Itinerary

Itineraries on some departure dates may differ, please select the itinerary that you wish to explore.

DAY 1 - Join tour Antananarivo

Our tour starts at the hotel in Antananarivo. Madagascar's capital, known locally as 'Tana', enjoys a mild climate (1350m) and is a blend of the old and new with French colonial buildings, old wooden houses and modern offices and apartments. Our hotel is situated in the northern outskirts of town.

DAY 2 - Drive to colonial Antsirabe. Afternoon warm up ride

We start the day with a drive (4hrs) to the spa town of Antsirabe, located in the central highlands. Founded by Norwegian missionaries in the late 19th century, Madagascar's second-largest city has an elegant feel with wide boulevards and some interesting French colonial architecture. This afternoon we are introduced to our bikes, spending some time ensuring everybody is happy with the fit and making any necessary adjustments before taking off for our first ride, exploring different neighbourhoods of Antsirabe. A gentle introduction to local life and people, the ride covers some 16 kilometres before we head back to the hotel.

Our total cycling distance today is approximately 16 kilometres (total 80 metres accumulated ascent and descent).

ACCOMMODATION:
Residence Sociale (or similar)

Grade: Standard Hotel

SINGLE ROOM AVAILABLE

MEALS PROVIDED: BREAKFAST

DAY 3 - Cycle to Ambositra. Artisan wood carving demonstration

We leave Antsirabe this morning and avoid the city traffic with a transfer to the start of today's ride about an hour away. From here we start our first proper ride on the undulating road southwards, past many rice terraces and small family farms to Ambositra where we spend the night. Ambositra is the centre of Madagascar's wood carving industry, listed as one of UNESCO's Intangible Cultural Heritage and this afternoon we plan a visit to a local workshop to learn more about the Zafimaniry carpenters and their art.

Our total cycling distance today is approximately 60 kilometres (total 740 metres accumulated ascent and 800 metres descent).

Motel Violette (or similar)

Grade: Standard Hotel

MEALS PROVIDED: BREAKFAST AND LUNCH

DAY 4 - Cycle to Ranomafana National Park

After breakfast we drive around one and a half hours to the start of today's ride. Our route takes us past rice paddies and villages and passes through pine and eucalyptus forests. The winding road passes varied landscapes with rugged ridges and giant boulders before we finally descend through primary tropical rain forest to our accommodation for the next two nights, situated amid lush nature near Ranomafana. Entrance to the park lies around 12km from the hotel and it was here in 1987 that a new species of lemur - the Golden Bamboo lemur - was discovered. Around 21km of today's ride is on dirt roads.

Our total cycling distance today is approximately 59 kilometres (total 770 metres accumulated ascent and 1460 metres descent).

DAY 5 - Rainforest trek in Ranomafana National Park, searching for lemurs and birdlife

Taking a break from the bikes today we explore one of Madagascar's natural highlights on foot. After an early start and short drive to the park entrance the morning will be spent in the park learning about the abundant flora and fauna (approx. 4hrs, 4km). Most lemur species are endangered, the last survivors of a once abundant family of primates, now confined to pockets of forest and bush throughout Madagascar. Deforestation has taken a heavy toll on Madagascar and these arboreal creatures - only about 80 species remain. With luck we may see some of the species found in the park including Red-Bellied lemur, Grey Bamboo lemur, Milne-Edwards' sifaka and perhaps the Black and White Ruffed lemur and the extremely rare Golden Bamboo lemur. We may also spot the Malagasy boa constrictor, chameleons, the black parrot, cuckoo roller and many other birds. We return to Ranomafana village in time for lunch and there is the option to visit some hot springs. In the afternoon you can relax in the hotel garden or there will be an additional optional walk within the park with a chance to spot the species not already seen during the

morning. In the evening an optional night walk can be organised to learn about nocturnal wildlife in the area.

No cycling today.

