Itinerary

Itineraries on some departure dates may differ, please select the itinerary that you wish to explore.

DAY 1 - Trip starts in Ukraine's capital Kyiv

This adventure through two fascinating countries begins in Ukraine's capital city, Kyiv, on the banks of the Dnieper River. The city has been inhabited for almost 2,000 years and was once the capital of the Kyivan Rus State, from which all later Russian states descended. Although Ukrainian nationalism is stronger than ever, you will still hear Russian spoken widely here today.

You will be met on arrival at Kyiv's International Airport (KBP) by a local guide, and driven to your centrally-located hotel. There are no activities planned today, so feel free to arrive in Kyiv at any time. For those booking their own flights, you will just need to let us know your flight details no later than two weeks prior to departure, in order to be met on arrival.

You'll have the rest of the day free to relax and take in the city. There is a wide selection of good restaurants and bars to choose from in the evening. Ukraine is well known for its dumplings, called varenyky, that come with a range of different fillings such as mutton, cabbage or sweeter varieties like cherry. You should also try nastoyanka, which is a Ukrainian liqueur made from honey and herbs and comes in a selection of fruit flavours and even horseradish! Potential dining spots include Spotykhach Restaurant, which is a retro Soviet style canteen cellar or for something quicker, you could try the local fast food at Kyivska Perepichka, which specialises in fried dough encased sausages.

Please note that many of Kyiv's museums close on a Monday or Tuesday, so if you wish to visit a particular attraction then please check that it is open on the day you want to visit.

DAY 2 - Kyiv guided tour and explore the Museum of the Great Patriotic War

It's a busy day today, with the aim of exploring a selection of Kyiv's many historic sights and to get a feel for this great city. Start with a guided walking tour of the highlights, including the Golden Gate which was once the main entrance to the city, Saint Andrews Baroque church and the onion domed exterior of Santa Sophia Cathedral. The cathedral is the city's oldest remaining religious building and inside we'll have the chance to see mosaics and frescoes that date back to 1017.

This afternoon, take the metro to Arsenalna, which is the deepest station in the world, and continue by metro to the Museum of the Great Patriotic War, which is one of the largest museums in Ukraine and tells the story of the German-Soviet War in iconic and Brutalist style. It has over 300,000 items on display and the memorials are spread over 25 acres. From here, the imposing Mother Motherland statue takes over the eyeline - at 100 metres high it was built to honour the heroes of the Soviet Union.

DAY 3 - Free time in Kyiv; take the afternoon train to Odesa

This morning is free for you to further explore Kyiv, or there are several popular excursions located just outside the city. You might like to visit the Mezhyhirya Residence Museum, which is the lavish property where Ukraine's controversial former president Yanukovich resided before the 2014 uprising. Or

perhaps you'd prefer to visit the Pyrohiv Open Air Museum, which exhibits a range of historic wooden buildings that demonstrate traditional Ukrainian architecture and what life would have been like in bygone times.

Alternatively, visit the Lavra Historical and Cultural Reserve to see the remarkable 'Monastery of the Caves' founded in AD 1051, where the labyrinths provide all the natural conditions needed for mummification. When the monks first dug into the ground they discovered the soil was rich in silver and so this helped the monastic complex to grow in size and today we can see the huge number of ornately decorated buildings that were created.

There is also plenty to do in Kyiv, and with limited time in the city on this trip it is well worth some free time spent here. Perhaps explore the leafy parks in the Holosiivskyi District on the banks of the Dnieper River.

In the afternoon, you'll be taken to the train station for the seven hour train journey to Odesa, arriving around midnight.

DAY 4 - Odesa walking tour; chance to see the world's largest catacombs

Set off this morning with a local guide on a walking tour of Odesa. Wandering down the tree-lined Primorsky Boulevard, see the many steps of the Potemkin Stairs leading down to the seafront, the beautiful Opera House and Palace of Count Vorontsov, and a few of the more unusual highlights like the Mother-in-Law Bridge, Devil's House and Monument to the Orange Tree. The Devil's House is an especially interesting building; when times were hard the owners of the land didn't have enough money to build a house with four walls, so they built it with three. When looking at the house it creates the optical illusion that the house only has a front wall and like it shouldn't be able to remain standing, which has given it the nickname Devil's House.

