Spitsbergen, Greenland and Iceland - Expedition

Sail from Spitsbergen to Greenland, following the ice's edge always on the lookout for wildlife. Navigating south, explore this remote landscape not only by ship but also on foot and by Zodiac inflatable boat. This journey highlights the contrast and change in the Arctic as you move south, finally ending in the Land of Ice and Fire - Iceland. Inuit villages, unique wildlife and remote destinations are some of the highlights on this truly unforgettable voyage through the Arctic.

Spitsbergen & the Greenland Sea

Before heading west, we discover the Arctic nature and scenic wilderness of Spitsbergen, always on the search for walrus and the mighty polar bear. Possible areas to explore include Krossfjorden or Hornsund. We cross the Greenland Sea keeping a vigilant watch for wildlife, late summer icebergs and pack ice from the decks and observation lounge. This journey highlights the contrast and change in the Arctic.

Wild Greenland

The ship travels as far north as the ice allows before hugging the coastline towards Iceland. Every day is a new adventure as we explore this remote and spectacular national park with landings, trekking and Zodiac cruises. Inuit villages, unique wildlife and remote destinations are some of the highlights on this truly unforgettable voyage through the Arctic. It is a rugged world with tundra, fjords, icebergs, waterfalls and glaciers, but the tenacity of mankind is seen in remnants of explorers' huts, Greenlandic (Inuit) settlements and the Danish Sled Dog Patrol.

Slowly moving south, explore along the eastern coast of Greenland. In this remote and untouched landscape we search for wildlife such as walruses, seals, narwhals, polar bears, musk oxen, wolves, Arctic foxes, ermine, Arctic hares, lemmings, and a variety of birds. We will board our Zodiac boats to get a closer look at some of the birdlife and to walk in the tundra. Our southward journey will culminate in

Scoresbysund which is one of the largest fjord systems in the world with imposing granite walls, mountain peaks, glaciers and icebergs beautifully carved by the glaciers. From here we cross the Denmark Straits to Iceland.

Ship information

At a nimble 105 metres (345 ft) in length, with a capacity to hold 132 guests, the Expedition is an ideal vessel to ply polar waters. The ship is large enough to provide stability, speed, spacious cabins and ample public space. Yet she is small enough to manoeuvre in remote areas and get you close to the action. Ship stabilizers ensure a smooth ride in rough waters, allowing you to enjoy more of your time at sea. A fleet of ten Zodiacs allows passengers to get out and actively explore remote shores. The Expedition is a speedy vessel. A top speed of 16 knots means you'll spend less time getting from A to B, and more time exploring your surroundings.

Denmark

Climate

Due to Denmark's location in the middle of several seas, the weather is mild and the climate temperate year-round. Additionally, Denmark's day and night temperatures don't fluctuate that much. Summer time is from May to August with the temperatures often reaching the low 20°C. May is a lovely month to go as spring is at its height. Winter is from December to March with periods of frost and darker days with average temperatures of 0°C.

Climate

Iceland has a cool and temperate climate and, despite its location just south of the Arctic Circle, its northerly latitude is counteracted by the warm waters of the North Atlantic Drift which encircles the island. Temperatures in winter can fluctuate between about 10°C and -10°C and precipitation in the form of rain, sleet or snow is to be expected at any time. Days will be short, with daylight often only guaranteed between about 11 am and 4 pm in December. The best time for seeing the Aurora Borealis is October to March. Summer is generally cool with average temperatures for June and July around 12 - 15 degree centigrade in Reykjavik, although is known to be warmer in other parts of the country. In June and July you can enjoy continuous daylight and see the Midnight Sun, whilst late spring and early autumn offer long twilights.

Climate

Seasonal Climate Despite the northern latitudes the climate in Norway is not extreme, due to the affects of the North Atlantic Drift. Between May and September is the best time to visit this region, with summer temperatures reaching the high teens and rain a regular feature year round along the coast. North of the Arctic Circle the sun does not set between the middle of May and the end of July, so you can expect to encounter the midnight sun during this period.

Clothing

Parkas

This will be provided by the ship operator. Please register your size with us before travel and we will arrange for your parka to be available in your cabin on arrival.

Gloves

Keeping your hands warm and dry can be a challenge. Thin polypropylene gloves can be worn underneath warm outergloves. This allows you some protection from the cold when removing your gloves to operate your camera etc. We strongly recommend that you bring more than one pair of gloves, in case one gets wet (or lost).

Hat/Cap

Warm, woollen hat/cap to protect your ears, as well as a scarf, neck gaiter or other face protection, such as a balaclava.

Trousers

Water-resistant trousers of coated nylon or, even better Gore-Tex®, are essential for your comfort. They can be worn over your regular clothes to keep you warm and dry. We suggest that you purchase trousers a few sizes larger than you normally wear as you will be wearing them over other clothing. Gore-Tex® or similar fabrics are excellent for keeping out wind and water without trapping excess heat. In addition to your waterproof trousers, warm ski pants are suggested if you have them. Warm trousers such as jeans, corduroys etc. are also good.

Socks

Warm wool socks worn over a thin pair of silk, polypropylene socks should provide enough warmth and insulation for your feet. Bring several pairs of socks, since you will inevitably get your feet wet.

Outer Clothing

Woollen, knit or cotton jumpers/tops, polar fleece tops (medium weight), several cotton turtlenecks and T-shirts for layering on and off the ship.

Underclothing

Thermal underwear is highly recommended as it will keep you warm without adding bulk. Most polar travellers prefer a lightweight version.

Footwear

Complimentary, used, waterproof boots will be supplied onboard. However, guests might want to bring their own if they are the following sizes due to the limited quantities onboard:

- men's UK size 12 & 13 1/2

- women's UK size below three & seven and above

Guests must bring their own if they are:

- men's UK size six 1/2 or smaller

- men's UK size 13 1/2 or larger

- women's UK size two or smaller

- women's UK size nine 1/2 or larger

These are rubber, waterproof boots that are just below your knees with a strong, ridged non-skid sole.

You usually have to step from the Zodiac into icy water up to 30 cm high on most landings. Do not bring heavy, cumbersome boots that make it difficult to walk or boots with metal cleats, as they cannot be used for landings. For maximum warmth, wear loose-fitting boots and two pairs of socks. Try out your boots before the voyage.

Luggage

20kg

Luggage: On tour

One main piece of baggage and daypack. Remember you are expected to carry your own luggage so don't overload yourself.

A refillable water bottle

protecting camera gear)

Tipping

Local crew

Tipping is of considerable significance to the people who will take care of you during your travels. It is an expression of satisfaction. The suggested amount is USD \$10 - 15 per person per day spent on board. Of course, tipping is a personal choice and the suggested amount is set only as a guideline. The money is collected by the Hotel Manager at the end of the voyage and distributed among the crew and Expedition Staff. The Officers choose not to participate in the tipping pool.
