### DAY 2 - Bus to Ranomafana National Park.

This morning we have an early start for our long journey south by charter bus via Antisarabe and Ambositra to Ramonafana National Park. We drive through subtropical highland, the volcanic field

around Antisarabe, terraced rice paddies and village communities typical of the Malagasy highlands. Ranomafana is one of Madagascar's most spectacular national parks. The hills are covered in primary and secondary cloud and rainforest, and there is a great diversity of flora and fauna. These include 12 species of lemur and over 115 species of birds, some of which are endemic to the area. There are also many small streams and waterfalls running through the park, joining the Namorona River as it flows off the highlands and into the valley.

ACCOMMODATION:  
Manja Hotel (or similar)

Grade: Standard Hotel

SINGLE ROOM AVAILABLE

MEALS PROVIDED: BREAKFAST, LUNCH & DINNER

### DAY 3 - Hike through the rainforest. Look for lemurs

Early this morning, with porters carrying our overnight bags, we hike into the forest looking for local wildlife including lemurs. If we are extremely lucky we will see the endangered golden bamboo and greater bamboo lemurs. It was the discovery of the rare golden bamboo lemur here that persuaded the government to create Ranomafana National Park in 1986. We stop for a picnic lunch before heading into the primary rainforest where we stay at another permanent campsite. This is a small campsite in a forest clearing with simple washing facilities. Here our cook prepares us an evening meal.

Today's ten kilometre walk is expected to take around six hours with 230 metres of ascent. The terrain is hilly rainforest and the walk is mainly on unmade forest trails

ACCOMMODATION:  
Ranomafana Campsite (or similar)

Grade: Simple Camping

SINGLE ROOM AVAILABLE

#### **DAY 4 - Wildlife trail and thermal baths at Ranomafana**

This morning we take another wildlife walk in to the forest hoping to see more animal species, including the black-and-white ruffed lemur which can only be found in this primary forest area. We then hike out of the forest area along the Varijatsy Trek Circuit to the village of Ranomafana on the banks of the Namorona Rive ending at the thermal baths and swimming pool - the name Ranomafana locally means 'hot water'.

Today's 12 kilometre walk is expected to take around five hours with 530 metres of ascent. As yesterday the terrain is hilly rainforest and the walk is mainly on unmade forest trails.

ACCOMMODATION:  
Manja Hotel (or similar)

#### **DAY 5 - Drive to Ambalavao. Visit the Anja Community Reserve**

Today we travel to Ambalavao via the ancient royal city of Fianarantsoa. Ambalavao is a beautiful town, the houses in the 'Old Town' are brightly coloured with steep tiled roofs and wooden balconies. It is also a lively market town, home to the largest cattle market on Madagascar. After an optional lunch we visit the nearby Anja Reserve, a local community reserve, where we hope to see ring-tailed lemurs before returning to Ambalavao for the evening.

ACCOMMODATION:  
Hotel Bourgainvillia (or similar)

**Grade: Standard Hotel**

SINGLE ROOM AVAILABLE

MEALS PROVIDED: BREAKFAST

---

### **DAY 6 - Drive into Andringitra National Park. Start four day hike**

After breakfast we travel by 4WD to Andringitra National Park where we will spend the next three days. On arrival we trek with porters east through several small villages to the first forest campsite, where we have a picnic lunch. The campsite has basic washing facilities - running water but no showers. The park scenery is stunning, encompassing high mountains, granite outcrops and deep valleys, and supports rainforest, mountain forest and high altitude meadow vegetation. As a consequence it is one of the most biodiverse areas of Madagascar with over 1000 species of plants, 100 species of birds, 50 species of mammals (including 13 of lemurs) and 55 species of frogs. However the park covers a large area and much of it is grassland meadows (it is covered in flowers including orchids December to April) so the wildlife isn't always easy to see. Tonight, after dinner, we take a nocturnal nature walk looking for some local animal nightlife in the forest.

Today's five kilometre walk is expected to take around two hours with 300 metres of descent. The path passes through local villages and through fields before meeting the edge of the forest area at the campsite.