DAY 6 - Picturesque cycling amid tea plantations to Sahambavy; visit tea factory

Leaving Ranomafana behind us, we have a short transfer this morning to the start of today's ride. Back on the bikes our route takes us to Sahambavy passing through more hamlets and fields and eventually the beautiful scenery of Madagascar's only tea plantations. Part of today's ride is on a gravel road as we reach the Sahambavy Tea Plantation. We allow time to visit the tea factory and along the way we will have the chance to observe local life and hopefully meet some pickers.

Our total cycling distance today is approximately 44 kilometres (total 780 metres accumulated ascent and 830 metres descent).

DAY 7 - Cycle to Ambalavao via Fianarantsoa; visit photo studio and artisan paper manufacturer

This morning we cycle straight from the hotel to Fianarantsoa; regarded as the cultural and intellectual capital of Madagascar. The road north of town is flanked by vines as the early religious settlers of Fianarantsoa started Madagascar's only wine industry. We will stop to explore the impressive architecture of the historic centre and plan to visit the photo studio of one of the most famous photographers in the country. Known locally as Fianar this point in our journey marks the end of the central highlands and the beginning of the dry country to the south. We drive a short distance out of town before starting the second leg of today's ride following a windy road to the lively market town of Ambalavao where we spend the night. We plan to visit a local artisan 'Anteimoro' paper manufacturer.

Our total cycling distance today is approximately 67 kilometres (total 940 metres accumulated ascent and 1290 metres descent).

DAY 8 - Cycle to Anja Reserve conservation project, home to ring-tailed lemurs

Cycling from our hotel this morning we ride through grasslands dotted with granite mountains to Anja Reserve - a local community project - where we have a chance to watch troupes of ring-tailed lemur among the boulders. A walk of around 1.5hrs takes us into the forest to spot lemurs and other animals. Continuing south by bus (2.5hrs) the pine trees thin out and the fertile soil of the highlands gives way to drier savannah, cactus and termite mounds. We finally reach Ranohira late in the afternoon, situated on the edge of Isalo National Park and our home for the next two nights.

Our total cycling distance today is approximately 70 kilometres (total 800 metres accumulated ascent and 1020 metres descent).

DAY 9 - Isalo National Park on foot, admire Madagascar's 'Grand Canyon'

Best explored on foot we explore the stunning landscapes of Isalo National Park today. Dervla Murphy, in her book 'Muddling through Madagascar' describes Isalo NP thus - 'Landscapes that are literally incredible. You don't believe it. You think you're hallucinating. How can wind and water have done all this?' Natural erosion has produced fantastic canyons and bizarre outcrops of wind-blasted sandstone. There are patches of deciduous forest throughout the reserve which are home to lemur groups although they are shy and rarely seen. The temperatures are much hotter and plant life reflects this with moisture retaining species such as succulents, aloes and the extraordinary dwarf baobabs. Rivers and rock pools feed the rich jungle found in the valley bottoms. Our walk (approx. 8km) will take us to natural rock pools where you can cool off. We return to the hotel this afternoon.

No cycling today.

DAY 10 - Cycle to sapphire mining Ilakaka. Drive to coastal resort Ifaty. Baobabs

Today is our final day on the bikes and we ride directly from the hotel along the edge of Isalo NP; taking in some more of this incredible scenery in the early morning. The ride ends in Ilakaka where we learn about the local sapphire mining operation - the largest in the world! This afternoon we drive for about 5 hours to Ifaty Beach, a small resort on the west coast, our base for the next two nights. We plan to make a stop en route, at lunchtime, at Toliara. The final one hour drive has some good Baobab photo opportunities. The afternoon is free to relax. Optional excursions for your time here include snorkelling, whale watching, diving and a jeep trip to see more Baobabs and some villages.

Our total cycling distance today is approximately 27 kilometres (total 260 metres accumulated ascent and 350 metres descent).

