Itinerary

Itineraries on some departure dates may differ, please select the itinerary that you wish to explore.

DAY 1 - Join trip in Ushuaia

Arrive in Ushuaia. If you are arriving in on the preferred flight times, you will be met by a representative and transferred to your downtown hotel. Upon arrival into Ushuaia City Airport (USH) please collect your luggage and look for a representative in the Arrivals Hall, holding a sign with your name on it. If you have booked your flights independently and are on the preferred flights, please make sure that you have advised us of your arrival flight details into Ushuaia, so that a transfer is booked for you. Be sure to keep all of your important documents - i.e. passport and travel insurance, and also your medication in your hand luggage, as your main luggage will be transferred separately to the hotel.

From our experience we have found that there are significant delays, especially in high season on flights from Buenos Aires to Ushuaia. We highly recommend booking your travel arrangements to arrive into Ushuaia earlier in the day.

There are no activities planned today. If your flight arrives earlier in the day, perhaps you might choose to explore the city, visit the Maritime Museum or join a tour to Tierra del Fuego National Park, which offers magnificent hiking opportunities.

DAY 2 - Embark the M/V Sylvia Earle

This morning, please ensure your luggage is taken down to hotel reception by 8 am. Your luggage will be collected from your hotel and transferred directly to port for clearance and delivered to your cabin ahead of your arrival on board. Please ensure that you keep any valuables or personal items with you throughout the day.

Once you have checked out of your hotel by 11 am, you will have free time before meeting back in the hotel lobby at 2pm to commence a tour of Ushuaia. Ushuaia, capital of Tierra del Fuego is located at the shores of the Beagle Channel and surrounded by the Martial Mountains giving you a unique landscape in Argentina, which is the combination of mountains, sea, glaciers and forests. On this half day introductory tour, you will visit La Mision neighbourhood, the old Government House, and the upper area of the city, which offers beautiful panoramic views of Ushuaia and the Beagle Channel. During the excursion you will see the antique houses that belonged to the first families settled in Ushuaia. The excursion ends with a visit to the Old Prison Museum before transferring to the pier for embarkation at approximately 4pm.

After embarkation, you'll have time to settle into your cabin before the important mandatory briefings. Gather on deck as the ship pulls away from Ushuaia, enjoying spectacular views over Ushuaia and Tierra del Fuego. This evening, you will have the opportunity to get to know your fellow expeditioners and friendly expedition team at a welcome dinner, celebrating the start of a thrilling adventure to Antarctica.

MEALS PROVIDED: DINNER

DAY 3 - Drake Passage

As we commence our trip across the South Atlantic Ocean towards the Falklands~Malvinas, we make the most of our time getting comfortable with the motions of the sea. Our expedition team prepare you for our first landing with important wildlife guidelines and biosecurity procedures, and start our lecture

program to help you learn more

about the region's history, wildlife and environment. Our wildlife experiences begin as we enjoy watching and photographing the many seabirds, including majestic albatrosses and giant petrels following in our wake. They rise and fall skilfully, using air currents created by the ship to gain momentum.

DAY 4 - Falkland Islands

The Falklands~Malvinas comprises two large islands (East and West Falkland), with over 700 islands scattered off the coast. All but seven of these are uninhabited, with windswept coastlines, white sand beaches and crystal clear water. These beautifully barren islands are true wildlife havens, sheltering an impressive diversity of birdlife, including the largest black-browed albatross colony on earth. The cold, nutrient-rich waters surrounding the islands make this a prime location for spotting marine life. There are many beautiful areas to explore across the Falklands~Malvinas, each offering a unique perspective on this magnificent archipelago. Your experienced expedition team, who have made countless journeys to this area, will use their expertise to design your voyage from day to day, choosing the best options based on the prevailing winds, weather and wildlife opportunities. We generally make landings or Zodiac excursions twice a day. Even though we're north of the Antarctic Convergence it can be quite chilly here, so you'll want to layer up before joining Zodiac cruises into rocky coves or along sea cliffs, keeping watch for seals, sea lions, dolphins and porpoising penguins. Zodiacs will also transport you from the ship to land, where you may be able to visit albatross colonies, penguin rookeries and perhaps even have a traditional English 'tea and scones' at a local cottage. We also aim to land in historic Stanley, the capital of the Falklands~Malvinas. This charming town has a distinctly British character, with terraced town houses, pioneer cottages and even an iconic red telephone box! Colourful buildings house cosy cafes, English pubs, souvenir shops, a post office and the fascinating Historic Dockyard Museum, with displays on the maritime history of the Falkland Islands, natural history and links to Antarctica.