#### **ACCOMMODATION:**

Imaitso Campsite (or similar)

Grade: **Simple Camping**

SINGLE ROOM AVAILABLE

MEALS PROVIDED: BREAKFAST, LUNCH & DINNER

---

### **DAY 7 - Wildlife trail. Trek through rainforest and a meadow plateau to higher campsite**

Starting early we make a wildlife walk, looking for birds and lemurs, before we begin our trek up to the park's highest campsite, Andriampotsy. We gain altitude on this trek as we pass through the Imaitso forest and arrive at a meadow plateau at the foot of the main Andringitra granite outcrop. We have a picnic lunch on the way up and then follow the trail past several streams to the campsite, the base camp for the climb to the highest point of the reserve, Pic Imarivolanitra. The campsite is basic but there is a shower area for bucket showers and toilets. Our cook provides us with an evening meal before we turn in for the night.

Today's 12 kilometre walk is expected to take around four hours with 520 metres of ascent, mainly uphill along unmade tropical forest paths.

ACCOMMODATION:  
Andriampotsy Campsite (or similar)

Grade: Simple Camping

SINGLE ROOM AVAILABLE

MEALS PROVIDED: BREAKFAST, LUNCH & DINNER

---

### **DAY 8 - Walk to the summit of Imarivolanitra (2,658 m)**

Today we walk up between a series of granite boulders to the summit of Imarivolanitra (2,658m), the highest point in southern Madagascar. It is a fairly steady climb on a well-managed path and the views from the top of this mountain down over the park are breathtaking. We then descend along the same paths via last night's campsite to a lower campsite, another basic campsite but with a shower area and toilets.

Today's 15 kilometre walk is expected to take around seven hours with 600 metres of ascent and 650 metres of descent. It is a steady ascent along narrow mountain paths followed by a descent on similar paths down through tropical forest.

ACCOMMODATION:  
Belambo Campsite (or similar)

Grade: Simple Camping

SINGLE ROOM AVAILABLE

MEALS PROVIDED: BREAKFAST, LUNCH & DINNER

---

### **DAY 9 - Travel to Isalo National Park**

After walking to the park entrance we return by 4WD to Ambalavao, and then head south west by charter bus to Isalo National Park where we stay in Isalo Ranch Hotel. This hotel is on the edge of the

Isalo sandstone massif where the dry forest is home to sifaka, ring-tailed lemur and brown lemur. From the hotel we can see the sandstone hills that have been eroded by nature to form deep gorges and bizarre shapes.

Today's five kilometre walk is expected to take around two hours with 500 metres of descent. We descend down to the park entrance on unmade forest trails and access roads.

**ACCOMMODATION:**

Isalo Ranch Hotel (or similar)

**Grade: Simple Hotel**

SINGLE ROOM AVAILABLE

MEALS PROVIDED: BREAKFAST, LUNCH & DINNER

**DAY 10 - Wildlife Trail. Swim in natural pools**

Isalo offers a totally different landscape from either Ranomafana or Andringitra. The main massif is a huge area of sandstone eroded into deep gullies on the eastern side. There are patches of dry forest throughout the reserve which are home to lemur groups although they are shy and rarely seen. The temperatures are much hotter and plant life reflects this with moisture retaining species such as aloes and the extraordinary dwarf baobabs. After a morning wildlife trail we walk with our porters through the sandstone massif of Isalo to natural swimming pools and return to Isalo Ranch.

Today's eight kilometre walk is expected to take around four hours with 250 metres of ascent, along uneven sandstone paths.

**ACCOMMODATION:**

Isalo Ranch Hotel (or similar)

**Grade: Simple Hotel**

SINGLE ROOM AVAILABLE

### DAY 11 - Hike out of park. Drive to Ifaty Beach via Zombitse Park

This morning we drive west to Toliara. En route we stop at Zombitse National Park, which despite years of slash and burn farming in the area, hosts an area of dry deciduous forest. This harbours a wide variety of wildlife including several lemur species and the elusive fossa (a cat-like mammal endemic to Madagascar), as well as many birds and reptile species. Throughout the forest are magnificent baobab trees. From Toliara we continue to Ifaty Beach, a small resort on the west coast, our base for the next two nights.

Today's four kilometre walk is expected to take around two hours with 250 metres of descent, along uneven sandstone paths.

ACCOMMODATION:  
Hotel Solidaire (or similar)

Grade: Standard Hotel

MEALS PROVIDED: BREAKFAST

---

### DAY 12 - Free day in Ifaty Beach

Today is free to relax or explore the area. Ifaty Beach is a huge sandy bay which looks out over a lagoon protected by a barrier reef up to seven kilometres from the shore. Traditional fishing villages are scattered along the bay and fishing is still done in sail powered outrigger canoes. There is an option to visit the reef for snorkelling. There is also an excellent forest walk in the Reniala Reserve just inland from the beach area, where strange spiny forest can be found and some of the most attractive of the endemic bird species, such as the long-tailed ground roller, sub-desert mesite and sickle-billed vanga.

