DAY 2 - Explore Tokyo's shrines and gardens on foot and by boat

Over a quarter of the Japanese population live within a 50 km radius of the centre of Tokyo, making it the most populous metropolitan area in the world. The result is a bustling and exciting city, and the economic powerhouse of Asia. However, scratching its neon-clad surface reveals a city bursting with history and tradition. A morning stroll takes us through 'Thunder Gate' to Tokyo's oldest temple, Asakusa, where we start to gain an insight in to the city's unique culture. We continue our exploration by boat, with a short journey along the Sumida River. This gives us a totally different perspective of the city as we drift past high rise apartments, secluded gardens and busy warehouses. Arriving in the heart of the city near Hamarikyu Gardens, we visit the Meiji shrine, dedicated to Emperor Meiji and the Empress Shoken, and Shinjuku area, where the latest electronic gadgets dazzle from glowing shop-fronts.

DAY 3 - Take a boat ride on Lake Ashi and discover Hakone National Park

Today we explore the Hakone National Park, home to the towering and iconic Mount Fuji. Using a variety of forms of transport including bus, funicular rail and cable car, we make our way to the hot, bubbling sulphur springs at Owakudani. From here, on a clear day, there are magnificent views of the snow-capped mountain that is so synonymous with Japan. While at the springs you can follow the local tradition of eating an egg boiled in the sulphur pools - just one is reputed to increase life expectancy by seven years! Our next stop is Lake Ashi, a magnificent lake created from the eruption of the Hakone Volcano over 3000 years ago. A short boat ride on the lake takes us to Moto Hakone. Here, you can relax in one of the waterside restaurants, or enjoy a one-hour walk along a section of the old Tokaido Highway, following in the footsteps of the shogun warriors. Passing through a stately avenue of ancient Japanese cedar trees lining the old route, we walk on some of the original paving stones. This ancient trail was mainly used by the nobility and shoguns as they travelled with huge retinues between the feudal court in Edo (Tokyo) and their own regional castles. In Hakone, we are accommodated in a traditional inn, known as a ryokan, where we sleep on comfortable, folding futon mattresses. During our stay here, we learn about local etiquette, such as when to take off our shoes and the pleasures of taking a Japanese bath, all of which helps enhance our stay in this traditional establishment.

DAY 4 - Travel on the Bullet train to Kyoto and explore the Geisha district

Leaving the mountains behind us, we take the world-famous 'bullet train', or Shinkansen, to Kyoto, travelling at speeds of up to 230 kmh. The cradle of all things uniquely Japanese, Kyoto was the imperial capital at the heart of events that shaped Japan's destiny for more than 1000 years. As the only major Japanese city to remain unscathed by World War II bombings, signs of the past remain in its grand temples and palaces, and also in the many quaint shops selling traditional wares. In the afternoon we head to the famous geisha district of Gion. Here, we hope to catch a glimpse of these enigmatic entertainers as they scuttle to work in the teahouses or high-class restaurants, and we'll take tea with one to learn a little about her life.

DAY 5 - Discover Kyoto's temples and zen gardens

This morning we travel light, sending our main luggage on to Fukuoka and continuing our exploration of Kyoto. The city is Japan's loveliest, with more than 2000 temples and shrines, many set in manicured and landscaped gardens. We begin by visiting the famous Golden Pavilion, a three storey building with the top two tiers covered in gold leaf. Set in a lake, the building appears to float on the water and the reflections, coupled with the background of forest, make it worthy of its place on many Japanese postcards. There is also time to stroll Kyoto's charming streets and its tree-lined canal, simply soaking up the special atmosphere of the city.

DAY 6 - Reflect at Hiroshima Peace Park and take the ferry to South Korea

An early morning train takes us to Hiroshima, where we will spend the morning exploring this thought-provoking city. Completely destroyed on 6th August 1945, when it was the target of the first atomic bomb to be used in wartime, Hiroshima has literally risen from the ashes, and is now a thriving and friendly place. We'll walk around Peace Memorial Park and visit the museum on the site of the 1945 A-bomb hypocentre. Whilst serving as poignant reminders of the nuclear holocaust, their over-whelming message is of hope that such horrors will never occur again. In the afternoon we take the bullet train to Fukuoka where we board the ferry to South Korea. The journey across the Strait of Korea takes around 3 hours and we'll arrive in the Busan in the early evening.

