Itineraries on some departure dates may differ, please select the itinerary that you wish to explore.

DAY 1 - Join trip Cusco

Our journey begins in Cusco, the old heart of the Inca Empire and the archaeological capital of the Americas. One of the oldest continuously inhabited city on the continent, Cusco is imbued with an atmosphere of mystery and grandeur. The Spanish-style city of today, with its attractive pink tiled roofs, arcaded plazas and steep winding alleyways, stands upon tremendous Inca foundation stones, its links with the Inca Empire everywhere to be seen, from the stone walls that line the city streets, to the museums filled with artefacts and relics of a long dead people. After a chance to freshen up and meet with your local guide the rest of the afternoon is free to acclimatise and maybe gently begin to explore.

Today has been left free to acclimatise and explore Cusco's old town further, you could walk up to Sacsayhuaman temple for views over the town, or there are several optional excursions available in the Sacred Valley.

You can take a half day walk to visit the Maras salt mine and Moray, a fascinating archaeological site with concentric terraces, said to be used by the Incas as a botanical laboratory. This six kilometre walk is expected to take around three hours.

Alternatively for water sport enthusiasts there is the option to go white-water rafting on the Urubamba River or stand up paddle boarding on Piuray lagoon.

There is also the chance to visit Cervceria del Valle Sagrado, the Sacred Valley brewery, including a tour and tasting of the nine craft beers brewed on site.

These activities include a guide and transport, they can be booked with your Explore Leader on the first day.

DAY 4 - Commence Inca Trail; walk to Llaqtapata ruins

This morning we leave the city of Cusco behind and drive to Ollantaytambo, an original Inca town. Here we have a short walking tour to stretch our legs, visiting a traditional house and our first view of Inca terracing. We continue by bus for another hour to reach KM82, the starting point for the classic Inca Trail. The trail was first explored by Hiram Bingham in 1911 and opened for walkers in 1970. The famous ruins of Machu Picchu are not the only historical remains within the area: many other interesting sites are hidden in places which can only be reached on foot, and have scarcely been explored.

We meet our porters and support staff, beginning our trek after lunch. The route crosses the Urubamba river, following a wide dirt trail alongside the riverbank. The undulating path takes us into the Sacred Valley of the Incas to Llaqtapata (2,700m). Here we camp opposite the ruins of Llaqtapata, a spectacular spot with amazing night skies.

Today's six kilometre walk is expected to take around two-and-a-half hours with an ascent of 100 metres.

ACCOMMODATION:

Llaqtapata Camp (or similar)

Grade: Simple Camping

MEALS PROVIDED: BREAKFAST, LUNCH & DINNER

DAY 5 - Follow river to Wayllabamba village; continue to Llulluchapampa

After a hearty breakfast we cross the river to visit the Llaqtapata Inca ruins before continuing with the trek. Today we follow the course of the Kusichaca river past small communities, crossing it to reach Wayllabamba, a quiet village of Inca origins and the last settlement on the route. After lunch we gradually ascend through the start of the cloud forest to Llulluchapampa (3,800m) which affords stunning views of the snowy peaks around us. Here we set up camp for the night; there is a well maintained toilet block at this site.

Today's nine kilometre walk is expected to take around six hours with 1,080 metres ascent.

ACCOMMODATION:
Llulluchapampa Camp (or similar)

Grade: Simple Camping

MEALS PROVIDED: BREAKFAST, LUNCH & DINNER

DAY 6 - Cross 'Dead Woman's Pass' (4,200m); hike through cloudforest to Phuyupatamarca

Today is an earlier start as we trek over the Warmiwanusca (Dead Woman's) Pass to 4,200 metres. The two hour ascent is one of the more challenging sections of the trek, we take is slow and steady with many stops to admire the view and sunrise. After a rest and photo opportunity we descend along a stepped path to the valley of the Pacamayo river with its tropical vegetation. Here we break for brunch before beginning the ascent (mainly on steps) to the second pass of the day. After visiting the ruins of Runkuraqay it's the final ascent to cross the Runkuraqay Pass (3,950m).

