# Family information

**Vehicle information:** The vehicles that we use on our Canadian trips are either low-roof or high-roof transit vans. Where possible, we aim to get the high-roof ones, allowing that little bit of extra comfort. Although not flashy, these small-group vehicles are perfect for exploring western Canada as they allow greater flexibility to get to those more off the beaten track places. Your Explore Leader will rotate seating positions regularly within the van. Please see the image gallery for further details.

**Triple rooms:** This trip allows the option for triple rooms, tents and cabins to be included within the booking on all nights except Whistler and Banff. If you would like this option, a discount may be applicable on the cost of the trip - please ask our Sales team for further information. Please note that triple or quad hotel rooms in North America are generally two queen size beds. For the camping nights whilst tents can accommodate 3 people we would suggest two tents between 3 to give you more space.

**Average Age:** As a guide we have identified the actual average age of the children who have travelled on this trip over the last 5 years, to help you decide whether it's the right one for your family. The average age on this trip is 13 years old; this trip is suitable for children of all ages.

**Minimum age**