This afternoon is free for you to continue your own explorations. You may choose to take a trip with a local guide down to the world's largest network of underground catacombs and learn of their fascinating history through the ages.

DAY 5 - Free day in Odesa with the chance to visit Dniester National Park

Today is free for you to enjoy the city and to relax on one of its popular sandy beaches. Alternatively there are a number of different excursions for you to get a feel of Odesa's military or Soviet heritage.

You could visit Coastal Defence Number 411, which is now an open air museum and a Memorial for the Heroic Defence of Odesa during World War II. Here you can see an armoured train, artillery guns, an Odesa tank (armoured tractor) and a post-war submarine.

You may like to join a day trip to Dniester National Park, which is around 50 kilometres drive from the city. During the days of the Soviet Union the Dnieper River was in a poor state. It was over fished, used for irrigation and hydropower, dredged for sand and in 1983 it suffered one of the worst environmental disasters in recent history when a liquid-waste reservoir collapsed and over 4.5 million cubic meters of toxic brine was released into the river - killing wildlife and polluted drinking water. It took years to recover, but now the river estuary is protected. You can enjoy a bird watching boat trip across the wetlands to see some of the 1,500 species of flora and fauna found in the delta. The national park is best known for its birdlife with 254 species found here, including 11 on the endangered list. You may spot pelicans, spoonbills, egrets and glossy ibises amongst others.

For food lovers and bargain hunters you could enjoy a trip to three of Odesa's most famous markets. The Flea Market selling many old Soviet items; Privoz the bustling food market best known for its fresh fish and the Seventh Kilometre Market, which is Europe's largest outdoor market and built out of a maze of shipping containers, which sell everything you could possibly imagine from wedding dresses to leather goods and from ceramics to telescopes.

DAY 6 - Visit a breakaway state and Chisinau, the capital of Moldova

Today is a long driving day, as you travel to Chisinau, the capital of neighbouring Moldova. It's well worth it, as you'll experience en route one of the most unique places in Europe - Tiraspol, the capital of the breakaway state of Trans-Dniester. It will be quite a long drive and the border crossing can take time. In total the journey will take about seven to eight hours and you'll reach the hotel at dinner time this evening. It's worth thinking about getting some snacks for the drive on your free day in Odesa.

Unlike the rest of Moldova, Trans-Dniester hadn't wanted to separate from the Soviet Union, so back in 1992 after a short conflict they declared their independence. However, it's not recognised by any of the United Nations as an independent state even though it has its own government, military, postal service, currency, flag and national anthem. On arrival, take some time for lunch before going to the Kvint Brandy Factory for a tour - it's also possible to do a brandy tasting here, and well worth it! Kvint is considered by the locals to be a national symbol of Trans-Dniester and even appears on one of their banknotes. You'll have a local guide in the city who will take you to explore on foot, viewing the numerous war memorials that the city is so proud of and learning a little of the city's fascinating political background.

From here to Chisinau is another two hours, approximately. Located in the very heart of Moldova, the city has a chequered history, dating back to 1420. However, most of it was destroyed during World War II and an earthquake in 1940, so the architecture is mainly in the striking 1950s Soviet style, but there are also two large parks, which give the city a much greener feel. You will find the Moldovans to be some of the friendliest people in Europe and nowhere is that more obvious than in Chisinau.

This evening is free for you at your leisure - dinner at the Propaganda Restaurant is recommended, if there is availability. Designed to resemble a Soviet era apartment, the food consists of traditional Moldovan dishes with a modern twist.

DAY 7 - Chisinau walking tour; visit the ancient churches at Orheiul Vechi

Explore Chisinau on foot with a local guide, including the Orthodox Cathedral of Christ's Nativity and the Holy Gates, which are known as Moldova's 'Arc de Triomphe', as well as the local bazaar and Stephen the Great Park and Monument. Stephen the Great was the Prince of Moldavia who reigned in the 15th

century and gained popularity for successfully defending the country from the Hungarians, Polish and Ottoman Empire. Join the locals promenading down the Avenue of the Classics of Moldavian Literature, lined with statues and busts of Romanian and Moldovan authors and social figures.