After the pass it is a long gradual descent passing into the start of the main cloud forest to reach the bottom of the valley. The Sayacmarca ruins are visible on a rocky outcrop, they command an imposing view and have only one means of access, a narrow granite stairway. We cross the valley to reach the Sayacmarca campsite for a late lunch. From here the trail goes through cloud forest with vines, exotic flowers (among them orchids) and luxuriant trees, with views (if we are lucky) of the snowcapped peaks of Salkantay. We walk through an Inca tunnel and along a ridge above the Urubamba River to our campsite above the Phuyupatamarca ruins (3,579m). The campsite has amazing panoramic views of the surrounding peaks and down the valley towards Machu Picchu mountain.

Today's 10 kilometre walk is expected to take around eight hours with 1,000 metres ascent and 630 metres descent.

ACCOMMODATION:
Phuyupatamarca Camp (or similar)

Grade: Simple Camping

MEALS PROVIDED: BREAKFAST, LUNCH & DINNER

DAY 7 - Arrive to Machu Picchu through the Sun Gate

This morning is our final day walking along the Inca Trail. We say thanks and goodbye to our porters and begin our trek into Machu Picchu. We pass the Phuyupatamarca ruins and spend the majority of the morning going down following stone paths and stairways, 80% of which are original Inca architecture. Coming out of the cloud forest we are greeted by the spectacular views down the valley, walking through

the impressive Inca terraces at Intipata we reach our lunch stop at Winay-Wayna (2,591m). Those who wish can visit the ruins here, this Inca site is built into the steep hillside and like Machu Picchu, was abandoned for unknown reasons.

Winding our way along the edge of the mountain we follow a wide path adorned with wild flowers and orchids to we take the final steps up to reach Inti Punku - the Gate of the Sun. Passing through there is a sudden and fantastic view of the Lost City itself, Machu Picchu, set in a grandiose landscape that amazes all spectators. We walk down through the site and then take the public bus down the mountainside to our hotel in the town of Aguas Calientes situated on the valley floor below Machu Picchu.

Today's eight kilometre walk is expected to take around six hours with 1,000 metres descent.

DAY 8 - Revisit Machu Picchu; return to Ollantaytambo by train before continuing by bus to Cusco

Our final morning is spent at Machu Picchu, probably the most astounding feat of engineering in all of ancient America. Temples, stairways, palaces and gabled stone dwellings are scattered everywhere, testifying to the energy and ingenuity of the builders. We have a guided tour with our Explore Leader before taking the bus back down to Aguas Calientes.

It is also possible to climb the steep peaks of either Machu Picchu Mountain or Huayna Picchu Mountain to look down on the citadel. Machu Picchu Mountain is a 700m climb from the top of the citadel. There are cobbled stairs all the way up with a few eye-opening drops in some parts, and the round-trip takes about two and a half to three hours. Huayna Picchu Mountain is only 350m, half the size of Machu Picchu Mountain, but much steeper. There are many more sheer drops, and it is definitely not suitable for someone with a fear of heights. For those who fancy doing the one hour climb, you'll be rewarded with world-beating views of Machu Picchu, and the feeling that you're standing on a precipice at the top of the world.

These climbs must be pre-paid at time of booking. If you change your passport between your time of booking and prior to travel please take your original passport with you. Those doing one of the optional climbs will take the first bus back up the Machu Picchu to begin the climb at 7am after which you will meet up with the rest of the group to take the guided tour.

In the afternoon we get the train to Ollantaytambo, located in the Sacred Valley of the Incas, and then return to the historic town of Cusco by bus. Depending on the time of the train, you may have a free afternoon in Aguas Calientes, where there are many restaurants and cafes and a large covered market.

DAY 9 - Fly to Puerto Maldonado, transfer to Amazon lodge

Today we transfer to the airport for a short flight to Puerto Maldonado, located in the Southern Amazon area of Peru (your Tour Leader stays in Cusco). You can leave your main luggage in Puerto Maldonado and just take with you what you need for the next few days. The Amazon comprises 60% of Peru and the Peruvian Amazon is the second largest section of the Amazon Rainforest after Brazil. The Amazon basin covers two fifths of South America over many countries including Bolivia, Brazil, Colombia, Ecuador, Guyana, Peru and Venezuela and it is the most bio-diverse environment in the world. Most of the basin is covered by the rainforest, which is the largest rainforest in the world.