DAY 7 - Explore Busan, visit the Tongdosa Temple and discover Gyeongju

This morning we start our exploration of South Korea with a tour of the port city of Busan, including the Haeundae Beach area and Jagalchi market. The largest seafood market in the country, it is a riot of noise, activity and colour, and a great place to try some of the seafood so loved by the Koreans. You can select fresh seafood from one of the stalls and take it to a nearby restaurant to be cooked or served as hoe - the Korean version of sushi. Leaving Busan for Gyeongju, we stop at the Tongdosa Temple, a fascinating site founded over 1500 years ago when a monk returned from China with relics of the Buddha. They are said to be housed in the temple to this day. The temple's candle is believed to have been burning for an incredible 1,300 years, never once having been extinguished during that time. South Korea's second largest city, Gyeongju, is where we will spend the afternoon. Once the capital of the ancient kingdom of Silla, the city ruled over much of the Korean Peninsula between the 7th and 9th centuries. In the city's green and beautiful Tumuli Park, we wander among impressive burial mounds dating from 1,500 to 2,000 years ago, and at nearby Cheomseongdae Observatory we see what is considered likely the world's oldest astronomical observatory. Our tour of the city concludes with Anapji Pond, which was once part of the ancient Donggung Palace, and the fascinating Gyeongju Museum. This houses an impressive array of artefacts from the Silla kingdom, and offers a fascinating insight in to an important period in Korea's history.

DAY 8 - Walk on Namsan Mountain and visit the Seokguram Grotto and Bulguksa Temple

This morning we visit Namsan Mountain which provides a beautiful natural setting for hundreds of temples and Buddha statues. There are hiking trails to enjoy, a boating lake, and cycles to hire. After lunch we explore the UNESCO World Heritage Sites of Seokguram Grotto and the Bulguksa Temple. Built in 774 and set in stunning natural surroundings on the slopes of Mount Tohamsan, the grotto overlooks the coast and an impressive statue of the Buddha gazes serenely out to sea. The temple, dating from the same time, is the head of the Jogye order of Zen Buddhism. The UNESCO World Heritage Site of Hahoe is our last stop of the day. Here we find the Hahoe Folk Village and its mask museum. Wandering along the ancient streets of this early Joseon Dynasty village with its centuries-old homes, we may get a sense of how the village was located to provide physical and spiritual nourishment, in line with ancient Confucian principles. Many of the residents still maintain the old Confucian traditions to this day. The village's fascinating mask museum reflects the local culture of using masks in dance and drama, and houses a remarkable

collection from the vicinity and the rest of the country.

DAY 9 - Discover the beautiful Buseoksa Temple and enjoy a traditional tea ceremony. Overnight at Samwhasa Temple

This morning we head for one of Korea's most beautiful temples. Hidden amongst the wooded slopes of Bonghwangsan, Buseoksa Temple dates back to the latter years of the 7th century and differs from many other temples in Korea because of its huge size. From here we continue to Suaedang via the stone Buddha at Jebiwon, an impressive 11th century carving that sits on top of a rocky outcrop overlooking the Sobaek Mountains. In the afternoon we drive to Samwhasa Temple where we have an opportunity to join in a traditional tea ceremony. Spending the night at the temple to experience the life of the monks, learning how to bow properly and about the 108 bows, a meditative practice that encourages reflection and focus. Please note that the sleeping arrangements at the monastery will be up to four people per room and there is a mixture of en suite and shared shower facilities.

Set amongst the granite landscapes of the Taebaek Mountain range, Mount Seorak is the third highest peak in the country at just over 1,700m, and we have the chance to enjoy some activities around the park. There are a number of walking trails that lead to temples and waterfalls, including Sinheungsa Temple which dates from 652 AD and Biryongpkpo Waterfall which is reached by walking through a pretty forest that will be resplendent with Autumn colours. You can also take a cable car to the mountain's summit for spectacular views of the surrounding area.

DAY 11 - Explore Seoul and the Gyeongbokgung Palace

We drive to Seoul today and take an orientation tour around the centre of the city, walking through the Myeongdong shopping district and to the market at Namdaemun. This is the largest market in the country with hundreds of stalls. The food section is a particular highlight and offers a great chance to try some local fare such as Sujebi (dough and shellfish soup), kalguksu noodles or bibimbap (mixed rice, meat and vegetables). Leaving the market, we head past the City Hall to the Gyeongbokgung Palace. The largest of five great palaces built by the Joseon Dynasty, Gyeongbokgung still remains the grandest and we pay a visit before moving on to the National Folk Museum. Later we walk through the Insadong area, famed for its antiques and handicrafts.