You'll have the opportunity (optional) to visit the emotive Army Museum in the Centre of Culture and Military History. The exhibits here document Soviet-era repression and the crimes perpetrated by Lenin and Stalin. They tell the story of mass deportation, gulag labour camps, manmade famines and other harrowing tales.

This afternoon, leave the city and discover the site of Orheiul Vechi, in rural Moldova. Of great historical and archaeological importance, the site is home to one of the most unusual church complexes in Eastern Europe. Set in a ruggedly beautiful valley gorge, shaped by the Raut River, there are several ancient monuments amongst and carved into the huge limestone outcrops that date from 10 century BC up to 14 century AD. The Cave Monastery was dug into the cliff by Orthodox monks. Take the opportunity to have a traditional Moldovan meal here before returning to the city - traditional dishes include zeama - a tasty chicken soup - and mamaliga - a type of polenta with fried meat and fresh seasonal vegetables washed down with homemade wine.

DAY 8 - Drive back into Ukraine; walking tour and castle visit in Kamianets-Podilskyi

Leave early this morning and bid farewell to Moldova. The drive back into Ukraine takes around seven hours, but stops will be made along the way and this includes the time taken to cross the border.

Arrive into Kamianets-Podilskyi in the early afternoon. This UNESCO-listed city has an impressive diversity of architectural styles, from medieval fortifications, an Armenian cathedral, Turkish minarets and classical architecture found at the Catholic church of Saint Peter and Paul. Walk with a guide through the centre, up to the stunning Old Castle that dominates the skyline. Ukrainian poet Lesya Ukrainka described the medieval fort as 'a flower on stone' due to its graceful appearance. Set on river loop this powerful defensive complex has protected the city for centuries before becoming military quarters and then later a prison. Today much of the fortress remains intact and is part of the National Historic and Architectural Reserve and exhibits explain its history through the ages.

After a guided tour of the castle, take the rest of the afternoon and evening free to discover the architectural gems of this compact city, and have dinner.

DAY 9 - Visit to Khotyn Fortress and explore Chernivtsi on foot

Driving out of Kamienets this morning, stop at Khotyn Fortress for a guided tour. This compact 10th century fort is very well preserved due to its excellent defensive position beside the Dniester River along with its eight-metre thick walls and five lookout towers.

Continue from here for around one hour, arriving into the characterful and often overlooked city of Chernivtsi at lunchtime. This lively and ramshackle city has a mix of renovated and partially ruined buildings and different architectural styles including grand old Austro-Hungarian houses, which reflect the decadence of days gone by. The city is six centuries old and used to be part of old Moldavia (now Moldova) and was known then as Bukovyna (Beech Tree Land), it was later in the Habsburg Empire and for a brief time after World War I it belonged to Romania.

Explore the city on foot with a local guide, visiting the main sights including the Ringplatz Square, the Palace of Culture, the Square of a Turkish Well and probably the city's most impressive attraction - Chernivtsi National University. The UNESCO-Listed red-bricked buildings are a wonderful mix of Byzantine, Moorish and Hanseatic wings. Constructed in 1882 for the Orthodox Church leaders as their official residence, it became a university in Soviet times.

It's important to mention that the university is closed on Saturday and Sunday, so you may not wish to begin this holiday on a Friday or Saturday.

DAY 10 - Free day in Chernivtsi; option to visit Verkhovyna in the mountains

Today is a free day to explore at your leisure. The scenic, cobble-stoned streets of Chernivtsi are a lively place to drink coffee, people watch and explore at a leisurely pace. Alternatively, there are several excursions on offer outside the city.

You might like to take a full day trip to the small town of Verkhovyna in the Carpathian Mountains. This is your chance to discover rural Ukrainian life, meeting a local farming family who will show you how they make the traditional Carpathian cheeses such as brynz, vurd and budz and of course to sample some of them. Take a short hike in the area with a local guide, and visit a privately owned museum dedicated to the Hutsul life. Hutsul's are a local indigenous people who have their own unique culture and customs, which can be seen in their colourful and intricate craftsmanship including clothing, metal work and wooden furniture, and traditional songs and dances. You will get to hear a song played with a Ukrainian national instrument - the trembita, which is a type of long wooden horn. Lastly, you will go to a local kolyba, a Hutsul restaurant before returning to Chernivtsi later this evening.

