin. After our visit to this isolated stronghold we will continue on our journey on the Kings Highway. An ancient road that once carried the treasure laden caravan's of Solomon, to the fabled Nabatean city of Petra, one of the highlights of our journey and surely one of the most spectacular archaeological sites on earth. We cycle the undulating landscape through the fabled land of the Edomites, once home to the largest of the three Transjordanian Iron Age kingdoms that inhabited these wild upland regions. Descendants of Lot's brother-in-law Esau, the Edomites went on to become rich from trade in copper and luxury goods, before making way to the emerging Nabatean kingdom that went on to create the majesty that is Petra. We will stop en route for our included picnic lunch before continuing southwards as our route takes us from an elevation of some 1700m down to about 1000m and we skirt the lower slopes of the mountains that lead the way to Petra. Tonight there is the opportunity to visit Petra lit by candlelight, a majestic experience. Our total cycling distance today is approximately 42 kilometres

DAY 4 - Exploring Petra

Abandoned centuries ago Petra was the rock cut stronghold of the Nabateans, a fortress city built to protect the lucrative levies its citizens imposed on the rich caravans heading north. Surrounded by imposing mountains and approached through a deep, narrow cleft in the rocks, known as the Siq, it is a unique and unforgettable place and, enhanced by the play of light and shadow, an altogether overwhelming experience. Approaching on horseback this morning, we then enter the Siq on foot, following its towering sandstone walls towards the site of the captivating and iconic splendour of the beautiful Khazneh (The famous Treasury). A guided walking tour will take us to some of the key parts of this remarkable and ancient site, one of the most impressive and exciting anywhere in the world. We'll take in the Colonnaded Street and the Royal Tombs, enjoy the site of its amazing theatre, with its 8,000 seats carved from the solid rock. A free afternoon affords the possibility of climbing the steep track up to the magnificent sacrificial 'High Places' (altars) and the top of Jebel Harin (1396m) for a stunning view over Wadi Araba and the Negev Desert. Here we find the Monastery, the largest of Petra's monuments and certainly a highlight to any visit to the city. Towering to a height of 40m its doorway alone measures 8m in height, dwarfing anyone framed within it and it is certainly worth the steep climb up to it. This evening you have the opportunity to enjoy a Bedouin cookery demonstration and meal at a nearby restaurant, learning how to make a traditional Makloubah (upside down) dish, with meat, rice and fried vegetables, followed by Um Ali, a creamy Arabic dessert with croissant pieces, raisins and nuts (No cycling today).

DAY 5 - Free time in Petra. Cycle to Little Petra and El Beidha

We have a free morning to revisit the Petra site, relax or shop in Wadi Musa. After a traditional Bedouin meal for lunch we take to our bicycles again and ride to Little Petra - a satellite of the main site. We can also visit the important Neolithic site at nearby El Beidha to view an excavated Stone Age village where the remains of houses, fireplaces and workshops that date back to around 6000 BC have been excavated, providing visitors with access to one of oldest excavated Neolithic sites on earth. On return to Wadi Musa what better way to relax this evening than with a traditional Ottoman Bath (optional). Our total cycling distance today is approximately 20 kilometres

DAY 6 - Cycle to Wadi Rum and overnight in desert camp

Returning to the Kings Highway we pedal south over undulating upland pastures including a few long but gentle ascents and finally, the five-mile freewheel down to the southern desert. Today's picnic lunch spot offers views over Arava and Israel beyond. Cycling along the Old Desert Highway and negotiating sand drifts across the road, we then transfer by bus the remaining kilometres to Wadi Rum. A place that seems more akin to the surface of a distant planet than to anything on earth. The combination of its immensity, colour and awe-inspiring shapes creates an atmosphere that is almost supernatural. Lawrence of Arabia, who held Wadi Rum in high esteem, wrote: 'Our little caravan grew quite self-conscious, and fell dead quiet, afraid and ashamed to flaunt it's smallness in the presence of the stupendous hills. Landscapes in childhood's dreams were so vast and silent'. We have the opportunity this afternoon for an optional camel ride to enjoy the stunning sunset as we ride or walk through a landscape of sandstone mountains and white and pink coloured sands. The private campsite we use is intimate and for Explore's exclusive use. The camp is located away from the main road and tourist centre and within the Wadi Rum protected area with great views over the desert. This evening presents the opportunity to experience traditional Bedouin living arrangements in a large communal style goat hair tent, which provides the best protection against typical desert extremes of hot and cold weather. The tent is laid out with rugs, mattresses, pillows and sleeping bags and is where each tribe would commune to eat, sleep and socialise. Another Explore group may be at the campsite this evening if the itineraries coincide. After time to settle in and have dinner, we learn to prepare Bedouin coffee in the traditional way. Coffee beans and cardamom pods are roasted over an open fire, before brewing the coffee and enjoying its flavour. The rest of the evening is normally spent around a campfire, with spectacular desert stars overhead. A toilet and wash block with limited washing facilities is also available during our stay. Our total cycling distance today is approximately 58 kilometres

