Itinerary

DAY 1 - Join tour Quito

Quito is Ecuador's mountain capital and the second highest capital city in Latin America (2850m). One of South America's most beautiful cities, Quito lies in a narrow valley at the foot of the Pichincha Volcano, surrounded by snow-capped mountains and extinct volcanoes. Quito is separated into the old and the new cities. The old city is a UNESCO Heritage site due to its rich blend of colonial architecture, imposing churches and bustling local markets. Some of the main sites include the Plaza de la Independencia, the cultural heart of the colonial city which is home to the Catedral de Quito, and La Compania church which is considered one of the most beautiful churches in the Americas with its magnificent gilded altars, walls and ceilings. The church of San Francisco, Quito's largest and oldest colonial church built in 1553, is also worth a visit. A climb to the top of Cerro Panecillo affords one of the best views across the city and the surrounding mountains, presenting you with an unparalleled vista of the encircling Andes from the viewing platform offered by the statue of the Virgen de Quito.

DAY 2 - Fly to the Galapagos and board your ship in Puerto Ayora

Today we transfer to the airport early for our flight to the Galapagos Islands.

Lying on the Equator, 970km west of the Ecuadorean coast, the Galapagos National Park is a unique collection of islands, formed by volcanoes over hundreds of thousands of years and consists of six main islands, 12 smaller islands as well as over 40 small islets, supporting a distinct and unique flora and fauna, including prehistoric creatures found nowhere else on earth. This desolate and fantastic habitat was discovered in 1535 by Fray Tomas de Berlanga. One of the original designations by him was Las Islas Encantadas, the Enchanted Isles. Charles Darwin visited the islands on the Beagle exactly three hundred years later, in 1835. He

observed the total isolation of the giant reptiles and other creatures, and this played a substantial part in his formulation of the theory of evolution.

The Galapagos have never been connected with the continent. Gradually, over many hundreds of thousands of years, animals and plants from over the sea somehow migrated there and as time went by they adapted themselves to Galapagos conditions and came to differ more and more from their continental ancestors. Thus many of them are unique: a quarter of the species of shore fish, half of the plants and almost all the reptiles are found nowhere else. In many cases different forms have evolved on the different islands.

Of the extraordinary animals to be found in the Galapagos many are reptiles, such as the great tortoise, large land iguanas, numerous lizards and three species of non-poisonous snakes. There are also several species of turtle, which come ashore to mate. Up to three quarters of a million seabirds flock to the islands, including a third of the world's blue-footed boobies, frigatebirds, pelicans, cormorants, albatross and petrels. Only 35cm tall, the Galapagos penguin can be seen swimming among tropical mangroves, whilst offshore it is common to see dolphins, sea lions and fur seals playing in the water. Fearless though not tame, the extraordinary wildlife can be easily approached and the opportunities for photography are superb.

The Galapagos National Park charges a visitor fee of \$110 USD, payable on arrival, which funds park maintenance and supervision in the Galapagos, as well as ecological study, conservation and infrastructure development in Ecuador's other national parks. Entry fees and the funds they generate for the national park system are among measures taken by the Ecuadorian government to protect its natural heritage.

On arrival into Puerto Ayora, we will meet our naturalist guide and transfer to our ship - the glorious Yolita II. Once on board, we will head to Bachas Beach to see Sally Lightfoot crabs, flamingos and sea lions.

Clothing

We recommend that you do not bring too much clothing as space is limited in the cabins. We would recommend you bring a fleece top, waterproof jacket, 4 shirts / T shirts, 1 pair of shorts, 2 pairs of trousers and 1 pair of hiking trousers. You will also need a swimsuit.

Footwear

Bring comfortable walking boots or shoes and trainers or sandals with a good grip. Plastic sandals (not flip flops) are useful for wet landings.

Luggage

20kg

Luggage: On tour

We recommend the use of a duffel bag or backpack (whichever you find easiest to carry). A good size daypack is also essential. If you don't wish to take your entire luggage with you to Galapagos, please ensure you have an extra bag you can leave behind at hotel storage and pick up on your return.

Please note that the amount of luggage you can bring on the boat is LIMITED due to small cabin size. We recommend travellers use soft sided duffel bags of 40-50 litres in capacity. We will accept luggage types onboard, however if you are a single traveller sharing with another traveller, it's especially important to keep in mind that cabins are small in size and it's best to pack light.

Equipment

Pack a torch, water bottle, sunglasses, insect repellent, high factor sunscreen, a beach towel, waterproof bag for camera and motion sickness tablets/patches for the boat. You may also wish to take binoculars.

Tipping

Local crew

Onboard the Galapagos yacht, tipping the naturalist guide and boat crew is customary. There will be two envelopes presented at the end of the voyage, one for the guide and one for crew members. The recommended amount is \$15-18 USD per day from each traveller (\$5-7 USD for the guide and \$10-11 USD for the crew members). This is only a suggestion as we understand that tipping is a personal choice.

Local fees

The Ecuadorian government currently levies a Galapagos Islands Park entry fee of \$100 USD per person. This is payable at the airport upon arrival in the park. It is not included in the cost of the tour, and must be paid in CASH. This fee funds park maintenance and supervision in Galapagos, as well as ecological study, conservation and infrastructure development in Ecuador's other national parks. Entry fees and the funds they generate for the national park system are among measures taken by the Ecuadorian

government to protect its natural heritage.

The Galapagos National Park authorities have implemented a system of Transit Control Cards at a fee of \$20 USD per person. This card is to be purchased in CASH at a counter in the Quito airport before boarding the flight to the Galapagos. Please retain this card along with your passport as you will be required to present this upon arrival to the Galapagos Islands. Please note that this applies to all tourists entering the Galapagos Islands and is a supplement to the existing entry fee to the national park and is not controlled by tour operators or travel agencies. It is the first of a number of initiatives to track, control and maintain the sustainable tourism targets set out by the Galapagos National Park and the Ecuadorian government in an attempt to preserve the fragile environment of the archipelago.