Alternatively, you might like to take a full day trip to visit three of the Caves of Ternopil - Crystal Cave, Verteba Cave and Monastyrok Cave. The labyrinth of over 100 caves and tunnels found in Ternopil stretch for over 600 kilometres underground and are known as 'the kingdom of eternal darkness'. Each of the caves has its own characteristics and the three we visit are very different to one another. At Crystal Cave you can see uncut gems covering the walls, in Verteba Cave there is a museum with sculptures and ceramics on display, and lastly in Monastyrok - Monastery Rock Cave you'll see an Orthodox church built into this natural grotto.

DAY 11 - Drive to the elegant city of Lviv with a walking tour on arrival

Leave Chernivtsi this morning and head towards the beautiful city of Lviv, yet another of Ukraine's stunningly preserved cities, packed full of architectural diversity and historical interest. Discover all of this with a guided walking tour. We will see the old market square of Ploshcha Rynok, the ornately carved exterior of Boyim Chapel, the Dominican Church and Monastery and the Citadel Inn. The inn was built in 1850 as a circular red fort that during World War II became a Nazi concentration camp and was known

as the 'Tower of Death', but today it has remarkably been turned into a five star hotel! Lviv is home to not just one, but three different cathedrals; there's the Latin Cathedral, Armenian Cathedral and Saint George's Cathedral and they all vary greatly in style.

This evening is free for you to have dinner and Lviv is the perfect spot for relaxing. In amongst the cobbled streets with their pretty red-roofed buildings and tucked away courtyards you will find a variety of good cafes, bars and restaurants. One dining option is the Dim Legend Restaurant that is spread over seven small floors and a roof terrace and each floor is decorated with a different theme telling the city's history through the ages.

DAY 12 - Free day in Lviv; evening train to Kyiv

Today is free in Lviv for you to further discover the city. Lviv is well known for both its beer and chocolate, so you may choose to visit the Brewery Museum, of course with the chance to try an assortment of locally brewed beers, or join a chocolate making masterclass. Here you can learn all about how chocolate is made and try your hand at making your own chocolate master pieces with advice from a professional chocolatier. Apparently chocolate has been produced in the city since the Middle Ages and in the 19th century it was exported to aristocracy throughout Europe. Today there is a huge variety of different flavoured chocolates, ice cream, milkshakes, cakes and more to tempt you.

Alternatively you might like to visit Lychakiv Cemetery. This burial ground is a protected historical monument and believe it or not is one of the most popular attractions in the city. Established in 1786 by the Austro-Hungarians, there are grave markers here written in Ukrainian, Russian, German, Polish, Armenian and Latin, which show how the city's rulers have changed throughout its history. In amongst the elaborately carved tombs there are also communal graves for soldiers and freedom fighters and simple communist graves. Sadly during the Soviet era the graveyard was used as a dumping ground and only reopened in 2005 after being restored.

At around 4.30pm you'll be taken to the train station, to board the train to Kyiv. The journey takes around five hours, and you'll arrive into Kyiv at approximately 10.30pm.

It'll help to provide you with some of the background information ahead of visiting the Exclusion Zone tomorrow.

The rest of the day is free for you to explore. The Chernobyl Museum is located in the hip district of Podil, so you might wish to stay here and visit one of the many excellent coffee shops or lunch spots, before discovering the area on foot.

DAY 14 - Excursion into the Chernobyl Exclusion Zone

Set off this morning to the Chernobyl Exclusion Zone, about two hours' drive from the city and close to the Belarusian border. Back on the 26th April 1986 the Number 4 nuclear reactor at Chernobyl exploded with catastrophic consequences. Since then an Exclusion Zone has been in place around the plant and nature has reclaimed the towns and vehicles left within this. The accident was the result of a flawed Soviet reactor, operated by inadequately trained staff that had been ordered to carry out a poorly planned test.

There were four reactors and a further two being constructed when Reactor 4 exploded twice, killing two workers and releasing at least 5% of its radioactive core into the atmosphere. A further 28 fire

fighters died of radiation poisoning following the accident. At the time this was the largest uncontrolled radioactive release recorded.