We travel along the Tambopata River by motorised canoe (approximately 40 minutes) and check into our Amazon lodge. We have a short stop at the lodge for a buffet lunch before our local guide takes us on an exploration of the jungle trails surrounding the Field Station, discovering the tropical trees, medicinal plants, insects, butterflies and other animals we see en route. In the evening, we have a night float along the Madre De Dios River in search of the wildlife that surface during night time such as capybaras, white caimans and nightjars.

The lodge is comfortable but as it is in a remote location, the electricity is provided by a generator and is only available for certain hours of the day.

DAY 10 - In Amazon Jungle; Canopy walk and Sandoval Lake

We spend the morning on the Inkaterra Canopy Walkway, which is a 1129ft system of 2 observation towers, 8 platforms and 7 hanging bridges 100ft above the ground. The walkway is designed to perform scientific research of the ecosystems inhabiting the rainforest canopy, and gives us an unobstructed view of the wildlife and birds.

During the afternoon, we take 30 minute boat ride, entering the territory of the Tambopata- Reserve. We will trek 5km through the dense vegetation of the tropical rainforest looking out for snakes, monkeys and birds. Our destination is Sandoval Lake. Numerous species of animals live near the lake, keep your eyes out for kingfishers, cormorants, squirrel monkeys, and capuchin monkeys. At the lake itself we may see giant river otters, black caimans and piranhas. This is also the habitat of the giant arapaima, a fish of more than 2.5m, weighing in at more than 200kg.

DAY 11 - In Amazon Jungle; boat ride and Inkaterra experience

This morning, we take a 20 minute boat ride to the river island near our lodge, a large sandbank at the shores of the Madre De Dios River. With our Local Guide, we will walk across the island to explore the floodplains that provides the island an ecosystem with a great diversity of birds such as the Amazonian umbrella bird, one of the Amazon's most sought after species by birdwatchers.

We continue on to visit the Inkaterra Association's Bio Orchard, where organic native goods are cultivated such as palms, vegetables and fruit. We learn the diverse phases of sustainable horticulture, the preparation of recycled compost, sowing and harvesting vegetables, fine herbs and tropical plants, using natural fertilizers, pesticides and herbicides. The lodge is working as sustainably as possible, to help local communities protect their surroundings, and using the forest for good.

During the afternoon, our Local Guide will show us the permanent plot area for rainforest restoration and conservation, and we'll learn about the survival mechanisms of the rainforest, exploring the meanings of the 19 native palm species.

We'll take a night walk through the jungle, listening to the sounds of the birds, mammals, insects and amphibians that wander the forest at night, using the expertise of our local guide to try and spot them.

DAY 12 - Early morning boat to Puerto Maldonado and end trip at airport

Our Amazon adventure comes to an end today after breakfast and we will travel by motorised canoe back to Puerto Maldonado, before transferring to the airport. If you prefer you can end your trip at the office in Puerto Maldonado and arrange a taxi transfer to the airport yourself at a time that better suits your own itinerary. The office is a short taxi ride from the town, and about 20 minutes by taxi from the airport.

Please note: These activities are booked and paid for direct with the supplier and do not form part of your Explore holiday contract.

Sacred Valley:

- Half day Maras and Moray Walk - 3-5 pers US\$88, 5-7 pers US\$72, 8 pers + US\$64 (min 3 pers)
- Kayak and Paddle Board - 3-5 pers US\$99, 5-7 pers US\$83, 8 pers + US\$78 (min 3 pers)
- Craft beer tasting - 3-5 pers US\$61, 5-7 pers US\$46, 8 pers + US\$35 (min 3 pers)
- Rafting on Urubamba River US\$ 65 depending on numbers

Huayna Picchu - £60; Machu Picchu Mountain £60 - Subject to availability - these must be pre-paid at time of booking and is non-refundable. If you change your passport between your time of booking and prior to travel please take your original passport with you to avoid being fined.

