DAY 2 - Visit Madaba and cycle to Mt Nebo and descend to Dead Sea

After the welcome meeting we visit the spectacular Byzantine and Umayyad mosaics of Madaba including the famous 6th century mosaic map of the Holy Land. We then start cycling toward Mt Nebo, reputedly the burial place of Moses and certainly the site for a spectacular view over the valley below. We will stop en route for our included picnic lunch. Freewheeling down the stunning series of switchbacks towards the unique setting of the saline waters of the Dead Sea, at nearly 400m below sea level the lowest point on earth is a great way to start this trip! Surrounded by barren hills, this unparalleled body of water has an amazingly high salt content (33%), resulting in the absence of any form of animal life and creating an almost impossible propensity to sink. We will have the opportunity to ‘swim’ in its buoyant waters and enjoy the therapeutic properties of its mineral rich mud before continuing on up to Shobak by bus for our overnight stop.

On all of the rides you will be provided with filtered water, tea and seasonal fruit and veg for snacks (included).

Our total cycling distance today is approximately 36 kilometres (total 82 metres asent and 1273 meters descent).

DAY 3 - Cycle from Shobak Crusader Castle to Petra

This morning, we drive the short distance across the valley to Shobak Castle. The first of the series of Crusader Castles built in Jordan, it was constructed by Baldwin I in 1115 and only surrendered in 1189 to the Great Salahdin. After our visit to this isolated stronghold we will continue on our journey on the Kings Highway. An ancient road that once carried the treasure laden caravan's of Solomon, to the fabled Nabatean city of Petra, one of the highlights of our journey and surely one of the most spectacular archeological sites on earth. We cycle the undulating landscape through the fabled land of the Edomites, once home to the largest of the three Transjordanian Iron Age kingdoms that inhabited these wild upland regions. Descendants of Lot’s brother-inlaw Esau, the Edomites went on to become rich from trade in copper and luxury goods, before making way to the emerging Nabatean kingdom that went on to create the majesty that is Petra. We will stop en route for our included picnic lunch before continuing southwards as our route takes us from an elevation of some 1700m down to about 1000m and we skirt the lower slopes of the mountains that lead the way to Petra. Tonight there is the opportunity to visit Petra lit by candlelight, a majestic experience.
Our total cycling distance today is approximately 42 kilometres (total 800 metres ascent and 1014 metres descent).

**DAY 4 - Exploring Petra**

Abandoned centuries ago Petra was the rock cut stronghold of the Nabateans, a fortress city built to protect the lucrative levies its citizens imposed on the rich caravans heading north. Surrounded by imposing mountains and approached through a deep, narrow cleft in the rocks, known as the Siq, it is a unique and unforgettable place and, enhanced by the play of light and shadow, an altogether overwhelming experience. Approaching on horseback this morning, we then enter the Siq on foot, following its towering sandstone walls towards the site of the captivating and iconic splendour of the beautiful Khazneh (The famous Treasury). A guided walking tour will take us to some of the key parts of this remarkable and ancient site, one of the most impressive and exciting anywhere in the world. We'll take in the Colonnaded Street and the Royal Tombs, enjoy the site of its amazing theatre, with its 8,000 seats carved from the solid rock. A free afternoon affords the possibly of climbing the steep track up to the magnificent sacrificial 'High Places' (altars) and the top of Jebel Harin (1396m) for a stunning view over Wadi Araba and the Negev Desert. Here we find the Monastery, the largest of Petra's monuments and certainly a highlight to any visit to the city. Towering to a height of 40m its doorway alone measures 8m in height, dwarfing anyone framed within it and it is certainly worth the steep climb up to it. This evening you have the opportunity to enjoy a Bedouin cookery demonstration and meal at a nearby restaurant, learning how to make a traditional Makloubah (upside down) dish, with meat, rice and fried vegetables, followed by Um Ali, a creamy Arabic dessert with croissant pieces, raisins and nuts (No cycling today).

DAY 5 - Free time in Petra. Cycle to Little Petra and El Beidha

We have a free morning to revisit the Petra site, relax or shop in Wadi Musa. After a traditional Bedouin meal for lunch we take to our bicycles again and ride to Little Petra - a satellite of the main site. We can also visit the important Neolithic site at nearby El Beidha to view an excavated Stone Age village where the remains of houses, fireplaces and workshops that date back to around 6000 BC have been excavated, providing visitors with access to one of oldest excavated Neolithic sites on earth. On return to Wadi Musa what better way to relax this evening than with a traditional Ottoman Bath (optional).