The city of Pripyat was built three kilometres from the site to house the plant's workers and their families and, at the time, it had 49,000 inhabitants. Within a 30 kilometre radius of the power plant, there was a population of up to 135,000 people. All were evacuated after the accident and most of these towns and villages including Pripyat are now ghost towns.

Surprisingly after the accident the other reactors at Chernobyl were restarted. Their safety was improved but due to energy shortages the last reactor wasn't turned off until December 2000. In 2011 Chernobyl was declared safe enough to be recognised as a tourist attraction.

Reactor 4 was enclosed in a large concrete shelter which was erected quickly after the incident and contained around 200 tonnes of highly radioactive material. The old shelter only had a shelf life of 30 years and at the end of 2016 a huge 'New Safe Confinement' structure was built on the site and moved into place over the old shelter. It is the world's largest movable structure and inside a team of robotic cranes is taking the old shelter and radioactive core apart in an effort to make the area safe again.

Today, explore Pripyat with a local guide, visiting the key sites of the town including an elementary school, fire station, hospital and even an overground fairground. Your guide will also take you to see the Red Forest and the structure around Reactor 4. The sites seen in the Chernobyl Exclusion Zone may vary depending on local conditions and restrictions, but you'll see the most possible during your two days spent here.

This evening stay within the Exclusion Zone in a small hotel within the town of Chernobyl. The bedrooms are simply decorated and there are two bathrooms shared between every five bedrooms. There is a restaurant and bar where you will enjoy a traditional Ukrainian meal this evening.

Please note that it is essential that you provide us with the correct passport information at the time of booking and that you check this is accurate on your booking confirmation/the online customer information gateway, as this will be required in order to request the permissions needed to enter the Chernobyl Exclusion Zone. Corrections and amendments may incur additional charges at your own expense or result in you being denied entrance to the Exclusion Zone. If you intend to renew your passport please let us know at the point of booking and ensure that you have your new passport no later than 10 weeks prior to travel. In order to be permitted to enter the Chernobyl Exclusion Zone and to travel on this holiday you must be at least 18 years old.

MEALS PROVIDED: BREAKFAST, LUNCH & DINNER

DAY 15 - Further explorations of the Chernobyl Exclusion Zone

Today we will most likely see Pripyat's swimming pool, grammar school and music school and visit the secret Soviet Duga Radar Facility. The radar military base was named Chernobyl 2 and didn't appear on any civilian maps and the trees were strategically planted to block the view from the neighbouring towns. There are two radars here that were constructed as part of a Soviet early missile detection system. The bigger of the two is almost 500 metres long and around 150 metres high. Also on the site are an abandoned fire station, small power plant, hospital and apartment buildings where the military personnel stationed here and their families would have lived.

We will also hopefully get the chance today to speak with people still living within the Chernobyl Exclusion Zone, who are known as self-settlers. A year after the accident over one thousand people returned to their homes and despite efforts from the authorities they kept returning until eventually being allowed to stay and they have been living off grid ever since. Many of the people who choose to return were retired at the time and since it has been over 30 years since the disaster many of these people have sadly now passed away, so many of the towns and villages in the Exclusion Zone now only have one or two people living there. We should be able to meet with a couple of the self-settlers to hear their stories of what their lives were like before, during and after the explosion.

Late this afternoon we drive back to Kyiv for our final free evening in the city.

DAY 16 - Trip ends in Kyiv

Clothing

July and August are the hottest months and lightweight cotton clothing is best. During spring and autumn temperatures can be lower or drop during the evenings and there is also a stronger possibility of rain, so pack layers. Rainwear may be needed at any time of year. A warm fleece/jacket is recommended for cooler evenings. During winter you should be prepared for snow and very cold temperatures, so it's advisable to dress in warm layers of breathable fabrics. You'll need waterproofs and plenty of warm clothing including a warm waterproof jacket (such as a ski jacket), jumper, fleece, gaiters or ski trousers, thick socks (including spare pairs in case your feet get wet) and thermal underwear.