DAY 12 - Visit the Demilitarised Zone

Today we visit one of the last frontiers of the Cold War - the Demilitarised Zone (DMZ) that separates North and South Korea. The area has over a million soldiers on high alert on either side. The Korean war technically has never ended and this geo-political fault line is still raw for the people of Korea. We are escorted by the military right into the DMZ and stand at the very edge - both sides literally staring at each other just metres apart. Whilst in the area you must be respectfully dressed, no jeans or sandals are allowed, and you cannot you make any arm or hand gestures as visitors are closely monitored (and photographed) by the North Koreans for propaganda purposes. Next we venture underground to explore a tunnel built by the North to breach the border; it was found by accident and a further 3 were later discovered. The tunnels are wide enough for 2000 troops an hour to pass through. Military clearance is obtained for all visitors and you will be in a larger group, please be aware that due to the nature of the area visited this excursion may be cancelled at short notice (although unlikely) depending on the security situation.

Arriving in China mid-morning, we drive to Zibo, a journey of 4 to 5 hours. Considered to be one of the birthplaces of the Han Chinese - now the largest ethnic group in the world, the city is the capital of the ancient state of Qi and has a long and rich history. It was one of the early centres of silk making that led to the formation of the famous Silk Road and was recognised by FIFA in 2004 as the birthplace of football! We'll wander around the old Zhoucun area, visiting the Thousand Buddha Temple, and admiring the old stone streets and buildings of the area, often adorned with Chinese lanterns; their traditional shop fronts selling an eclectic mix of wares, with silk and silver being particular specialities.

DAY 15 - Ascend China's holiest mountain, Tai Shan

Our destination today is Tai'an and the UNESCO World Heritage Site of Mount Tai (Taishan), China's most sacred mountain. In 219 BC, Qin Shi Huang, the founder of the Qin Dynasty, held a ceremony on the summit to announce to the gods that he had successfully unified China. There are around 6,000 steps up to this point but the reward is stunning views of the surrounding mountains and hills, and a cable car is available from around half way. For most people, walking all the way to the top takes around 3 to 4 hours and taking the cable car means a 1 to 1.5 hour walk. The mountain has been continuously worshipped for at least 3,000 years and there are thousands of inscribed stone tablets set on its slopes declaring its significance. One informs us that the mountain is 'the most revered of the five sacred mountains' and another marks the spot where Confucius looked out from and stated 'the world is small'. There are also 22 temples, the most important being the Temple to the God of Taishan. It contains a spectacular 1,000 year old Taoist painting entitled 'The God of Taishan Making a Journey' which we can see before making our way to the top.

DAY 16 - Explore the temple complex and home of Confucius

Nearby Qufu is the location of the home and temple of Confucius, another UNESCO World Heritage Site and a large sprawling complex with some 460 rooms, second only in size to the Forbidden City in Beijing. The great sage's home was consecrated as a temple just two years after his death in 479 BC, but many additions and rebuilds have taken place over the years with fire damaging the complex on two occasions. The most recent renovation took place in 1499 and the majority of the buildings we'll see are from this time. We spend the whole day at the site exploring the temple, the family home and the cemetery, and learning about one of the great thinkers of history and the enormous impact he had on Chinese culture.

DAY 17 - Take the bullet train to Xian and visit the Muslim quarter

This morning we board the super-modern bullet train to Xian, departing just after 07:00 and arriving early afternoon. Our exploration of this incredible city reveals the extraordinary continuity of Chinese civilisation. Xian (Changan) served 11 dynasties and was the starting point of the famous Silk Road between Central Asia and Europe. We'll explore the Muslim quarter with its labyrinth-like alleys and great wooden mosque - the largest mosque in China originally built over a thousand years ago.

DAY 18 - See the magnificent Terracotta Army

Today we visit one of the highlights of any visit to China - the magnificent Terracotta Warriors and Horses who guard the Qin Shi Huangdi Tomb. There are thousands of life size warriors, dating from 200 BC, and each one is unique, leading some to theorise that they were based on real people. This dramatic find of the 1970s is considered one of the greatest archaeological discoveries of the last century. We will have time to stop at the on-site factory to see how the warriors are made today. In the afternoon we also visit the Big Wild Goose Pagoda, a 64 metre high structure which dates from the year 652 and provides superb views of the city. In the evening we take an overnight train to Beijing. We will be travelling in soft sleeper compartments, which have 4 berths per carriage and shared washing facilities.