Today's optional two kilometre walk is expected to take around two hours.

ACCOMMODATION:  
Hotel Solidaire (or similar)

Grade: Standard Hotel

The walk takes us through local highland villages and rice paddies, learning about local silk weaving along the way before returning to Antananarivo in the afternoon.

Today's six kilometre walk is expected to take around three hours with 250 metres of ascent, along simple footpaths.

### Budgeting and packing

#### Clothing

Bring light and comfortable clothing that can be layered according to the temperature, the weather varies in different areas. Temperatures in Andringitra are low in the southern winter and will be down to below freezing at night so bring warmer layers it can also be drizzly and wet. Isalo is drier, it will be hot in the day and cool at night and Ranomafana will be humid and can get wet. Tops made from wicking materials which keep you drier and warmer are recommended as a base layer, and walking trousers are

preferable to trousers of heavier material such as jeans. A waterproof jacket is essential at all times in case of rain and wind.

- Breathable wind and waterproof jacket (you may also wish to bring waterproof trousers)
- T-shirts
- Long sleeved tops
- Sunhat
- Long trousers
- Warm sleepwear
- Shorts (if you prefer to walk in them, culturally acceptable)
- Swimwear and towel
- Midlayer Fleece/pullover
- Socks (liner and thicker pair)
- Insulated jacket
- Scarf

When it has rained there may be leeches in the jungle and we recommend bringing your own leech socks which can be bought through outdoor equipment providers or online through retailers such as Amazon.

## Footwear

We recommend you bring lightweight walking boots with ankle support, make sure that your boots are worn-in and comfortable before the start of the trip. Also trainers or sandals for relaxing and general wear. We suggest that on international flights you either carry your walking boots in your hand luggage or wear them - should your luggage be lost or delayed, your own boots are the one thing that will be irreplaceable.

## Luggage

18Kg

### Luggage: On tour

We recommend for you to travel with up to 3 pieces of luggage: A main piece of luggage that can go in the hold of your international flight, an empty trek bag/holdall that can be used while trekking, and a Day Bag/mall Backpack for carrying your items during the trekking days. Please see below for full descriptions of each bag.

-Main luggage (hold luggage on flight):

You will not trek with your main bag, only carrying it from the hotel room to the bus, porters are provided for the trekking sections. This bag is for all your items and will also need to be used as storage during day and multiple day treks, your non trekking items will be kept in this bag, clean clothes, sandals etc. This bag should preferably have a lock, there will be no access to this bag during trekking days and nights.

-Trek bag:

This will be used to carry the items that you need for the multiple trekking days. This will be your main luggage bag during trekking nights and needs to hold a maximum of three nights walking and sleeping essentials. Use a strong, soft walled, robust, waterproof trek bag or rucksack that can easily be carried by

the porters. The weight limit for the bag and its contents is 18kg but you will probably find that you do not need this much. There will be time the night before leaving for the treks to re-sort your luggage into what you need on the trek. If you pack your gear in plastic bags inside your trek bag they will stay dry in case of rain. It will also be easier for you to sort through. Remember, the less you have to unpack in the evening, the less you have to repack each morning! It is advisable to pack your gear in drytrng plastic bags inside your trek bag so it will stay dry in case of rain

-Small Rucksack/Day bag (hand luggage on flight):

During the course of a trekking day, you do not have access to the luggage, which is being carried for you by the porters. In any mountain region the weather can change rapidly and you must be equipped for this eventuality. Your daypack should be large enough to carry your day things including: waterproofs, fleece, long trousers (if walking in shorts), warm hat and gloves, sun hat, suncream, water bottle, tissues and your packed lunch. Camera equipment can be heavy so think carefully when deciding what to take. A rucksack with 20 or 25 litres capacity is usually sufficient. Please note that a shoulder bag is not practical.

## Equipment

-Sleeping Bag: As you do not carry it yourself, this may be down or synthetic, but it must be 3/4 season comfort rating (temperature 0°C to 10°C). A silk or fleece liner helps to keep your bag clean and adds an extra season.

-Sleeping Mat: An inflatable thermarest style mat is helpful in order to help you get a good night's rest, although a roll matt will be provided locally.

