Ice conditions and weather changes dictate our expedition plans. We'll start to cruise northwards along the west coast of Spitsbergen. There will be ample time ashore for hiking on the lush tundra and observing the remarkable bird cliffs near the 14th July Glacier, where even a few puffins nest between the cracks in the cliffs. ### DAY 18 - Northern flanks of Spitsbergen

We may visit trapper huts of yesteryear, where Russians and Pomors would hunt and survive the cold harsh winters, all the while remaining alert for wandering polar bears and their cubs. We might come face-to-face with the formidable pack ice of the Arctic Ocean, keeping our eyes peeled for walrus feeding on clams or hauled out on the beach in wallows. We will listen to the cacophony of sea birds and see them feeding in a big frenzy.

M/V Greg Mortimer (or similar)

Grade: Premium Boat

MEALS PROVIDED: BREAKFAST, LUNCH & DINNER

---

### DAY 19 - East Coast of Spitsbergen

Along the northeast coast of Spitsbergen we enter a different world - a polar desert. If ice conditions allow we will pass south through the narrow Hinlopen Strait. The strait is flanked by creamy coloured slabs of rock that are rich in fossils, as we will discover for ourselves when we go ashore. We may visit Alkefjellet in the Strait, where a series of one-hundred-metre-high dolerite towers are home to millions of Brünnich's guillemots - the penguins of the north - that occupy every available nook and cranny. Elsewhere, we seek out eider ducks and geese and hope to spot Arctic fox and beautiful ivory gulls.

### DAY 20 - East Coast of Spitsbergen

As the Greg Mortimer passes between Spitsbergen and the smaller islands of Barentsøya and Edgeøya, we cross the main polar bear migration route and the beautiful fertile plains of Sundeneset. The spongy ground is richly covered with bright green mosses, a variety of delicate and colourful flowers - such as

the yellow marsh saxifrage - various mushrooms, fungi, clear bubbling streams and small tarns. Tiny flowers such as Mouse Ears grow in Spitsbergen, creating mossy rock gardens. We explore this beautiful terrain on foot, marvelling at the contrast between the colourful soft ground and the barren, rocky, terrain from further north.

### DAY 21 - East Coast of Spitsbergen

### DAY 22 - Southern fjords of Spitsbergen

We enter the spectacular Hornsund Fjord, where we may take an early morning Zodiac cruise to admire the beautiful ice walls of the Samarin Glacier, or take a stroll beneath the towering seabird cliffs at Sofiebogen. In Bellsund Fjord, we are always on the lookout for beluga whales. Bellsund is a fjord that splits into two branches and was named after a nearby bell-shaped mountain, by William Barentsz in 1596. If time and conditions allow, we may visit the remnants of a Norwegian beluga whaling station, dating back to the 1930s.

### **Country information**

#### **Greenland**

##### **Climate**

Greenland has an Arctic climate with average temperatures in the North that do not exceed 10° C in the warmest summer months. In the southern part of the country and the innermost parts of the long fjords, the temperature can, however, rise to more than 20° C (68° F) in June, July and August.

##### **Time difference to GMT**

##### **Religion**

Church of Denmark

##### **Language**

Greenlandic however, Danish and English are recognised languages.

#### **Iceland**

## Climate

Iceland has a cool and temperate climate and, despite its location just south of the Arctic Circle, its northerly latitude is counteracted by the warm waters of the North Atlantic Drift which encircles the island. Temperatures in winter can fluctuate between about 10°C and -10°C and precipitation in the form of rain, sleet or snow is to be expected at any time. Days will be short, with daylight often only guaranteed between about 11 am and 4 pm in December. The best time for seeing the Aurora Borealis is October to March. Summer is generally cool with average temperatures for June and July around 12 - 15 degree centigrade in Reykjavik, although is known to be warmer in other parts of the country. In June and July you can enjoy continuous daylight and see the Midnight Sun, whilst late spring and early autumn offer long twilights.

## Spitsbergen

### Climate

Between May and September is the best time to visit this region, with summer temperatures reaching a maximum of 5 degrees centigrade. North of the Arctic Circle, the sun does not set between the middle of May and the end of July, so you can expect to encounter the midnight sun during this period.

## Budgeting and packing

### Optional activities

The following excursions and/or activities are usually available and may be arranged locally. Estimated costs are provided below for guidance only, are on a per person basis unless shown otherwise, and may depend on the number of participants. Prices quoted are correct as of the date these tour notes were originally issued but may change at any time due to currency fluctuations. Please note: These activities are booked and paid for direct with the supplier and do not form part of your Explore holiday contract.

Whilst landings are included in the cost of your trip as per the outline itinerary, some departures aboard the MV Greg Mortimer have additional optional excursions which can be pre-booked with the ship operator directly. These will be charged at an additional fee, depending on the excursion and we recommend booking these in advance to ensure availability. Please speak to a member of our Polar team who will advise you on the booking process.

## Clothing

### Parkas

A complimentary parka is provided for you on board the ship and is yours to keep after the voyage. It has a comfortable wind-resistant inner jacket, which is detachable from the waterproof outer shell, and is designed to be worn over your essential base layers.

## Gloves

Keeping your hands warm and dry can be a challenge. Thin polypropylene gloves can be worn underneath warm outergloves. This allows you some protection from the cold when removing your gloves to operate your camera etc. We strongly recommend that you bring more than one pair of gloves, in case one gets wet (or lost).

## Hat/Cap

Warm, woollen hat/cap to protect your ears, as well as a scarf, neck gaiter or other face protection, such as a balaclava.

## Trousers

Water-resistant trousers of coated nylon or, even better, Gore-Tex® are essential for your comfort. They can be worn over your regular clothes to keep you warm and dry. We suggest that you purchase trousers a few sizes larger than you normally wear as you will be wearing them over other clothing. Gore-Tex® or similar fabrics are excellent for keeping out wind and water without trapping excess heat. Rain gear and Gore-Tex® products can be found in any outdoor sport clothing store. In addition to your waterproof trousers, warm ski pants are suggested if you have them. Warm trousers such as jeans, corduroys etc are also good.

## Socks

Warm wool socks worn over a thin pair of silk, polypropylene socks should provide enough warmth and insulation for your feet. Bring several pairs of socks, since you will inevitably get your feet wet.

Outer Clothing Woollen, knit or cotton sweaters/tops, polar fleece tops (medium weight), several cotton turtlenecks and T-shirts for layering on and off the ship.

## Underclothing

Thermal underwear is highly recommended as it will keep you warm without adding bulk. Most polar travellers prefer a lightweight version.

## Footwear

Complimentary waterproof boots will be supplied on-board. However, if you have extra small or large feet, you are advised to bring your own.

Also ensure you take good walking boots and trainers for relaxing.

## Luggage

20kg

## Luggage: On tour

One main piece of baggage and daypack. Remember you are expected to carry your own luggage so don't overload yourself.

## Equipment

Sunglasses and sun cream

Insect repellent

Personal toiletries

A refillable water bottle

Books/reading material

Camera and memory cards

Seasickness remedy