DAY 7 - Cycle from Wadi Rum and continue on to Aqaba by bus

On our final day of cycling, we cross the Hejaz railway line and tour the desolate parts of Wadi Rum riding on the 'Jelada' the hard dried mud left from the rare rains. Few other visitors venture to these areas but for cyclists it is an easy riding surface and perfectly flat! A strange world of bleached bones and mirages turn the surrounding hills into towering islands. We will stop for a picnic lunch in a remote shady spot before making our way out of the desert and by afternoon transfer by bus to take us to Aqaba and Jordan's only seaport. As we take our last views out across the Jordan Valley we reach Jordan's southern borders, leaving behind the desert

and entering a landscape of palm groves and coral reefs, warm glistening waters and the impressive backdrop of the Jordanian Heights. Our total cycling distance today is approximately 35 kilometres

We have a free day to relax or perhaps enjoy some more of the 17km of sandy beaches, splendid coral reefs and clear warm waters for which Aqaba is famed. Aqaba has numerous watersports activities, including snorkelling, diving and glass bottom boats for hire, so there should be something for everyone. Late afternoon we depart the coast and return to Amman.

Climate

During April to November days are generally sunny and hot without rain with temperatures around 32°C. In spring and autumn evenings can be cool and night temperatures can drop suddenly especially in the desert. Expect cold nights in winter (December to February) when temperatures can drop to around 0 degrees. Some rain should also be expected at this time of year.

Budgeting and packing

Optional activities

Petra - Petra by night GBP 17; Ottoman bath GBP 24 Wadi Rum - Camel trek through Siq al Barrah GBP 28 Bedouin cookery demonstration and meal - GBP 20 Aqaba - Snorkelling on coral reef GBP 20; Snorkelling from Boat GBP 32

Clothing

When cycling: quick drying cycle tops, padded cycle shorts, lightweight wind and water proof jacket and warmer breathable layers where local conditions require. General: Pack essentially for hot, cold or mild weather depending on the time of the year.

Footwear

If you are not bringing cycle shoes then try to bring stiff-soled shoes as these are better for cycling - transmitting your energy into the pedals more efficiently. This becomes more relevant and recommended the more demanding the grade and distances to cover. SPD cycle shoes are not well suited to trips that combine sightseeing with cycling. Comfortable shoes, trainers, sandals or flip flops are useful when not on the bike.

Luggage

20kg

Luggage: On tour

We recommend you bring a daypack and one main piece of luggage (total allowance: 44lb/20kg) which will be transported between hotels while you cycle. Check the bike details section to see if a pannier or handlebar bag is provided on the bike. Hotel porters are not always available, so don't overload yourself. Please note you will only carry what you need to the camp in Wadi Rum and main luggage will be transported directly from Petra to Aqaba.

Equipment

On all Explore cycle holidays we strongly recommend you bring along and wear your cycle helmet. In case of an accident resulting in personal injury, certain insurance policies are invalidated in cases where a helmet was not being worn. Cycle glasses to protect against dust, pollen and the sun, padded cycle gloves and a water bottle or water delivery system (e.g. camelback or platypus) are also useful. You may choose to bring your own gel seat cover for added comfort. If a handle bar bag or pannier is not provided (check bike details) then you may like to bring a small rucksack to wear while cycling. Other items to consider bringing are a sunhat and sun cream, torch, earplugs and insect repellent. Please carry some or all of your cycling equipment e.g. helmet as part of your hand luggage.

Tipping

Explore leader

At your discretion you might also consider tipping your Explore Leader in appreciation of the efficiency and service you receive.

Local crew

Although entirely voluntary, tipping is a recognized part of life in this region of the world. Some local staff will look to members of the group for personal recognition of particular services provided. In order to make things easier for you, the Explore Leader may organise a group's tips kitty and if this is the case, they will account for it throughout the trip. Accordingly, you should allow 20.00JD (Jordanian Dinar) for tipping.

International Departure Taxes

The Jordanian government levies on all travellers a departure tax of JD8.00 per person. For travellers departing by air this is usually included in the taxes on the airline ticket and thus nothing will be collected from you at the point of departure. For those travellers departing by land, this will be collected by the immigration authorities at the port of departure from Jordan.
