In the afternoon we plan to visit the temple of Pashupatinath on the banks of the Bagmati River, the holiest Hindu shrine in Nepal, and also to visit Bodnath, the largest stupa in the country and a destination for Buddhist pilgrims from all over Nepal.

Pokhara is smaller and more relaxed than Kathmandu and is beautifully situated on the banks of Lake Phewa from where, on a clear day, there are superb views of the snowcapped Annapurna range, including Machhapuchhre - the famous 'Fishtail' mountain (because of its shape like a fish's tail). In the afternoon there will be a briefing by your tour leader to give you an idea of what to expect on a day to day basis while on trek and to make sure that everyone is properly equipped.

DAY 4 - Drive to start of trek; hike to Mala Lodge near Majgaun (1,400m)

This morning we depart Pokhara by road; it's about an hour drive to the point where the trek starts. Located near to the village of Majgaun, it's the newest in the Ker and Downey portfolio and enjoys a stunning location with great views of the 'Fishtail' mountain Machhapuchhre. We reach the lodge in time for lunch with the option to join an afternoon hike through the surrounding villages.

Today's two kilometre walk is expected to take around one-and-a-half hours with a total ascent of 210 metres.

DAY 6 - Trek to Trek to Himalaya Lodge near Ghandruk (2,000m)

Today's trek starts with a descent down switchbacks and steps to the Modi River which we cross by way of a strong suspension bridge. On the other side are the cliffs where the famed honey hunters of Nepal climb up on ropes to collect the honey from bees' nests on the cliff side. It's a fairly steep ascent from here to the Himalaya Lodge. The lodge affords magnificent close-up views of the surrounding Annapurna mountain range. It also overlooks the settlement of Ghandruk with its whitewashed, stone tiled houses clustered closely together on the valley side. Populated by the Gurung ethnic group, Ghandruk is a popular recruitment location for the Gurkha soldier regiment of the British Army.

Today's 10 kilometre walk is expected to take around five-and-a-half hours with a total ascent of 750 metres and descent of 315 metres.

We wake up this morning tea and enjoy coffee served in the garden and watch the sunrise over some of the highest peaks on the planet - Annapurna South, Annapurna 1, Hiunchuli, Gangapurna, and the Fishtail. Today's trail descends through small hamlets, terraced rice fields and forests with spectacular views. The descent follows the course of the Modi River Valley to our final lodge - Sanctuary Lodge. The lodge was constructed in the traditional mountain style by local artisans and has a beautiful garden where you can enjoy magnificent views of the sacred and unclimbed peak Machhapuchhre. Snacks are provided along the trail and a hot lunch is served on arrival at the lodge in the early afternoon.

Today's 10 kilometre walk is expected to take around five-and-a-half hours with a total descent of 850 metres.

On arrival back in Pokhara the afternoon is free to relax. You can hire a boat and spend time on the lake or explore the lakeside area where many of the souvenir and clothing shops are located. one-horned rhino, bird watching, jungle walks and a dugout canoe trip along the Rapti River. Trip information

Country information

Nepal

Climate

Temperatures in the lower altitude regions are extremely pleasant. At Pokhara variations in temperature are very limited: from the coldest recorded of 8°C (46°F) to the highest of 31°C (88°F). The mountains are best admired, with greater air clarity, from October to January, while from February to May the skies may be hazy. Monsoon rains are strongest in June, July and August. The coldest months are December and January.

Budgeting and packing

Clothing

While you are trekking, daytime temperatures will generally be warm. On this trek you do not go above 2500m, so although you will need a sweater or fleece for the evenings, weather will generally be mild. However it can be chilly in the evenings, particularly between November and February. Note that down jackets, fleece hats and gloves are provided at the trekking lodges for your comfort.

Long trousers - For everyday walking, light cotton or technical fabric trousers are the most suitable. Knee length shorts are also acceptable

Waterproofs - Breathable waterproofs not only protect against rain and wind but also stop you from

overheating. They breathe and avoid condensation which you will experience from nylon waterproofs. Rain during the trekking season is fairly rare but can be heavy if it does happen.

Gloves and warm hat - Useful in the morning and in the evening in the winter months.

Sunhat

Socks - It is best to wear a pair of reasonably thick loop stitch socks. These help to protect your feet against blisters. Avoid nylon socks, they are abrasive, don't breathe well and can cause blisters.