Our total cycling distance today is approximately 20 kilometres (total 399 metres ascent and 414 metres descent).

DAY 6 - Cycle to Wadi Rum and overnight in desert camp

Returning to the Kings Highway we pedal south over undulating upland pastures including a few long but gentle ascents and finally, the five-mile freewheel down to the southern desert. Today’s picnic lunch spot offers views over Arava and Israel beyond. Cycling along the Old Desert Highway and negotiating sand drifts across the road, we then transfer by bus the remaining kilometres to Wadi Rum. A place that seems more akin to the surface of a distant planet than to anything on earth. The combination of its immensity, colour and awe-inspiring shapes creates an atmosphere that is almost supernatural. Lawrence of Arabia, who held Wadi Rum in high esteem, wrote: ‘Our little caravan grew quite self-conscious, and fell dead quiet, afraid and ashamed to flaunt it’s smallness in the presence of the stupendous hills. Landscapes in childhood’s dreams were so vast and silent’. We have the opportunity this afternoon for an optional camel ride to enjoy the stunning sunset as we ride or walk through a landscape of sandstone mountains and white and pink coloured sands. The private campsite we use is intimate and for Explore’s exclusive use. The camp is located away from the main road and tourist centre and within the Wadi Rum protected
area with great views over the desert. This evening presents the opportunity to experience traditional Bedouin living arrangements in a large communal style goat hair tent, which provides the best protection against typical desert extremes of hot and cold weather. The tent is laid out with rugs, mattresses, pillows and blankets and is where each tribe would commune to eat, sleep and socialise. Another Explore group may be at the campsite this evening if the itineraries coincide. After time to settle in and have dinner, we learn to prepare Bedouin coffee in the traditional way. Coffee beans and cardamom pods are roasted over an open fire, before brewing the coffee and enjoying its flavour. The rest of the evening is normally spent around a campfire, with spectacular desert stars overhead. A toilet and wash block with limited washing facilities is also available during our stay.

Our total cycling distance today is approximately 58 kilometres (total 770 metres ascent and 1240 metres descent).

**DAY 7 - Cycle from Wadi Rum and continue on to Aqaba by bus**

On our final day of cycling, we cross the Hejaz railway line and tour the desolate parts of Wadi Rum riding on the ‘Jelada’ the hard dried mud left from the rare rains. Few other visitors venture to these areas but for cyclists it is an easy riding surface and perfectly flat! A strange world of bleached bones and mirages turn the surrounding hills into towering islands. We will stop for a picnic lunch in a remote shady spot before making our way out of the desert and by afternoon transfer by bus to take us to Aqaba and Jordan’s only seaport. As we take our last views out across the Jordan Valley we reach Jordan’s southern borders, leaving behind the desert and entering a landscape of palm groves and coral reefs, warm glistening waters and the impressive backdrop of the Jordanian Heights.

Our total cycling distance today is approximately 35 kilometres (total 181 metres ascent and 210 metres descent).

Optional activities
The following excursions and/or activities are usually available and may be arranged locally. Estimated costs are provided below for guidance only, are on a per person basis unless shown otherwise, and may depend on the number of participants. Prices quoted are correct as of the date these tour notes were originally issued but may change at any time due to currency fluctuations. Please note: These activities are booked and paid for direct with the supplier and do not form part of your Explore holiday contract.

Petra - Petra by night JD17.00 pp; Ottoman bath JD25.00 pp; Cookery demonstration and meal JD25.00 pp.
Wadi Rum - Camel trek JD20.00 pp.
Aqaba - Snorkelling on coral reef including lunch and snorkelling kit JD35.00 pp; Snorkelling from Boat (snorkelling equipment included) JD35.00 pp; Berenice Private Beach club - entrance fee JD10.00 pp.

Clothing
When cycling: quick drying cycle tops, padded cycle shorts, lightweight wind and water proof jacket and warmer breathable layers where local conditions require.
General: Pack essentially for hot, cold or mild weather depending on the time of the year.

Footwear
If you are not bringing cycle shoes then try to bring stiff-soled shoes as these are better for cycling -
transmitting your energy into the pedals more efficiently. This becomes more relevant and recommended the more demanding the grade and distances to cover. SPD cycle shoes are not well suited to trips that combine sightseeing with cycling. Comfortable shoes, trainers, sandals or flip flops are useful when not on the bike.

Luggage

20kg

Luggage: On tour

We recommend you bring a daypack and one main piece of luggage (total allowance: 44lb/20kg) which will be transported between hotels while you cycle. Check the bike details section to see if a pannier or handlebar bag is provided on the bike. Hotel porters are not always available, so don't overload yourself. Please note you will only carry what you need to the camp in Wadi Rum and main luggage will be transported directly from Petra to Aqaba.

