Itinerary

Itineraries on some departure dates may differ, please select the itinerary that you wish to explore.

DAY 1 - Trip starts in Addis. Afternoon city tour.

Arrive in Addis Ababa, Ethiopia's bustling capital city. This morning your leader will meet you at 11am in the hotel reception for the Welcome Meeting. After a chance to hear about your exciting upcoming trip, your leader will assist in arranging lunch before an afternoon exploring the city and getting a taste for Ethiopia.

The tour will include some of the city's highlights, including the Church of the Holy Trinity, which with its large dome and slender pinnacles has become a landmark in the city. We'll also visit the Ethnographic Museum which is located in the attractive grounds of Addis University before ending the tour with a visit to the National Museum which houses 'Lucy'. Legendary 'Lucy' was discovered in Ethiopia in 1974 and is the partial remains of one of human kind's earliest ancestor, believed to be 3.2 million years old.

Tonight is free to experience one of the many restaurants in the city, and your leader will be happy to assist in making arrangements.

DAY 2 - Morning flight to Mekele. Afternoon visit to Wukro Chirkos and Negash Mosque

We'll have an early start this morning due to our flight to Mekele. Arriving in Mekele around mid-morning, we'll venture out of the city straight away to visit the monolithic Wukro Chirkos about 90 minutes away. Wukro Chirkos has many tales surrounding its existence and when exactly it dates back too, but it's thought to be older than some of Lalibela's more famous rock-hewn churches and built somewhere in the region of 1,300 years ago.

From here, we'll continue on a short drive to Negash Mosque. One of the most sacred places of worship for Ethiopia's Muslim community, this ancient mosque is the burial site for Muslims who came to the Christian country of Abyssinia, now modern day Ethiopia, to escape persecution in the very early days of Islam.

Later this afternoon we'll make the 90 minute return drive to Mekele, our home for the next two nights. This evening we'll be a relaxed one ahead of a big day tomorrow.

DAY 3 - Full day visit to Dallol National Park

Waking before the sun rises, a Dallol National Park visit requires a very early start but it's guaranteed to be worth it. Prepared with day bags and packed lunches, we'll travel for 4 hours this morning by 4WD away from any populated areas into the vast Danakil Depression. As we drive east the landscape changes dramatically, becoming unearthly and arid. Dallol is the result of changing geological activity and the bright yellow, green and red acidic pools are a colourful reminder you are standing in one of the earth's most uninhabitable places. We'll spend between 2 - 3 hours at the site before making the return journey.

Tonight will be free and a great chance to reflect on the amazing adventure that today has been.

DAY 4 - Morning flight to Addis Ababa. Free afternoon.

This morning we'll return to Mekele airport for a mid-morning flight back to the country's capital, Addis. On arrival we'll check in to our hotel and your leader will be happy to advise on lunch recommendations.

After a very busy and long two days, your afternoon will be free to spend as you desire. Your leader will be on hand to give advice on how to spend your time, otherwise you may wish to visit Merkato; thought to be Africa's largest market and employing some 13,000 people. Broken down into different districts depending on the wares being sold, Merkato is a shock to all of the senses, and while you must remain vigilant (as with any busy area) you will be rewarded with fragrant spices, excellent souvenir ideas and an insight to daily life in Addis.

DAY 5 - Fly to Bahar Dar

We have a very early start this morning as we take a flight north to Bahar Dar, capital of the Amhara region and situated on the shores of Lake Tana. After checking into our hotel we take around a one hour cruise across the lake to the Zeghie Peninsula. Here we disembark and have a 15 minute walk along a rough pathway up to Bete Maryam Monastery also known as the House of Mary. This impressive building dates back to medieval times and contains valuable murals and religious treasures. After our visit we make our way back across the lake arriving at our hotel around mid-afternoon, and have the rest of the day free to enjoy the surroundings. Our hotel is positioned right on the shore line and provides a

wonderful setting for a sundowner. We can also walk around the lake and into town from here, visiting the local market or relaxing in one of the coffee houses where we hope to see a traditional coffee ceremony.

