We continue by foot along a path that goes up to the crater of the Northeast side of the volcano to an altitude of about 2,300 m, stopping off at an old Bottoniera (numerous craters formed in 1923 including the longest one on the volcano) where we also stop for lunch. In summer you will need clothing for hot, humid conditions. Sunhat, sunglasses, long trousers and long sleeved shirt recommended for protection from the sun. In May and October half-term the sun should still be strong but temperatures will certainly be lower than in the summer months, particularly at night when you will need some warmer clothing and jackets.

At any time of year you will feel cold at the top of Mount Etna, therefore you should bring warm clothes, which will also be useful for our night in the tree tents at Madonie Adventure Park.

A torch is useful in case of powercuts/ emergencies and for inside the tents in Madonie.