DAY 19 - Discover the sights of Beijing including the Forbidden City and the Hutongs

Beijing is China's capital and its political and cultural centre. The city has been the capital since Kublai Khan put it at the heart of his mighty Asian Empire in the late 1200s. All clocks in this vast country are set by Beijing time despite the westernmost regions being some 5000 kilometres away. Today we'll visit the Forbidden City, the one-time home of the Ming and the Manchu (Qing) emperors and a treasure trove of eastern wares. We will walk around the infamous Tiananmen Square, which contains the Monument to the People's Heroes and the Mausoleum of Mao Zedong. We'll visit the Hutongs - narrow streets and alleys that have a timeless feel, they are the real heartbeat of the city. Walking around them we'll feel as if we are a world away from the gleaming skyscrapers of modern China.

DAY 20 - Walk along the iconic Great Wall of China

This morning we drive out to a renovated part of the Great Wall at Mutianyu, situated north of the city. Work on the wall began in the 3rd century BC by Shi Huangdi, thousands of conscripted workers laboured on it and many lie buried in its brick and stone ramparts. It is incredible to think that this wall spans the entire country! Here there is a 2km section to walk along with watchtowers and views of the surrounding countryside. En route we may also get to visit a cloisonné workshop where you can see examples of this ancient metal-working technique. There will be some free time in the afternoon and you may like to visit the Summer Palace, an old and very extensive imperial garden complex with a large boating lake and impressive palace buildings. There is also the possibility of seeing a Beijing opera in the evening, considered to be the best in China, or perhaps an acrobatic performance.

Accommodation notes

Booking a Single Room

All of our group tours are planned and operated on a twin-share basis, meaning that the standard cost is based either on individual travellers sharing accommodation with another group member of the same sex, or people who book together sharing accommodation. Please refer to the tour notes where the single room option availability is detailed on a night by night basis for this tour, and the price for the available nights is detailed on the dates & prices tab by departure date. For Self-Guided trips the Single Room supplement offers the option of a single room each and is charged per person. The Single Room supplement also applies to the third person in a party of three that will be accommodated in a single room.

On the ferry from South Korea to China the sleeping arrangements consist of bunk style beds either side of an aisle. Each bed has a curtain that can be drawn to ensure privacy. The washing facilities are shared. The accommodation in China is usually relatively modern, spacious and comfortable, albeit rather generic. Most hotels are large and purpose built and though rarely characterful, you can generally rely on good facilities. In major cities the hotels that we use are of international style generally with business facilities, restaurants and bars and all mod cons, though few have pools. In other cities and large towns the standard is similar although on a lesser scale. In small towns or villages where tourism is less prevalent, the hotels we use are smaller and facilities are more limited, though we generally stay in the best place in town. Rooms will still be en suite but can be basic. Plumbing and electricity supplies can be somewhat erratic and although the welcome is warm, service levels may be less efficient than you might expect. Please be aware that the beds in China are often quite firm and may take a few nights for you to get used to. Aboard the overnight sleeper train, berths are usually in 1st class 'soft sleeper' lockable compartments for 4 which have 2 sets of bunks with clean bedding provided. WC and washbasins are provided for shared use at the end of each carriage. Hot meals and snacks are usually sold to your berth on overnight journeys. In times of large demand we may have to travel in 2nd class 'hard sleeper' which consists of sectioned off compartments for 6, leading off an open plan carriage. The majority of hotels in China offer check in from 12noon. On days where we will arrive on a sleeper train the Tour Leader will try and arrange an early check in for the group, however this may not be possible.

Joining Tour Abroad

Customers booked on the 'Land Only' arrangements will now receive a Free Transfer, provided you arrive and depart on the tour only itinerary start and end dates. The transfers will be from the Explore designated airport or train station to the joining point of your tour, and then back from the ending point to the designated airport or train station. The exception to this rule is customers who are booked on a tour where the joining and ending point is at the designated airport or train station.

Free transfers are not available for Self-Guided, Tailormade or Tours for Churches customers.

If you are not eligible for the Free Transfer then you will need to make your own way through to the joining and ending point. On a majority of our tours Explore will be able to provide a private transfer at an additional cost. Please ask for a quote at the time of booking.

It is a condition of booking with Explore that you have adequate valid travel insurance. It is your responsibility to arrange appropriate travel insurance and ensure you have read and understood the full terms and conditions of your travel insurance policy to ensure that you are covered for all activities you intend to undertake whilst on the tour, including all optional activities. Your Insurance Policy must fully cover you for medical expenses and emergency repatriation to your home country. Please ensure your policy includes medical emergency helicopter evacuation in the event of illness or injury and covers the entire duration of your holiday. If you are trekking at altitude please ensure that there is no upper altitude limit which may limit or exclude cover for your trip. Medical and repatriation insurance cover is not mandatory for UK residents who are travelling on trips within the United Kingdom.