DAY 6 - At Bahar Dar; visit Tississat Falls

This morning you may choose to take an optional boat trip across the lake. Here we focus on the wildlife, as hippos, fish eagles, pelicans and other birdlife are often spotted at this early hour. After breakfast we drive a short distance south of Bahar Dar towards Tississat Falls, also known as Blue Nile Falls. We cross the Nile by a local boat before taking a 30 minute walk to the hill top viewpoint. From here, you can understand the Amharic translation for these falls - 'the Water that Smokes'. Unfortunately, the construction of a nearby hydroelectric plant dramatically reduces their volume on occasions, but they are still an impressive sight to behold. There may be the opportunity to extend our exploration to a further one hour circular walk which passes through small villages. After lunch we drive to where the river meanders towards the falls. Here it becomes the Blue Nile on its thousand-mile journey to meet the White Nile at Khartoum. Hippos can often be spotted from this viewpoint. Tonight is a free evening, you may like to sample the fresh fish in one of the local restaurants.

DAY 7 - Drive to Gondar; join the Timkat celebrations

Leaving Bahar Dar we drive across the Nile as we make our way towards Gondar, located on the high plateau just north of Lake Tana. We break the journey with a coffee stop in the town of Woreta, a bustling place where we enjoy the ambience of the locals walking to market. Gondar's most famous monuments are its exceptionally well preserved 17th century castles. The largest and best is that of King Fasilidas. It is a stone-built construction with round turrets and wooden balconies. The king also built remarkable baths a mile or so outside of town known as the 'Pavilion of Delight'. This whole complex of buildings is unique in Ethiopia and unlike anything found elsewhere in Africa.

We should arrive at Gondar in time for a quick lunch before spending the afternoon exploring these impressive sites as well as visiting the baths and the castle ruins. We also make a stop at Debre Berhan Selassie Church, famed for its ceiling frescoes of many faces. This evening we will witness the start of the Timkat celebrations.

DAY 8 - Timkat celebrations. Drive to Debarq; walk in Simien Mountains

We will rise early this morning to follow the celebrations of the Timkat festival. We then drive on to Debarq, this is around a four hour journey, the scenery becoming increasingly spectacular as we get closer to the Mountains. Many of the peaks here rise above 4000m, the highest is Mount Ras Dashen which at 4543m and is the fifth highest in Africa. Debarq is a small town where the facilities are basic but the locals friendly and welcoming. We have dinner in our hotel and if lucky may be treated to some local music and dancing.

DAY 9 - In the Simien Mountains

Today we explore the Simien Mountains National Park on foot. It is a rough road from our hotel up into the mountains but the scenery more than makes up for it. With very few people venturing here we often have the mountains all to ourselves. Walking along well-worn tracks we keep a look out for the endemic gelada monkeys. They often appear as if from nowhere, in huge numbers, and are very relaxed in our company. We may sit with them for some time, just watching as the older ones groom each other whilst the youngsters play in the trees. We return to the bus for our packed lunch before taking a more challenging walk this afternoon. This takes us higher into the mountains and the views are spectacular. We follow established tracks and incorporate numerous stops for rest and photos. If you prefer there is the option to remain on the bus should you not want to take the longer walk.

DAY 10 - Drive to Axum

Today is another long but incredible journey as we drive to Axum. The route takes us high over the Simien Mountains and down through the Tekeze Valley where giant baobab trees loom. This road has recently been completed and apart from the first 40km it is smooth asphalt the whole way. We enjoy plenty of photo stops and take a short walk through a village saying hello to the friendly locals. The sacred city of Axum sits in the Tigrayan region and was the capital of the Ethiopian empire between the 1st and 10th

centuries AD. As the birthplace of Christianity within the country, it was also a bustling commercial centre. We arrive in time for dinner and enjoy a two night stay here.