Clothing

In the highlands conditions can be dry and sunny during the day but bring warm clothing such as a warm fleece, thermal underwear, warm hat and gloves. These will be needed when the temperatures drop, especially at night when temperatures can drop dramatically. Lightweight waterproofs are also essential. You may also wish to bring your swimsuit.

Thermals:

Useful for walking when cold, around camp and much more practical (and warmer) to sleep in than pyjamas.

Trainers or Trekking sandals:

Useful around camp, in towns and when travelling. Waterproof sandals are ideal for rafting.

Socks:

Use good quality socks that you are used to walking in, plus liner socks if you are used to these.

Waterproofs:

Breathable waterproofs not only protect against rain and wind, but also stop you from overheating.

Thick jumper/fleece jacket:

A thick jumper or fleece jacket is necessary as nights can be very cold at altitude, especially in their

winter months (June to September). Make sure that your waterproof jacket is loose enough to wear over your sweater or fleece.

T-shirts:

We recommend t-shirts made from wicking materials as these keep you drier and warmer.

Shorts:

Shorts can be comfortable to walk in but carry long trousers with you in case of strong sun or you feel cold. Remember we shall be passing through the occasional remote village and short shorts (especially on women) can give offence to the local inhabitants.

Gloves and Hat:

Essential around camp in the morning, and in the evening, at higher altitudes.

For you jungle extension:

Expect warm and humid conditions. However there may also be heavy rain showers. (It tends to be cooler and drier between May and October, the winter)

Bring light clothing (cotton or wicking material) - Long sleeve shirts and long trousers are best when walking through jungle, and a light weight rainjacket. It is worth also bringing some warmer clothes, particularly between May and September, in case of cool weather.

Footwear

We recommend you bring well broken in and comfortable walking boots with ankle support. We do not recommend borrowing or renting boots. It is a good idea to carry your boots in your hand luggage on international flights or wear them - should your luggage be delayed, your boots are the one thing which will be irreplaceable. If you are rafting bring shoes that you don't mind getting wet.

Luggage

20kg

Luggage: On tour

Bring one main piece of baggage and a daypack.

Main luggage:

Your main bag should be lockable as this will be left in storage at the hotel in Cusco whilst on the trek, and also in a locked room in Puerto Maldonado when visiting the jungle lodge

Trek Kit Bag (provided by Explore at the hotel in Cusco):

Before leaving Cusco there is time to re-organise your luggage. Your trek luggage, including sleeping bag, should be packed into the kit bag which is to be carried by the porters. The weight limit for this is 7kg, advice on how to pack will be given at the trek briefing.

Small Rucksack/Daypack:

During the course of a trekking day, you do not have access to the luggage, which is being carried for you by the porters. In any mountain region the weather can change rapidly and you must be equipped for this

eventuality. Your daypack should be large enough to carry your day things including: waterproofs, fleece, long trousers (if walking in shorts), warm hat and gloves, sun hat, suncream, water bottle, tissues and your packed lunch. Camera equipment can be heavy so think carefully when deciding what to take. A rucksack with 20 or 25 litres capacity is usually sufficient.

On the Amazon Extension, due to limited space on the boats your luggage will be limited to 10 kilos - your main bag will be left in Puerto Maldonado while you stay at your Amazon Lodge. There will be time before departing Cusco to re pack enough for four days including clothes, toiletries, shoes, torch, sun cream and insect repellent.

Remember, you are expected to carry your own luggage (i.e. on and off transport etc.) so don't overload yourself. It is recommended you bring lockable bags.

Equipment

For your trek;

Remember to bring: torch, water bottle, insect repellent, suncream (at least factor 30), lip salve, good quality sunglasses and sunhat. Please note drones are prohibited in most tourist areas in Peru. You may also wish to bring binoculars and your own sleeping bag.

Sleeping Bag: This may be down or synthetic, but should be 4-season. A cotton liner helps to keep your bag clean. You do not need a foam mat as thermarests are provided. It is possible to hire an appropriate down sleeping bag for the trek locally (US\$ 20).