All visitors to the Chernobyl Exclusion Zone must wear full length trousers (not shorts or skirts) and

long-sleeve shirts/jackets and please avoid clothing with lots of zips or metal poppers. It's advisable to wash your clothes and to shower after your visit. We also recommend that you take old clothes that can be easily washed or even thrown away if necessary and a plastic bag to keep them separate from the rest of your clothing following the visit. Upon leaving the Exclusion Zone you will go through a monitor to check the radiation level on you, occasionally this reading may come back too high, and in which case, you may have to leave an item of clothing behind, as you won't be able to take anything that gives too higher reading outside of the zone.

Women should bring a headscarf for religious site visits.

Footwear

We recommend taking comfortable walking shoes for exploring and trainers or sandals for relaxing.

In the Chernobyl Exclusion Zone you must wear closed toed shoes (not sandals or flip flops). We recommend using older shoes that can be easily washed or thrown away if necessary. In the Exclusion Zone there is often broken glass on the floor, so it is important to have shoes with sturdy tread. In winter in both Chernobyl and Kiev, snow and ice are both likely, so you should factor this in to your packing.

You may also want to bring a pair of slippers for your stay at the Chernobyl Hotel for going to and from the bathroom at night.

Luggage

20kg

Luggage: On tour

One main piece of baggage and a day pack. Remember you are expected to carry your own luggage so don't overload yourself.

This trip is at a full on pace, including a train journey with shorts walks and/or stairs between platforms, stations and accommodation, so for this reason please take care to make sure you can comfortably carry your own luggage throughout the trip.

Equipment

We advise taking a water bottle, and in spring or summer, sun glasses, sunscreen and a sun hat are all essential. An umbrella may also be useful at anytime of year and gloves, a woolly hat and scarf if you are travelling in autumn or winter.

Whilst in the Chernobyl Exclusion Zone we recommend carrying hand sanitiser, toilet roll and mosquito spray. We would also recommend buying any bottled water required before entering the Exclusion Zone or carrying a Water to Go filter bottle with you. Please remember that you must keep your passport with you at all times, so you may find keeping it in a sealed dry bag useful. For the overnight stay in Chernobyl it is best to take a small overnight bag with you and to leave your main bag padlocked in the luggage storage facility at our hotel in Kyiv.

During autumn and winter especially, the evenings can be cold and the heating at the hotel in Chernobyl is limited, so we'd recommend bringing warm nightwear and perhaps a blanket and hot water bottle.

In case of emergency we also recommend that you carry a torch with spare batteries and sufficient medical supplies including a first aid kit and several days extra supply of any specific prescription medications that you require.

Tipping

Local crew

Although voluntary, tipping is a recognised part of life in this region of the world. We recommend an amount of approximately 8-10% for restaurant staff and taxi drivers, 5 - 15 Euros for local guides (depending on whether they give a half-day or a full-day tour), and in Chernobyl guides usually receive approximately 20-50 Euros for their two-day service, depending on the number of people they are guiding.

Accommodation notes

Throughout this trip, we use comfortable hotels, with excellent central locations for you to step out and

discover the treasures of Moldova and Ukraine.

In the Chernobyl Exclusion Zone, you will spend one night at a simple hotel with two bathrooms shared between every five bedrooms. Bathrooms are equipped with a sink, shower and toilet. Bedrooms are simply decorated. The food served here will be traditional Ukrainian cuisine and there is a bar within the restaurant. In the evening the doors of the hotel will be locked at around 22.30 and you are not permitted to venture out into the Exclusion Zone without the guide. The television service here includes no English speaking channels, so you might like to bring a tablet computer, electronic reading device, MP3 player or pack of playing cards with you for evening entertainment.

Insurance

It is a condition of booking with Explore that you have adequate valid travel insurance. It is your responsibility to arrange appropriate travel insurance and ensure you have read and understood the full terms and conditions of your travel insurance policy to ensure that you are covered for all activities you intend to undertake whilst on the tour, including all optional activities. Your Insurance Policy must fully cover you for medical expenses and emergency repatriation to your home country. Please ensure your

policy includes medical emergency helicopter evacuation in the event of illness or injury and covers the entire duration of your holiday. If you are trekking at altitude please ensure that there is no upper altitude limit which may limit or exclude cover for your trip. The cost of many of our Polar Voyages will exceed the capped amount covered by standard insurance premiums and you will be required to pay an additional premium to cover the full value of your trip. Please ensure that you are covered for the full amount of your holiday cost, as insufficient cover could invalidate a claim under the policy. Medical and repatriation insurance cover is not mandatory for UK residents who are travelling on trips within the United Kingdom.

