Itinerary

Itineraries on some departure dates may differ, please select the itinerary that you wish to explore.

DAY 1 - Trip starts in Cusco. Head to the Plaza de Armas and the Inca ruins at Hatunrumiyoc and Qoricancha.

Our journey begins in Cusco, the old heart of the Inca Empire and the archaeological capital of the Americas. One of the oldest continuously inhabited cities on the continent, Cusco is imbued with an atmosphere of mystery and grandeur. The Spanish-style city of today, with its attractive pink tiled roofs, arcaded plazas and steep winding alleyways, stands upon tremendous Inca foundation stones.

After a chance to freshen up and meet our local guide, we have the option to head out to explore Cusco's lively atmosphere of Plaza de Armas (main square) with its grand colonial architecture, bustling markets and iconic Inca monuments including the Inca wall at Hatunrumiyoc with its famous twelve-sided stone. The stone, measuring some 5 feet across, has the typical bevelled joints which create the patterns of light and shadow on Inca walls learning. We also visit the incredible remains of Qoricancha, the most important temple of the Inca Empire dedicated to the Sun God Inti.

The inner sanctum of the temple is ornately decorated with silver and gold leaf and was reserved for the highest authorities in the Inca kingdom.

The rest of the day is free to enjoy optional activities in and around Cusco exploring the winding streets and alleys of the city.

DAY 3 - Visit to the colourful and vibrant Pisac markets, a llama farm and the temple-citadel Sacsayhuaman

In the morning we leave Cusco and head for the stunningly beautiful setting of the Sacred Valley to visit the market town of Pisac, strategically located at the head of the Urubamba Valley perhaps the most famous indigenous market in Peru. We spend time at the famous market before making our way back to Cusco stopping at Awanacancha, a llamas farm.

On the northern outskirts of Cusco we stop at the temple-citadel Sacsayhuaman which broods high above the town with fine views looking back down to Cusco below. Sacsayhuaman was built to impress, with a huge zigzagging stone wall broken into 66 sharply projecting angles to catch attackers in a withering crossfire. 20,000 conscripted workers toiled for 90 years to finish this remarkable historic capital of the Inca Empire, the sheer size of the stones making up citadel are a testament to the ingenuity of the Inca craftsmen.

DAY 4 - Drive from Cusco to Misminay, Sacred Valley. Trek to Misminay village, homestay visit.

Leaving Cusco this morning we drive through the Andes to arrive at Chequerec Community, a typical Andean village where we will start to trek through narrow paths traditionally used by the locals. During this hike, we will see small indigenous villages, cultivated fields, peasants working, curious children and a variety of animals as well as a varied flora. This is a great opportunity to discover different lifestyles and be in contact with the natural atmosphere of the Andes and its people. After a few hours of walking, we will arrive at the community of Misminay. Located at 3,700m, its location is spectacular as a natural balcony from where we can look at the splendid landscape and snow - capped mountains that surround the Sacred Valley; this view certainly astounds and leaves a deep impression on all those who visit this place.

We will be received by the people of the village, and welcomed with a typical sweet spearmint tea; this agreeable herb is edible and medicinal for this people. Families live together in tiny, one or two-room adobe homes raising guinea pigs, cows and sheep. Fathers work as porters for hikers during the dry season and tend crops of potatoes, corn beans and quinoa during the wet months, while mothers watch the herds, take care of the household and raise their children. Women also weave, producing the family's colorful ponchos, chullos, skirts, shawls and other items, on their backstrap looms.

After lunch we will have a demonstration of weavings made by the women of the community who will show us traditional and ancestral techniques. There will be also the opportunity to learn more about the local agriculture, they will show us instruments used by the Incas and still used today, especially in the highlands. Tonight we will take dinner at the community meeting room before overnighing at a local house.

Here we will practice with the bikes before beginning our route along a hilly track (single track , dirty road and down hill, helmets are provided). We pass the Huaypo Lagoon to reach the experimental Agricultural Site of Moray a very unique archaeological site which consists of enormous natural depressions or hollows in the ground surface that the Inkas used for constructing irrigated farming terraces around them. This place was an important center of domestication, acclimatization and hybridization of wild vegetable species that were modified or adapted for human consumption. After a short visit at this site, we continue by bike toward the town of Maras. After visiting the Salineras of Maras (Salt mines), we have a 30-40 minute descent walking to

This morning we drive to Ollantaytambo, an original Inca town. Here we have a short walking tour to stretch our legs, visiting a traditional house and our first view of Inca terracing. We continue by bus for another hour to reach KM82, the starting point for the classic Inca Trail. The trail was first explored by Hiram Bingham in 1911 and opened for walkers in 1970. The famous ruins of Machu Picchu are not the only historical remains within the area: many other interesting sites are hidden in places which can only be reached on foot, and have scarcely been explored.