ACCOMMODATION:

Grade: Premium Boat

DAY 5 - At Sea

Between the Falklands~Malvinas and South Georgia, you will be entranced by the ceaseless flight of the many seabirds that follow our wake, skilfully using the air currents created by the ship to gain momentum. On this leg, we are usually travelling into the prevailing weather so it is difficult to estimate our precise arrival time in South Georgia.

Our lecture program will continue highlighting all of the incredible sights we have witnessed over the past few days. You will have ample time to enjoy observing the seabirds, whale-watching from the observation areas, or simply relaxing with a book.

MEALS PROVIDED: BREAKFAST, LUNCH & DINNER

DAY 6 - At Sea

If time and weather conditions permit, we could pass close to Shag Rocks, a fascinating group of jagged rocky islets protruding from the sea, in the proximity of South Georgia.

DAY 7 - South Georgia

As you near the rugged island of South Georgia, spare a thought for Captain James Cook, who arrived here in 1775 and believed it to be the northern tip of a great southern continent! In fact, it is a small island only 176 km long, but with a 3,000 m snow-capped mountain range, some of the world's largest congregations of wildlife and a truly fascinating human history, South Georgia is an island of incredible

riches. On approach, jagged mountain peaks rise steeply, while seabirds are often spotted soaring around the ship. Take a deep breath and marvel at the spectacular glaciated scenery, and perhaps enjoy some shelter from the prevailing westerly winds. This enchanting island is yours to explore!

DAY 8 - South Georgia

Your experienced expedition team, who have made countless journeys to this area, will use their local knowledge to plan your voyage from day to day, choosing the best options based on the prevailing winds, weather, sea state and wildlife opportunities. We generally make landings or Zodiac excursions twice a day. South Georgia lies within the Antarctic Convergence and it can be quite chilly! Make sure you layer up before joining Zodiac cruises around craggy coves and along the rocky coastline in search of nesting penguins, seal haul-outs and bird cliffs. Remember to keep an eye out for South Georgia's kelp forests as well - these remarkable underwater ecosystems are quite mesmerising as their fronds sway back and forth on the water's surface.

Grade: Premium Boat

MEALS PROVIDED: BREAKFAST, LUNCH & DINNER

DAY 9 - South Georgia

Zodiacs will also transport you from ship to shore, where you can visit some of the largest king penguin colonies on earth, take guided walks among fur seals and elephant seals, carefully clamber up tussock grass steps not fully knowing what or who lies ahead, and wander along pebbled streams, grassy glacial outwash plains. We also hope to visit the remnants of South Georgia's thriving whaling stations and pay our respects to Sir Ernest Shackleton, whose incredible voyage of survival is synonymous

with this island. If you have chosen an optional activity, you'll have the opportunity to do that whenever conditions allow.

Grade: Premium Boat

MEALS PROVIDED: BREAKFAST, LUNCH & DINNER

DAY 10 - South Georgia

In addition to Zodiac cruises and shore excursions, we may ship cruise through fjords with towering cliffs of ancient stone, or into deeply indented bays towards dramatic glacier fronts. This is a great time to find a comfy spot in the observation lounge or make your way to the bridge to enjoy uninterrupted views of South Georgia's majestic

coastline. Please note that in November and December, the extraordinary volume of fur seal populations can limit landings at some sites.

DAY 12 - At Sea

Perhaps you may want to practise your photo editing skills, stay active in the gym, or simply watch seabirds frolic alongside the ship as we spend another day at sea.

DAY 13 - South Sandwich Islands

On Captain James Cook's second voyage of discovery (1772-1775), he circumnavigated the globe in high southern latitudes, without seeing land, casting doubt on the existence of the Antarctic continent, which at that time was still unknown. It was during this voyage Cook discovered the South Sandwich Islands and landed on South Georgia Island. He named the South Sandwich Islands for Lord Sandwich, they are considered together with South Georgia, as a UK Dependent Territory and are uninhabited. Although Cook sighted a number of the islands, several more were not discovered until Bellingshausen visited in 1819.