Today has been left free to relax or explore the area. Ifaty Beach is a huge bay protected by a barrier reef up to seven kilometres from the shore. Traditional fishing villages are scattered along the bay and the Vezo people still use sail-powered outrigger canoes. There is an option to visit the reef for snorkelling. There is also an excellent optional forest walk in the Reniala Reserve just inland from the beach area, where strange spiny forest can be found and some of the most attractive of the endemic bird species, such as the long-tailed ground roller, sub-desert mesite and sickle-billed vanga.

No cycling today.

The climate is tropical, but cooler in the highlands (dropping as low as 5°C at night in July/August in Antananarivo and Andasibe). The dry season is March to October continuing into November in most areas. The east coast is best March-May and September-November, January-March is cyclone season. The south west area is hot, dry and semi-arid. March-April is the best time for flowers and reptiles. Optional activities

The following excursions and/or activities are usually available and may be arranged locally. Estimated costs are provided below for guidance only, are on a per person basis unless shown otherwise, and may depend on the number of participants. Prices quoted are correct as of the date these tour notes were originally issued but may change at any time due to currency fluctuations. Please note: These activities are booked and paid for direct with the supplier and do not form part of your Explore holiday contract.

Ifaty - Snorkelling 38 Ariary per person, Whale watching 152 Ariary per person, Diving 152 Ariary per person, Jeep excursion villages and Baobabs 38 Ariary per person (min number required)
Ranomafana National Park - Additional guided walk 38 Ariary per person (min number required)
Toliara - Arboreteum 46 Ariary per person, Spiney Forest Walk 69 Ariary per person (depending on numbers)

Clothing

Prepare for a variety of weather but generally hot. We recommend you bring padded cycle shorts, cycle gloves and quick drying cycle shirts. In case of rain, waterproofs are essential. We operate this trip in the dry season from April to October at which time it can be cold on the central plateau (including Antananarivo) at night. Isalo on the other hand will be hot in the day and cool at night. Isalo should be dry, while Ranomafana can get very wet. Bring swimwear for the hot springs, rock pools and sea. Culturally it is acceptable to wear shorts.

Footwear

If you are not bringing cycle shoes then try to bring stiff-soled shoes as these are better for cycling - transmitting your energy into the pedals more efficiently. This becomes more relevant and recommended the more demanding the grade and distances to cover. SPD cycle shoes are not well suited to tours that combine sightseeing with cycling.

Comfortable shoes, trainers, sandals or flip flops are useful when not on the bike.

Luggage

18Kg

Luggage: On tour

One bag or suitcase and a daybag.

Equipment

On all Explore cycle holidays we strongly recommend you bring along and wear your cycle helmet. In case of an accident resulting in personal injury, certain insurance policies are invalidated in cases where a helmet was not being worn. Cycle glasses to protect against dust, pollen and the sun, padded cycle gloves and a water bottle or water delivery system (e.g. camelback or platypus) are also useful. You may choose to bring your own gel seat cover for added comfort. If a handle bar bag or pannier is not provided (check bike details) then you may like to bring a small rucksack to wear while cycling. Other items to consider bringing are a sunhat and sun cream, torch, earplugs and insect repellent. Please carry some or all of your cycling equipment e.g. helmet as part of your hand luggage.

Tipping

Explore leader

Tipping isn't compulsory, and we work hard to ensure that our leaders all receive a fair wage. However, you might want to recognise a leader that's done a great job or really added to your trip by giving them a tip. We're often asked about the recommended amount. It's a tricky one, and down to personal preference, but we'd recommend between £15 to £20 per person per week as a guideline.

Local crew

Although entirely voluntary, tipping is a recognised part of life in this region of the world. Some local staff will look to members of the group for personal recognition of particular services provided. In order to make things easier for you, your leader may organise a group's tips kitty for included activities and meals and if this is the case, they will account for it throughout the tour.

Accordingly, you should allow approx. £35.00 per person for tipping.

In order to make things easier for you, the Tour Leaders may organise a group's tips kitty and if this is the case, they will account for it throughout the tour.