-Water Bottle or Platypus/Camelbak hydration system: Water along the trail must never be considered as drinkable until purified. Take at least two 2 litre personal water bottles or a system that allows for this much water, preferably insulated. A personal supply of water purification tablets/drops is essential. Powdered fruit juice can be used to disguise the taste. Energy snacks, including chocolate and sweets, are also recommended whilst on trek.

-Sunglasses

-Sun cream

-Small Torch (with spare batteries and bulb)

-Camera

-Walking poles (if you usually use them)

-Personal toiletries

-Personal first aid kit - On each walk a first aid kit is carried but you should have your own blister kit, supply of plasters, aspirin and other essentials.

-Insect repellent

-Small waterproof dry bag (for items such as your mobile phone)

-Reusable water bottle (minimum 1 litre) - Get 15% discount on a Water-to-Go bottle  
[www.explore.co.uk/about-us/responsible-travel/water-to-go-discount-with-explore](http://www.explore.co.uk/about-us/responsible-travel/water-to-go-discount-with-explore)

-Binoculars

Equipment Hire and Trek Training Days: Trek Hire UK hire out a wide range of kit including quality sleeping bags, down jackets, therm-a-rest sleeping mats and walking poles <http://www.trekhireuk.com>. They also run regular trek training and preparation days from their base in the Surrey Hills, ideal for getting an indication of your overall fitness level and also covering advice on kit and altitude.

## Tipping

### Explore leader

Tipping isn't compulsory, and we work hard to ensure that our leaders all receive a fair wage. However, you might want to recognise a leader that's done a great job or really added to your trip by giving them a tip. We're often asked about the recommended amount. It's a tricky one, and down to personal preference, but we'd recommend between £15 to £20 per person per week as a guideline.

### Local crew

Although entirely voluntary, tipping is a recognized part of life in this region of the world. Some local staff will look to members of the group for personal recognition of particular services provided. In order to make things easier for you, your leader may organise a group's tips kitty for included activities and meals and if this is the case, they will account for it throughout the tour.

Accordingly you should allow approx. £35.00 per person for group tipping.

### International Departure Taxes

Ivato (Antananarivo) Airport:

International airport departure tax is approximately 38Euros

Domestic airport departure tax is approximately 20Euros

There is an additional country departure tax of US\$15.00 per person.

Flight tickets issued after 04 November 2016 will include the departure taxes as part of the ticket. If you have booked your flight ticket independently please check with your travel agent/airline if these taxes are included in your ticket. If any are not you will need to pay for the above taxes locally at the airport in cash.

## Madagascar

### Food and drink

The costs for meals may vary depending upon location, type of restaurant and number of courses eaten and so the prices given are an average guide. Local restaurants located off the beaten track may be less expensive, whereas an upmarket restaurant located in the centre of a major city may charge more.

Lunch price	Dinner price	Beer price	Water price
£7.00	£12.00	£2.00 - 4.00	£0.50

### Foreign Exchange

#### Local currency

Malagasy Ariary.

#### Recommended Currency For Exchange

We recommend taking most of your money in GBP, US Dollars or Euro cash. GBP can be changed at Tana airport and then after that Euro or US\$ will be the preferred cash for exchange outside the capital. Please note that US\$100 bills are not accepted and credit cards are rarely accepted.

#### Where To Exchange

Limited to Antananarivo, Antsirabe and Fianarantsoa. Your tour leader will advise on arrival.

**ATM Availability**

Antananarivo only, but ATMs cannot be relied upon.

**Credit Card Acceptance**

Very limited in Antananarivo and not to be relied upon.

**Travellers Cheques**

Take some travellers cheques in case of emergencies, though note that they are extremely difficult to exchange. Up-to-date information re: global exchange rates can be obtained at <https://www.currencyexpress.com/explore/>

---

**Transport, Accommodation & Meals****Transport Information**

Flight, Minibus

**Accommodation notes**

The accommodation on this tour varies between standard hotels and basic camping in almost equal measure. We have therefore classified the accommodation on this tour as in the middle of these two categories - simple. The camp sites all have running water and basic toilet facilities (long drop); some have showers. Basic roll mats are provided but we would advise you bring a thermarest type mat too as the ground can be cold.

If you would like to book a single tent for the camping nights of the tour please let us know. We can provide this at a cost of £30 which should be paid in cash to your Tour Leader when you arrive in Madagascar. Obviously if you have booked a single room option for the whole trip, this includes a tent during the camping section.