DAY 14 - South Sandwich Islands

Located about 740 km south-east of South Georgia, the islands form a chain some 350 km long, comprising of eleven large and several smaller islands with a total area of about 600 sq. km. Most are ice-capped and the tallest peak, on Montagu Island, reaches 1,370 m. The climate is cold, with frequent snow and strong winds. The islands are volcanic in origin and some remain active. The island of Zavodovski, for instance, appears in constant eruption, while the islands of Visokoi, Candlemas, Saunders, and

Bellingshausen all show definite signs of activity. Bristol, Cook, and Thule islands are heavily glaciated and show no signs of warmth or activity. All the islands are steep-sided above the water, and fall away rapidly into deep water.

Grade: Premium Boat

MEALS PROVIDED: BREAKFAST, LUNCH & DINNER

DAY 15 - South Sandwich Islands

In our trusted Zodiacs or kayaks, explore the coast of some the islands and attempt landings if conditions allow. Little is known about these islands, although the British Antarctic Survey has undertaken some limited biological and geological work there, mainly in the 1960s. Vegetation is very sparse. But there's at least one extraordinary wildlife spectacle: Zavodovski Island supports a chinstrap penguin colony that numbers around one million penguins on its steep volcanic slopes. Those who have seen this massive penguin colony speak of it with awe.

This is a great time to enjoy the observation lounge or make your way to the bridge for uninterrupted views of Antarctica in

all its splendour. Keep an ear out for the creak and deep rumble of glaciers as they carve their way from summit to sea, and take a quiet moment to experience the wonder of this incredible white continent.

Optional activities

The following excursions and/or activities are usually available and may be arranged locally. Estimated costs are provided below for guidance only, are on a per person basis unless shown otherwise, and may depend on the number of participants. Prices quoted are correct as of the date these tour notes were originally issued but may change at any time due to currency fluctuations. Please note: These activities are booked and paid for direct with the supplier and do not form part of your Explore holiday contract.

Whilst landings are included in the cost of your trip as per the outline itinerary, some departures aboard the MV Greg Mortimer have additional optional excursions which can be pre-booked with the ship operator directly. These will be charged at an additional fee, depending on the excursion and we recommend booking these in advance to ensure availability. Please speak to a member of our Polar team who will advise you on the booking process.

Clothing

Parkas

You should look for a lightweight, roomy, wind and water-resistant parka with some insulation. Bright colors are more visible - and thus safer - in polar environments.

Gloves

Keeping your hands warm and dry can be a challenge. Thin polypropylene gloves can be worn underneath warm outergloves. This allows you some protection from the cold when removing your gloves to operate your camera etc. We strongly recommend that you bring more than one pair of gloves, in case one gets wet (or lost).

Hat/Cap

Warm, woollen hat/cap to protect your ears, as well as a scarf, neck gaiter or other face protection, such as a balaclava.

Trousers

Water-resistant trousers of coated nylon or, even better, Gore-Tex® are essential for your comfort. They can be worn over your regular clothes to keep you warm and dry. We suggest that you purchase trousers a few sizes larger than you normally wear as you will be wearing them over other clothing. Gore-Tex® or similar fabrics are excellent for keeping out wind and water without trapping excess heat. Rain gear and Gore-Tex® products can be found in any outdoor sport clothing store. In addition to your waterproof trousers, warm ski pants are suggested if you have them. Warm trousers such as jeans, corduroys etc are also good.

Socks

Warm wool socks worn over a thin pair of silk, polypropylene socks should provide enough warmth and insulation for your feet. Bring several pairs of socks, since you will inevitably get your feet wet. Outer Clothing Woollen, knit or cotton sweaters/tops, polar fleece tops (medium weight), several cotton turtlenecks and T-shirts for layering on and off the ship.

Underclothing

Thermal underwear is highly recommended as it will keep you warm without adding bulk. Most polar travellers prefer a lightweight version.

Footwear

Complimentary waterproof boots will be supplied on-board. However, if you have extra small or large feet, you are advised to bring your own. Also ensure you take good walking boots and trainers for relaxing.

Luggage

15Kg

Luggage: On tour

One main piece of baggage and daypack. Remember you are expected to carry your own luggage so don't overload yourself.

Please note that a 15kgs luggage weight limit is sporadically enforced on the internal flight to Ushuaia, occasionally charges may be levied against passengers taking luggage in excess of 15kgs.