We meet our porters and support staff, beginning our trek after lunch. The route crosses the Urubamba river, following a wide dirt trail alongside the riverbank. The undulating path takes us into the Sacred Valley of the Incas to Llaqtapata (2,700m). Here we camp opposite the ruins of Llaqtapata, a spectacular spot with amazing night skies.

Today's six kilometre walk is expected to take around two-and-a-half hours with an ascent of 100 metres.

After lunch we gradually ascend through the start of the cloud forest to Llulluchapampa (3,800m) which affords stunning views of the snowy peaks of Veronica (5,750m). Here we set up camp for the night; there is a well maintained toilet block at this site.

DAY 9 - Trek over the Warmiwanusca (Dead Woman) Pass (4200m), to our third camp at 3600m

Today is an earlier start as we trek over the Warmiwanusca (Dead Woman's) Pass to 4,200 metres. The two hour ascent is one of the more challenging sections of the trek, we take it slow and steady with many stops to admire the view and sunrise. After a rest and photo opportunity we descend along a stepped path to the valley of the Pacamayo river with its tropical vegetation. Here we break for brunch before beginning the ascent (mainly on steps) to the second pass of the day. We visit the ruins of Runkuraqay and then it's the final ascent to cross the Runkuraqay Pass (3,950m).

After the pass it was a long gradual descent passing into the start of the main cloud forest to reach the bottom of the valley. The Sayacmarca ruins are visible on a rocky outcrop, they command an imposing view and have only one means of access, a narrow granite stairway. We cross the valley to reach the Sayacmarca campsite for a late lunch. From here the trail goes through cloud forest with vines, exotic flowers (among them orchids) and luxuriant trees, with views (if we are lucky) of the snowcapped peaks

of Salkantay. We walk through an Inca tunnel and along a ridge above the Urubamba River to our campsite above the Phuyupatamarca ruins (3,579m). The campsite has amazing panoramic views of the surrounding peaks and down the valley towards Machu Picchu mountain.

Today is our final day walking along the Inca Trail. We say thanks and goodbye to our porters and begin our trek into Machu Picchu. We pass the Puyupatamarca ruins and spend the majority of the morning going down following stone paths and stairways, 80% of which are original Inca architecture. Coming out of the cloud forest we are greeted by the spectacular views down the valley, walking through the impressive Inca terraces at Intipata we reach our lunch stop at Winay-Wayna (2,591m). Those who wish can visit the ruins here, this Inca site is built into the steep hillside and like Machu Picchu, was abandoned for unknown reasons.

Winding our way along the edge of the mountain we follow a wide path adorned with wild flowers and orchids to we take the final steps up to reach Inti Punku - the Gate of the Sun. passing through there is a sudden and fantastic view of the Lost City itself, Machu Picchu, set in a grandiose landscape that amazes all spectators. We walk down through the site and then take the public bus down the mountainside to our hotel in the town of Aguas Calientes situated on the valley floor below Machu Picchu.

Today's eight kilometre walk is expected to take around six hours with 1,000 metres descent.

DAY 11 - Optional climb the Huayna Picchu to look down on Machu Picchu before returning to Cusco by train and bus

Our final morning is spent at Machu Picchu, probably the most astounding feat of engineering in all of ancient America. Temples, stairways, palaces and gabled stone dwellings are scattered everywhere, testifying to the energy and ingenuity of the builders. We have a guided tour with our Explore Leader then have some free time to explore the site further for as long as you wish before taking the bus back down to Aguas Calientes.

It is also possible to climb the steep peaks of either Machu Picchu Mountain or Huayna Picchu Mountain to look down on the citadel. Machu Picchu Mountain is a 700m climb from the top of the citadel. There are cobbled stairs all the way up with a few eye-opening drops in some parts, and the round-trip takes about two and half to three hours. Huayna Picchu Mountain is only 350m, half the size of Machu Picchu Mountain, but much steeper. There are many more sheer drops, and it is definitely not suitable for someone with a fear of heights. For those who fancy doing the one hour climb, you'll be rewarded with world-beating views of Machu Picchu, and the feeling that you're standing on a precipice at the top of the world.