Personal Equipment On Trek

Trekking poles: Trekking poles are recommended. Please note metal tipped trekking poles are NOT permitted so please ensure they have rubber/plastic tips

Water Bottle: Water along the trail must never be considered as drinkable. The camp staff provide purified water each day with which to fill your bottle or camelback. Your bottle should hold at least two litre and be reusable as disposable plastic bottles are not allowed on the trail. Metal bottles can also double up as hot water bottles when hot water is available.

Torch/Batteries/Bulb: A small torch is essential for finding things in your tent, visiting the 'toilet' in the night etc. Often a head torch is the most practical option as it allows you to have both hands free. Remember to bring spare batteries.

Toiletries: Only bring essential toiletries such as toothbrush/paste, soap, toilet roll and a small towel. Wet wipes are great for a quick clean up in your tent.

Personal First Aid Kit: On each trek a first aid kit is carried but you should have your own blister kit, supply of plasters, pain relief etc. for your own use.

Cloth bags: Single use plastic bags are not allowed on the trail.

The following equipment list is provided by Explore for the trek:

2-person tents

Dining tent

Thermarest sleeping mat

Stools and table
Toilet tent

For your jungle experience bring:

Suncream ,sunhat and sunglasses

Jungle formula insect repellent

Good torch and spare batteries for night walks and when the generator is not on.

Small backpack for walks and boat trips

Good camera with zoom, spare battery and memory cards

Binoculars (optional)

Equipment Hire and Trek Training Days - Trek Hire UK hire out a wide range of kit including quality sleeping bags, down jackets and walking poles <http://www.trekhireuk.com>. They also run regular trek training and preparation days from their base in the Surrey Hills, ideal for getting an indication of your overall fitness level and also covering advice on kit and altitude.

Tipping

Explore leader

Tipping isn't compulsory, and we work hard to ensure that our leaders all receive a fair wage. However, you might want to recognise a leader that's done a great job or really added to your trip by giving them a tip. We're often asked about the recommended amount. It's a tricky one, and down to personal preference, but we'd recommend between £15 to £20 per person per week as a guideline

Local crew

Although entirely voluntary, tipping is a recognized part of life in this region of the world. Some local staff will look to members of the group for personal recognition of particular services provided. In order to make things easier for you, your leader may organise a group's tips kitty for included activities and meals and if this is the case, they will account for it throughout the tour.

Accordingly, you should allow US\$ 60, approx. 200 Peruvian Soles per person for group tipping

For all non-included services and meals on your trip please tip independently at your discretion.

Peru

Food and drink

The costs for meals may vary depending upon location, type of restaurant and number of courses eaten and so the prices given are an average guide. Local restaurants located off the beaten track may be less expensive, whereas an upmarket restaurant located in the centre of a major city may charge more.

Breakfast price	Dinner price	Beer price	Water price

Accommodation notes

We avoid the crowds on our three night trek, and camp away from the main campsites. Two-man tents are provided with plenty of room for two people and bags. There is also a dining tent and a toilet tent. The trek is fully supported by our team of porters who set up and take down the tents, and prepare our meals. They also carry water and all bags except daysacks, under strict guidelines. On day seven your guesthouse has en-suite twin rooms. A single tent is available on request prior to departure costing £40, please discuss with your sales consultant (limited availability).

The guest accommodation at Inkaterra Field Station although simple, is built to a high standard. Built within the Inkaterra Ecological Reserve, an area of over 10,000 hectares of virgin forest, the Field Station was originally set up as a research centre for scientists and has now opened its doors for travellers to experience the Amazon rainforest. The Field Station is ran by, and is the headquarters for, the Inkaterra Association, an NGO funded by Inkaterra's ecotourism activities which is dedicated to supporting, fieldwork, biodiversity research and conservation.