Equipment

On all Explore cycle holidays we strongly recommend you bring along and wear your cycle helmet. It is a legal requirement in Jordan to wear a helmet that meets current safety criteria. In case of an accident resulting in personal injury, certain insurance policies are invalidated in cases where a helmet was not being worn.

Cycle glasses to protect against dust, pollen and the sun, padded cycle gloves and a water bottle or water delivery system (e.g. camelback or platypus) are also useful. You may choose to bring your own gel seat cover for added comfort. If a handle bar bag or pannier is not provided (check bike details) then you may like to bring a small rucksack to wear while cycling. Other items to consider bringing are a sunhat and sun cream, torch, earplugs and insect repellent. Please carry some or all of your cycling equipment e.g. helmet as part of your hand luggage.

Tipping

Explore leader

Tipping isn't compulsory, and we work hard to ensure that our leaders all receive a fair wage. However, you might want to recognise a leader that's done a great job or really added to your trip by giving them a tip. We're often asked about the recommended amount. It's a tricky one, and down to personal preference, but we'd recommend between £15 to £20 per person per week as a guideline.

Local crew

Although entirely voluntary, tipping is a recognized part of life in this region of the world. Some local staff will look to members of the group for personal recognition of particular services provided. In order to make things easier for you, your leader may organise a group's tips kitty for included activities and meals and if this is the case, they will account for it throughout the tour.

Accordingly, you should allow JD20.00 (Jordanian Dinar) per person for group tipping.

International Departure Taxes

The Jordanian government levies on all travellers a departure tax of JD8.00 per person. For travellers departing by air this is usually included in the taxes on the airline ticket and thus nothing will be collected from you at the point of departure. For those travellers departing by land, this will be collected
by the immigration authorities at the port of departure from Jordan.

**Jordan**

**Food and drink**

The costs for meals may vary depending upon location, type of restaurant and number of courses eaten and so the prices given are an average guide. Local restaurants located off the beaten track may be less expensive, whereas an upmarket restaurant located in the centre of a major city may charge more.

**Foreign Exchange**

**Local currency**

Jordanian Dinar

**Recommended Currency For Exchange**

Sterling and US$ are widely exchangeable though exchange rates tend to favour the US$. It is worth taking some money in cash. You may be able to order Dinars from your bank although the rate will usually be lower than purchasing currency in country.

**Where To Exchange**

Banks or ‘Forex’ offices in main towns/cities.

**ATM Availability**

ATMs are widely available, but do not always work.

**Credit Card Acceptance**

In hotels and some larger shops/restaurants.

**Travellers Cheques**

Travellers Cheques, although still the safest way of carrying money, are difficult to cash in Jordan. There are high commission charges on Travellers Cheques on a per cheque basis so if using them we suggest you take high denomination cheques. Proof of purchase may be necessary for encashment of Travellers Cheques.

**Transport, Accommodation & Meals**

**Transport Information**

Bus, Bicycle

**Accommodation notes**

Comfortable - Our mid-range accommodation offers a good level of service often with other amenities such as a restaurant, bar, garden or swimming pool. Generally rooms will be comfortable with en-suite facilities.
Simple - We stay one night in a simple Beduin campsite, private for Explore travellers. The large communal tent is laid out with rugs, mattresses, pillows and blankets. There are limited washing facilities and separate WC tents.

Jordan's tourism infrastructure is well developed and standards are generally good. However, due to the recent considerable rise in tourism in Jordan, hotels are experiencing very high demand for rooms', particularly in and around Petra. This high demand can lead to lower levels of service and quality, as well as occurrences of overbookings, which are often notified to us at a late stage. For this reason, we would like to emphasise that hotel accommodation, including the standard of, is subject to change and facilities are often simple. However, we are confident that these issues are vastly outweighed by our close proximity to historical Petra perfect for exploring. Please note that some hotel swimming pools in Jordan may operate separate timetables for men and women.

Why book this trip

On this trip we use locally-graded and centrally-located 3 star hotels that are close to restaurants, shops and main sites of interest. Our desert camp lends for a better experience as it is a private camp in the heart of Wadi Rum, 20 km deep inside the desert rather than a shared camp by the main road. You can spend a breath-taking night under a blanket of stars amid sand dunes and desert scenery. Unlike many other operators we visit the Crusader castle of Shobak with stunning views over the Jordan valley. Our fantastic back up crew look after you while cycling and the major highlight of Petra is brought to life by an expert local guide.