These climbs must be pre-paid at time of booking. If you change your passport between your time of booking and prior to travel please take your original passport with you. Those doing one of the optional climbs will take the first bus back up the Machu Picchu to begin the climb at 7am after which you will meet up with the rest of the group to take the guided tour.

In the afternoon we get the train to Ollantaytambo, located in the Sacred Valley of the Incas, and then return to the historic town of Cusco by bus. Budgeting and packing

Optional activities

The following excursions and/or activities are usually available and may be arranged locally. Estimated costs are provided below for guidance only, are on a per person basis unless shown otherwise, and may depend on the number of participants. Prices quoted are correct as of the date these tour notes were originally issued but may change at any time due to currency fluctuations. Please note: These activities are booked and paid for direct with the supplier and do not form part of your Explore holiday contract.

Aguas Calientes - Hot springs US\$ 4.

Sacred Valley - Rafting on Urubamba River US\$ 65 depending on numbers

Huayna Picchu Mountain - £60; Machu Picchu Mountain £60 - Subject to availability - these must be pre-paid at time of booking and is non-refundable. If you change your passport between your time of booking and prior to travel please take your original passport with you to avoid being fined.

Lima - City tour approx. US\$ 28; Gold Museum US\$ 58 guided (minimum 2 people), US\$ 11 unguided;

Lima detour - alternative view of the city of Lima US\$ 30 (price may go up if less than 4 passengers).

Clothing

In the highlands, conditions are generally dry and sunny during the day. Nights can be very cold at altitude so it is essential to bring adequate warm clothing for the trek especially between May and August. It can drop as low as -10°C at night. Be prepared for rain. Take your swimming costume for the thermal baths at Aguas Calientes. A sunhat is essential.

Thermals

Comfortable around camp and much more practical (and warmer) to sleep in than pyjamas.

Socks

It is best to wear a pair of liner socks under a pair of fairly thick loop stitch socks. This helps to protect your feet against blisters. Avoid nylon socks, they are abrasive, don't breathe well and can cause blisters.

T-shirts We recommend polyester/polypropylene fabrics which keep you warm even when wet.

Waterproofs

Breathable waterproofs not only protect against rain and wind but also stop you from overheating. They breathe and avoid condensation which you will experience from nylon waterproofs.

Thick jumper/fleece jacket

A thick jumper or fleece jacket is necessary as nights can be very cold at altitude, especially in July.

Make sure that your waterproof jacket is loose enough to wear over your sweater or fleece.

Shorts

Shorts can be very comfortable to walk in but you must carry long trousers with you in case you get either sunburned or cold.

Please remember we shall be passing through the occasional remote areas and villages and short shorts (especially on ladies) can give offence to the local inhabitants. Longer, looser fitting shorts are, in any case, more comfortable to walk in.

Gloves & Hat

Especially useful around camp in the morning and in the evening at higher altitudes.

Footwear

Trainers or Trekking sandals

Useful around camp, in towns and when travelling. Sandals are ideal for rafting as they protect the soles of your feet and also keep them cool.

Comfortable shoes and sandals. Please see notes regarding trekking boots for Inca Trail. If participating in rafting old trainers (as they get wet) are useful.

Luggage

20kg

Luggage: On tour

One main piece of baggage and daypack. Remember you are expected to carry your own luggage so don't overload yourself.

Main Baggage: Your main piece of baggage - suitcase or rucksack - must be lockable as this becomes the receptacle for anything you don't want on the trek and this is stored at the hotel in Cusco while you are trekking.

Trek Kit Bag: Before leaving Cusco there is plenty of time to re-sort luggage into what you need on trek and what can be left in Cusco (see above). Your trek luggage, including sleeping bag, needs to be packed into a kit bag, soft holdall, frameless rucksack or similar to be carried by the porters. The weight limit for this is 7kg but you will probably find that you do not need this much.

Small Rucksack/Daysac: During the course of a trekking day, you do not have access to the luggage which is being carried for you by the porters. In any mountain region the weather can change rapidly and you must be equipped for this eventuality. Your daysac should, therefore, be large enough to carry the following: Waterproofs, sweater, long trousers (if walking in shorts), warm hat and gloves, sunhat, sun

cream, water bottle (at least 2 litre or 2 1litre bottles), tissues and your packed lunch. Most people normally find that this adds up to about 6kg. Camera equipment can be heavy so think carefully when deciding what to take. Other optional items in a day pack might be a diary or a book to read at lunch time. On the Amazon Extension, due to limited space on the boats your luggage will be limited to 10 kilos - your main bag will be left in Puerto Maldonado while you stay at your Amazon Lodge. There will be time before departing Cusco to re pack enough for four days including clothes, toiletries, shoes, torch, sun cream and insect repellent.