The communal area and dining room is a wooden structure with a high roof, thatched in traditional style with palm fronds. The Cabanas rooms are a short walk from here and are also built in local wood, blending in with the surrounding forest. They each have an outdoor terrace with seating and are all furnished with crafted wooden furniture and, en-suite bathrooms equipped with a cold (lukewarm) water shower, basin with running water and flushing toilet. There is also a safety box for storing valuables and food. The design of the buildings allows the rooms to be naturally ventilated - the rooms are elevated off the ground and have high unsealed thatched roofs that encourage air-circulation. Good mosquito nets cover the beds (which are well off the floor) and there are ceiling fans. Electricity is provided by a

generator twice a day so Wi-Fi and room lights can be used, batteries charged, etc. but a strong torch is also required. Meals are all included during your stay and combine delicious local produce; lunch and dinner are served in the communal area self-serve style. Boiled, filtered drinking water is also available at all times, as is tea and coffee. Fruit juices are provided with breakfast, and beers, Pisco and soft drinks are also available to buy at the bar.

The Inkaterra Explorer guides all have a recognised national guiding qualification and most are from the local area. During your stay they will help you explore the primary forest around the lodge, identify animals and plants, and learn about the biodiversity and local way of life. Keep your eyes open as you travel around by boat or walk through the forest as there is abundant wildlife in the area around the lodge.

The cost of many of our Polar Voyages will exceed the capped amount covered by standard insurance premiums and you will be required to pay an additional premium to cover the full value of your trip. Please ensure that you are covered for the full amount of your holiday cost, as insufficient cover could invalidate a claim under the policy. Medical and repatriation insurance cover is not mandatory for UK residents who are travelling on trips within the United Kingdom.

Maximum altitude (m)

4200

Altitude information

This trip goes to an altitude where there is a risk of being affected by Acute Mountain Sickness (AMS), a common and usually harmless condition caused by reduced air pressure and a lower concentration of oxygen. Whilst the itinerary has been specifically designed to allow your body to acclimatise gradually, the speed of onset and severity - as well as the height at which AMS develops can vary greatly between individuals; being physically fit affords no special protection. If symptoms occur while on your trip you must let your Explore Leader know immediately. For further advice when travelling at altitude we recommend visiting the medical advice website of 'Medex' and downloading their information booklet: http://medex.org.uk/medex_book/english_version.php

Travellers with heart or lung conditions, anaemia, asthma, high blood pressure, or taking the contraceptive pill must seek the advice of their GP and specifically mention the maximum altitude the trip reaches (please refer to Tour Essentials box on front page of your Trip Notes). Please take the trip notes to your medical appointment so that your doctor has the full details of your trip.

You must have adequate travel insurance for your trip. Please ensure that your insurance policy covers you to the maximum altitude indicated above. If you have Explore insurance you will be covered to this altitude.

Included activities

Additional notes for trips that include the Inca Trail

1. In order to regulate the number of people walking on the Inca Trail it is necessary to buy an Inca Trail Pass specific to the days that you wish to travel. There are 200 passes per day for tourists, the remainder are for guides and porters.
2. If you are travelling on an Explore trip, Explore buy the necessary permit on your behalf. This is non-refundable and can't be refunded or transferred after you have confirmed your booking.
3. Passes sell out quickly, so we would urge that you book your tour well ahead of your intended travel date. New Inca Passes are released in early October of each year, so ideally we would recommend that you book your trip at least 6 months ahead and by December for the following year where possible.
4. Please note that due to the way the passes are distributed in October although a tour departure may be 'Guaranteed' we are unable to guarantee individual Inca Trail passes until we have confirmation that the passes have been purchased. On booking we will be able to tell you the date that your pass should be confirmed, and will contact you immediately in the (unusual) event that it is not. Because of this we would recommend that you either book your flights through Explore or ensure that your tickets are flexible / refundable.
5. In order to buy your pass we will need to take an additional £125 per person non refundable deposit and require your: name as per passport, passport number, date of birth and nationality. If you change passport before travelling it will be necessary to provide a copy of both passports in advance of travelling and to carry a copy of your previous passport with you.
6. The Peruvian authorities may change the regulations for the Inca Trail Pass at any time. In the event of this we will inform you as soon as possible.