Our dedicated flights team will match the best flight options to your arrival and departure airport.

Included activities

This trip is designed to show you the highlights of two countries, so the pace is full on. You'll be using public transport as well as charter vehicles to get around and you will do most of your exploring on foot in each place visited. Please pack light to ensure you can lift and store your bag on the train journeys (soft sided bags with wheels work best).

There are a few long journeys which will mean early starts, but of course there's always the option to catch-up on some sleep whilst in the car. The exact timings for these days will depend on the road and weather conditions. On these days it's best to bring snacks and drinks with you.

Whilst in the Chernobyl Exclusion Zone there are a number of rules in place to ensure your safety and it's very important that you follow all instructions given to you by your local guide. Every visitor must have a valid passport with them at all times and in order to be permitted entry to the Exclusion Zone you must be at least 18 years old. This restriction is due to the fact that the human body is still growing below this age and it's therefore more vulnerable to the effects of radiation.

During the two days spent in the Exclusion Zone you'll receive a dose of radiation comparable to a small dose from an X-ray scan or to several hours spent in an airplane at altitude. In numbers, you will receive 5-7 micro Sieverts of gamma radiation, which is a non-harmful dose of radiation. To put this into context most nuclear power plants around the world set a safety limit for their employees of 50-100 micro Sieverts per day.

Whilst in the Exclusion Zone all meals will be included to ensure they're from a safe source. You are not allowed to smoke, eat or drink in open spaces whilst here. You are not allowed to eat any berries or drink water from open sources such as wells (tap water or bottled water is fine).

In the Exclusion Zone you are allowed to take photographs and videos of everything and can take tripods with you. The only exceptions are restrictions at the Chernobyl Nuclear Power Plant and the guarded checkpoints. You are allowed to take pictures and video in front of Reactor Number 4 from a safe distance. Your guide will advise you of any places where photos aren't permitted.

In the Exclusion Zone there may be rubble underfoot and not all stairs will have banisters, so you need to be steady on your feet. Please wear shoes with good grip and that support your ankles.

We've been notified that the Chernobyl Exclusion Zone is occasionally being closed to tourists in order to be used as a training area by the Ukrainian military. Whilst this has only occurred three times in the past three months and hasn't yet affected any of our departures, we felt it was important to notify you of the small possibility that this could happen on your trip.

In the majority of cases we will be notified two months in advance by the military of their intent to close off the Exclusion Zone. If we know this far in advance then we will inform you, in order to change the date of your trip or to alter the itinerary, so that we are still able to visit the site. Should you decide that you're no longer be able to travel on an alternative date, then you'll be entitled to cancel your trip and receive a full refund of the monies paid to Explore, though we hope that you will not find this necessary.

Should the military not notify us of their intent to close the area within a reasonable time frame for us to amend your itinerary as per above - then we'll stay in Kyiv for an additional night rather than overnighing in the hotel in Chernobyl. During the two days that you'd normally be in the Exclusion Zone, as an alternative we'll go to visit the Strategic Missile Force Museum at Pervomaysk. Here you'll take a guided tour of this decommissioned nuclear weapon launch site where you can see the R-36M2 'Governor' bomb and have the opportunity to descend down to the original control room - the Unified Command Post. You'll also visit the Mezhyhirya Residence Museum - the lavish property where Ukraine's controversial former president, Yanukovych resided before the 2014 uprising. It now houses the Museum of Corruption.

Additional Information

Tour Staff

Unlike our group tours our private journeys do not have a Tour Leader. However, you are still in safe hands as we work closely with our expert local suppliers on the planning and

organisation of your holiday to ensure that you have a fantastic time. You'll be met on arrival in Kyiv by one of our english-speaking local guides, who will go through your holiday details and answer any questions you may have. The guides throughout the trip are excellent, and will help to bring the destination to life. At times you may travel unaccompanied, or with just a driver (rather than a guide), but you will have all the information that you need to explore and there is always the reassurance that you have someone on hand with our 24/7 emergency contact number.