Remember, you are expected to carry your own luggage (i.e. on and off transport etc.) so don't overload yourself. It is recommended you bring lockable bags.

Equipment

You will need a good insect repellent, suncream, a small torch and a personal water bottle. See notes regarding sleeping bags for the Inca Trail. Please note drones are prohibited in most tourist areas in Peru.

Sleeping Bag As you do not carry it yourself this may be down or synthetic, but it must be 4-season (temperature -10°C to -5°C). A cotton liner helps to keep your bag clean. You do not need a foam mat as thermarests are provided. Note: it is possible to hire a down sleeping bag locally for US\$ 20 for the whole trek. Let your tour leader know at the beginning of the tour.

Personal Equipment: On Trek

Trekking poles

Trekking poles are recommended. NB. Metal tipped trekking poles are NOT permitted in order to reduce erosion - please ensure they have rubber/plastic tips. Wooden poles are readily available locally.

Water Bottle

Water along the trail must never be considered as drinkable. The camp staff provide purified water each day with which to fill your own bottle. 1 litre is the minimum size suitable as disposable plastic bottles are not allowed on the trail. It is a good idea to add some powdered fruit juice for flavouring. Note: Metal bottles can also double up as hot water bottles.

Torch/Batteries/Bulb

A small torch is essential for finding things in your tent, visiting the 'toilet' in the night etc. Often a head torch is the most practical option as it allows you to have both hands free. Remember that in most developing countries only a limited selection of batteries is available. The most common are pen cells (or AA size) and SP/HP2 (D size).

Plastic Bags

If you pack bits and pieces in plastic bags inside your kit bag they will stay dry in case of rain and it will be easier for you to sort through in camp. Remember, the less you have to unpack in the evening, the less you have to repack each morning. A binliner to pack inside your daysac is also a good idea.

Toiletries

Try to keep heavy cosmetics etc to a minimum. Essentials are toothbrush/paste, soap and a small towel.

Wet Wipes are great for a quick clean up in your tent, so bring a pack of those.

Personal First Aid Kit

On each trek a first aid kit is carried but you should have your own blister kit, supply of plasters, aspirin etc. (Please do not give medicines to local people without consulting the trek leader.)

Equipment Provided: On Trek -The following equipment list is provided by Explore once you are on the trek:

2-person tents.

Dining tent.

Thermarest.

Stools, table.

All cooking and kitchen gear.

A branded Explore kit bags on the Inca Trail is provided for you (you get to keep this bag). Your luggage is not taken on the actual trail and this kit bag is used to carry your personal belongings while undertaking the trip.

Tipping

Explore leader

Tipping isn't compulsory, and we work hard to ensure that our leaders all receive a fair wage. However, you might want to recognise a leader that's done a great job or really added to your trip by giving them a tip. We're often asked about the recommended amount. It's a tricky one, and down to personal preference, but we'd recommend between £15 to £20 per person per week as a guideline

Local crew

Local Crew: Although entirely voluntary, tipping is a recognized part of life in this region of the world. Some local staff will look to members of the group for personal recognition of particular services provided. In order to make things easier for you, your leader may organise a group's tips kitty for included activities and meals and if this is the case, they will account for it throughout the tour. Accordingly, you should allow US\$ 50, approx 160 Peruvian Soles per family member for group tipping For all non-included services and meals on your trip please tip independently at your discretion.

Peru

Food and drink

The costs for meals may vary depending upon location, type of restaurant and number of courses eaten and so the prices given are an average guide. Local restaurants located off the beaten track may be less expensive, whereas an upmarket restaurant located in the centre of a major city may charge more.

Breakfast price	Dinner price	Beer price	Water price
£4.00 - 7.00	£6.00 - 8.00	£2.00 - 4.00	£1

Foreign Exchange

Local currency

Peruvian Sol (PEN)

Recommended Currency For Exchange

You can choose to either change your money in advance or on arrival at the airport. Here you will find both ATMs and Bureau de Change. The exchange rate with the PEN is approximately PEN 4.3 to the British Pound. We recommend you take some emergency cash in USD as the GBP exchange rate isn't very good. Notes should be in good condition otherwise they might be difficult to exchange. Please check on line for up to date information

Where To Exchange

Your Tour Leader will advise you on arrival.