DAY 11 - Sightseeing in Axum

We have a full day exploring Axum by bus and on foot with our local guide. Evidence of its former importance now lies in several places in or near the town. Ruined fortresses, palaces and churches, plus an abundance of giant obelisks, or 'stelae', stand as mute reminders of its former glory. We clamber down numerous steps into dark tombs, one of which is believed to be that of King Balthazar, one of the Three Wise Men; whilst we also visit Axum Cathedral, the chandelier here a gift from Queen Elizabeth in the 1960's.

Axum claims to be the final resting place of the sacred Ark of the Covenant, but while its local guardians continue to celebrate the legend, the object of their veneration is kept strictly under wraps. There may be some free time at the end of the day to take a stroll through the town visiting the large market square and browsing the shops.

DAY 12 - Fly to Lalibela; visit rock cut churches

Today we fly to Lalibela, a UNESCO World Heritage Site and one of the world's most remarkable historic sites. Deemed 'The New Jerusalem' it is believed to have been constructed some 800 years ago by King Lalibela as his capital city. Lalibela is home to 11 medieval rock cut churches and although churches carved in rock are found in other parts of the world, the ones here are particularly significant. Excavated on all sides of a rectangle, a large block of granite was left, isolated in the centre. This rock was then shaped and formed both inside and out and the carvings show extremely skilful workmanship. This afternoon's tour around the churches involves a certain amount of scrambling along uneven paths and through a labyrinth of tunnels. The churches stand in two main groups on either side of a stream, known locally as 'The River Jordan'. The most impressive and well known of these is 'Bet Giorgis'. Carved in the form of a Greek cross it is approached through a passage in the rock. Between them, these rock-cut churches are one of the great wonders of the world. We spend the afternoon visiting a handful of the churches and will return to see the rest tomorrow.

DAY 13 - In Lalibela; mule trek

This morning we meet our mules and muleteers for an adventurous ride up the mountainside to Ashatam Maryam Church. The going is steep in places and we need to hang on, but its great fun and the views across Lalibela and beyond are incredible. We ride for around an hour before dismounting and making the rest of our way on foot. The church is reached along steep shale pathways and good footwear is a must. There is the option to forego your mule for the bus and join the rest of the group at the start of the walk if you prefer. Vertigo sufferers or people with a low level of fitness may choose not to partake in this activity, your tour leader can advise you.

Our return ride back down into town takes us through a small village where we may enjoy coffee with a local family. This afternoon we return to Lalibela, allowing more time to explore the rock-cut churches.

Country information

Ethiopia

Climate

Ethiopia is generally pleasant and warm, but varies with altitude. The long rains usually arrive mid-June to early September and the short rains between mid-February and April although this pattern has been completely erratic in recent times. After the rains, the highlands of northern Ethiopia are usually green and thus particularly scenic. The temperature all year round rarely falls below 18°C. Night-time temperatures in the mountains can be cold and can drop below freezing at higher altitude. There is a strong risk of sunburn at high altitude in Ethiopia. Seasonal weather patterns can be unpredictable.

Tipping

Explore leader

Tipping isn't compulsory, and we work hard to ensure that our leaders all receive a fair wage. However, you might want to recognise a leader that's done a great job or really added to your trip by giving them a tip. We're often asked about the recommended amount. It's a tricky one, and down to personal preference, but we'd recommend between £15 to £20 per person per week as a guideline.

Local crew

Although entirely voluntary, tipping is a recognized part of life in this region of the world. Some local staff will look to members of the group for personal recognition of particular services provided. In order to make things easier for you, your leader may organise a group's tips kitty for included activities and meals and if this is the case, they will account for it throughout the tour.

Accordingly, you should allow US\$50.00 per person for tipping of local drivers, guides, boat crew and for any miscellaneous tipping of hotel staff.

Ethiopia

Food and drink

The costs for meals may vary depending upon location, type of restaurant and number of courses eaten and so the prices given are an average guide. Local restaurants located off the beaten track may be less expensive, whereas an upmarket restaurant located in the centre of a major city may charge more.