Fleece pullover/jacket - You will need a fleece pullover/jacket for the evenings. Make sure that your waterproof jacket is loose enough to wear over your pullover or fleece.

Thin Shirts/T-Shirts

Footwear

We strongly recommend you bring walking boots with ankle support- leather or fabric are both fine. Make sure that your boots are worn-in and comfortable before the start of the trip. Trainers and tennis shoes do not give the ankle support afforded by a decent pair of walking boots. Ideally, visit a specialist outdoor pursuits shop who will offer advice. Trainers or sandals are fine for relaxing and general wear. We suggest that on international flights you either carry your walking boots in your hand luggage or wear them - should your luggage be lost or delayed, your own boots are the one thing that will be irreplaceable.

Luggage

20kg

Luggage: On tour

Your luggage should consist of three main pieces:

Main Baggage: The item of luggage used to carry all your belongings in the hold of the plane and used to store all of the items you don't need on trek. This can be left behind at the group hotel used prior to the trek.

Trek Kitbag: Customers on all of our treks in Nepal receive a free Explore kitbag on the tour prior to the start of the trek. Approximately 80 litres in size it's ideal for all items you need to take on trek and the luggage preferred by our porters. The weight limit for this is 10kg but you will probably find that you do not need this much.

Daysac/Rucksack: 30-35 litres recommended. During the course of a trekking day, you do not have access to the luggage which is being carried for you by the porters. In any mountain region the weather can change rapidly and you must be equipped for this eventuality. Your daysac should therefore be large enough to carry waterproofs, fleece jacketweater, long trousers (if walking in shorts), sun hat, sun cream, water bottle (minimum 1 litre) and your camera. Most people normally find that this adds up to about 2 to 3kg. We advise you to take a waterproof rucksack cover or alternatively line the sack with a large plastic bag to keep the contents dry.

Advice on how and what to pack for the trek will be given at the tour briefing.

Equipment

Water Bottle - Large water bottle (preferably 2 litre). For environmental reasons, we do not encourage the purchase of bottled mineral water. The lodges provide filtered and boiled water and we recommended taking a bottle with in-built filter such as the Water-to-Go system www.watertogo.eu.

Torch/Batteries/Bulb - A small torch is essential. Head torches are particularly useful. Only a limited selection of batteries may be available locally so bring spare batteries and bulb.

Toiletries - Try to keep heavy cosmetics etc to a minimum. Towels, shampoo and soap are provided in the lodges.

Binoculars - Useful for game viewing in Chitwan.

Sunglasses - A good pair of sunglasses is essential for protection against UV rays and glare.

Sun Hat, Sun Cream/Block and Lip Salve - Choose a high factor suncream (Factor 15 or more) to protect your skin against the sun at higher altitudes. A combination sunblock/ lipsalve is ideal for facial protection.

Personal First Aid Kit - Each trek carries an extensive first aid kit but no prescription medicines. You should have your own supply of plasters, aspirin, diarrhoea tablets and also a comprehensive blister kit, plus any other items you or your doctor feels advisable. (Please do not give medicines to local people without consulting the trek leader.)

Trekking poles - Trekking poles with rubber points are recommended.

Swimsuit

Spare Laces

Chlorine Dioxide for water purification

Anti-bacterial handwash

Ear Plugs- some may find it more comfortable to bring ear plugs with them so that while in hotels and lodges they are not disturbed at night.

Insect repellent

Almost every item required for a trek can be purchased or hired in Kathmandu and your Tour Leader can advise on the best shops to visit at your tour briefing.

Tipping

Explore leader

At your discretion you might also consider tipping your Leader in appreciation of the efficiency and service you receive.

Local crew

Although entirely voluntary, tipping is a recognized part of life in this region of the world. Some local staff look to members of the group for personal recognition of particular services provided. Accordingly you should allow approximately £40 for gratuities for local staff.

In order to make things easier for you, the Leader may organise a group's tips kitty and if this is the case, they will account for it throughout the tour.

Nepal

Food and drink

The costs for meals may vary depending upon location, type of restaurant and number of courses eaten and so the prices given are an average guide. Local restaurants located off the beaten track may be less expensive, whereas an upmarket restaurant located in the centre of a major city may charge more.

Although you may occasionally find cash machines these are very unreliable - do not rely on plastic!