ATM Availability

ATMs can be found in the major towns and cities for cash withdrawals in Nuevos Soles. Always have some cash back up as they are not always reliable

Credit Card Acceptance

Credit card are widely accepted in many shops and restaurants but some may be subject to a service charge

Travellers Cheques

We do not recommend Travellers Cheques

Booking a land only package with Explore

Customers who have chosen to book on the 'Land Only' arrangements of our tour, please ensure that you have checked your tour specific 'Joining Instructions' prior to booking your own travel arrangements. Your joining instructions can be found below in the dates and prices information.

You may also be eligible for the Free Explore Transfer.

Joining Tour Abroad

Customers booked on the 'Land Only' arrangements will now receive a Free Transfer, provided you arrive and depart on the tour only itinerary start and end dates. The complimentary transfers will be arranged from the Explore designated airport or train station to your trips joining point, and then back from the ending point to the designated airport or train station. Generally the airport or station that Explore have selected will be the one that is closest to the town or city where the trip starts, or the one nearest to the joining point. It will be either an airport or train station but not both.

The exception to this rule is customers who are booked on a tour where the joining and ending point is at the designated airport or train station.

Free transfers are not available for Self-Guided, Polar, Tailormade or Tours for Churches customers.

If you are not eligible for the Free Transfer then you will need to make your own way through to the joining and ending point. On a majority of our tours Explore will be able to provide a private transfer at an additional cost. Please ask for a quote at the time of booking.

Insurance

It is a condition of booking with Explore that you have adequate valid travel insurance. It is your responsibility to arrange appropriate travel insurance and ensure you have read and understood the full terms and conditions of your travel insurance policy to ensure that you are covered for all activities you intend to undertake whilst on the tour, including all optional activities. Your Insurance Policy must fully

cover you for medical expenses and emergency repatriation to your home country. Please ensure your policy includes medical emergency helicopter evacuation in the event of illness or injury and covers the entire duration of your holiday. If you are trekking at altitude please ensure that there is no upper altitude limit which may limit or exclude cover for your trip. The cost of many of our Polar Voyages will exceed the capped amount covered by standard insurance premiums and you will be required to pay an additional premium to cover the full value of your trip. Please ensure that you are covered for the full amount of your holiday cost, as insufficient cover could invalidate a claim under the policy. Medical and repatriation insurance cover is not mandatory for UK residents who are travelling on trips within the United Kingdom.

Included activities

Additional notes for trips that include the Inca Trail

1. In order to regulate the number of people walking on the Inca Trail it is necessary to buy an Inca Trail Pass specific to the days that you wish to travel. There are 200 passes per day for tourists, the remainder are for guides and porters.
2. If you are travelling on an Explore trip, Explore buy the necessary permit on your behalf. This is non-refundable and can't be refunded or transferred after you have confirmed your booking.
3. Passes sell out quickly, so we would urge that you book your tour well ahead of your intended travel date. New Inca Passes are released in early October of each year, so ideally we would recommend that you book your trip at least 6 months ahead and by December for the following year where possible.

4. Please note that due to the way the passes are distributed in October although a tour departure may be 'Guaranteed' we are unable to guarantee individual Inca Trail passes until we have confirmation that the passes have been purchased. On booking we will be able to tell you the date that your pass should be confirmed, and will contact you immediately in the (unusual) event that it is not. Because of this we would recommend that you either book your flights through Explore or ensure that your tickets are flexible / refundable.
5. In order to buy your pass we will need to take an additional £125 per person non refundable deposit and require your: name as per passport, passport number, date of birth and nationality. If you change passport before travelling it will be necessary to provide a copy of both passports in advance of travelling and to carry a copy of your previous passport with you.
6. The Peruvian authorities may change the regulations for the Inca Trail Pass at any time. In the event of this we will inform you as soon as possible.

Ability to swim

An ability to swim is essential for your safe enjoyment of the water based activities on this trip. If you wish to participate in these activities then we insist that you are able to swim.

Also on the NaTHNaC site there is a list of Countries (and specific areas within a country) which are at risk of infection and a vaccination is therefore recommended. Please check the latest requirements with your travel clinic or doctor prior to departure. The above is not an exhaustive list. Further information regarding vaccinations and travel health advice can be found by following the NHS and NaTHNaC links at Explore Travel Health and from your local healthcare provider.
