Stopping for lunch along the way, on arrival in the foothills around Besi Sahar (760m) we begin our trek up to the Gurung village of Khudi (790m). Following the gorge we pass a sprinkling of small hamlets and tropical forest, before making our way across the Khudi Khola to follow the trail north along the Marsyangdi Valley to Bhulbule (840m).

DAY 4 - Trek from Bhulbule to the ancient village of Jagat (1300m)

This morning we cross the Ngadi River by way of a high suspension bridge and continue along its east bank up to the settlement of Bahundanda. The route takes us through the villages of Ngadi and Lampata and to the north-east we are treated to some stunning views of Manaslu (8156m). From Bahundanda we then descend to a stream, before climbing to the village of Lili Bir, from where we continue to follow the

trail high above the river. The track then descends to another bridge, at Syange (1190m), where we cross over to the western side of the Marsyangdi and hike up a steep trail to the ancient village of Jagat (1300m).

Today's 14 kilometre walk is expected to take around seven hours with a total ascent of 750 metres and a descent of 350 metres.

DAY 5 - Trek from Jagat to Dharapani (1860m) crossing the Marsyangdi River several times

From Jagat the trail descends along a meandering track that follows the Marsyangdi, mirroring the river's course before winding up through forest to the small village of Chamje (1430m). Crossing the river to the east bank again, we then continue up to the large settlement of Tal (1675m), where we find a number of lodges and shops sharing the landscapes with some breathtaking views of the surrounding valleys. This presents us with an ideal spot to stop for lunch, before we resume our journey onto the village of Karte. The afternoon sees us crossing the river back and forth, snaking our way up the valley and passing through a collection of small villages en route to our final destination at Dharapani.

Today's 15 kilometre walk is expected to take around seven hours with a total ascent of 875 metres and a descent of 180 metres.

ACCOMMODATION:
Dharapani Tea House (or similar)

Grade: Simple Teahouse

MEALS PROVIDED: BREAKFAST, LUNCH & DINNER

DAY 6 - Hike from Dharapani to Chame (2670m) with views of Annapurna II and IV

A rocky trail takes us west, following the Marsyangdi up the Manang Valley, where we enjoy some stunning views out towards Annapurna II (7937m) and Annapurna IV. These remote highlands are home to the Manangi people, itinerant traders who have traded salt and yaks across these mountains for

centuries. Following in the footsteps of these mountain merchants of old, we head up through forests of oak and maple to Dhanakyu (2290m) and then on to the village of Latemarang (2360m). Our route then winds its way across several forested ridges to Kotho (2590m), from where we have a short easy walk down to Chame (2670m), the region's administrative headquarters, where the distant views of Lamjung, Annapurna II and Annapurna IV provide a stunning backdrop to our day's end.

Today's 17 kilometre walk is expected to take around seven hours with a total ascent of 1065 metres and a descent of 390 metres.

ACCOMMODATION:
Chame Tea House (or similar)

Grade: Simple Teahouse

MEALS PROVIDED: BREAKFAST, LUNCH & DINNER

DAY 7 - Ascend from Chame to Pisang (3190m) through dense forests

Departing Chame, we cross over to the northern side of the river and follow a relatively easy trail up through apple orchards to the village of Bhratang (2840m), an old Khampa settlement that is largely abandoned these days. From here we then start along a trail that provides us with some of the most dramatic scenery of the journey so far. Blasted through the surrounding rock, the trail leads through a steep, narrow valley, blanketed in dense forest. As we exit the forest and cross the river over a bridge suspended some 3040m above sea level, we are treated to our first view of the spectacular Paungda Danda, a 1500 metre wall of rock that rises up from the river below. After crossing a ridge that lies festooned with prayer flags and stone cairns, we then reach the large village of Pisang. The village is split into lower and upper Pisang and from the gompa at the top of the town there are some lovely views out across the meandering streets and rambling houses of the lower town.

Today's 14 kilometre walk is expected to take around six hours with a total ascent of 640 metres and a descent of 10 metres.

ACCOMMODATION:
Pisang Tea House (or similar)

DAY 8 - Trek from Pisang to Manang (3540m) via Braga with its ancient gompa

Continuing along the south side of the river today we make a long climb up and over a ridge that takes us past 3400 metres. From here we enjoy some truly spectacular views of the surrounding peaks, before we descend into the valley and on to Hongde (3325m), a village that has the distinction of an airstrip, a police post and a truly impressive mani wall. Continuing on to Mungli, we then cross back to the north bank of the river and continue to the Tibetan-style village of Bryaga (3475m), where we find an engaging collection of interestingly stacked houses and the largest gompa in the district. The houses lie one on top of the other, the terraces of the upper houses forming the roofs of the ones below, whilst the monastery contains a wonderful collection of Tibetan Thankas that date back some 500 years. From here it is just a short walk on to the large community at Manang, our final destination for the day, where we find a settlement of some 500 houses, a chorten and a long mani wall etched with the Buddhist chant of 'Om Mani Padme Hum'.

Today's 14 kilometre walk is expected to take around six hours with a total ascent of 380 metres and a descent of 140 metres.

DAY 9 - Acclimatisation day in and around Manang

Today has been left free to get a little more used to the conditions at these higher altitudes before we make the crossing of the Thorong La. You can spend the day exploring the area around the village, taking some shorter hikes into the mountains to enjoy the views of the Chulu ranges and Thorong La in the distance. It is important to get some rest today too though, so remember to conserve some energy for the days still to come.

We make an early start this morning and begin the long climb to the Thorong La, an ascent that should take us some 4 hours (depending upon the fitness of the group and weather conditions). The trail up to the pass follows a route that has been used by local herders for centuries, crossing through moraine and snow and snaking its way steeply up over the rocky ridges. As we approach the pass we are greeted by the sight of a traditional chorten and fluttering prayer flags and as we crest the summit the views before us are simply staggering. A panorama of Himalayan giants lies before us, with the immense Kali Gandaki Valley lying off to the west and the towering peak of Yakgawa Kang (6481m) to the north. After stopping to rest and enjoy the stunning vistas, we then begin the long trek down to Muktinath, a 1600 metre descent that affords us some glorious views of Dhaulagiri (8167m) and Tukucho Peak (6920m). The moraine trail eventually gives way to grassy slopes, with the final part of our journey taking us along the upper reaches of the Jhong Valley to Muktinath and Ranipauwa, where we end our crossing of the Thorong La.

The route will pass through Jomsom, the regions' main hub with an airport and the Thakali village of Marpha, famous for its apples and brandy. We'll make a stop at Chairo, home to refugees from Tibet before continuing our descent to arrive in Tatopani at 1190 metres. The name Tatopani means hot water and this village is lucky enough to have two hot springs. We can take a well-earned dip in the springs before the final stages of our trek.

Country information

Nepal

Climate

Temperatures in the lower altitude regions are extremely pleasant. At Pokhara variations in temperature are very limited: from the coldest recorded of 8°C (46°F) to the highest of 31°C (88°F). The mountains are best admired, with greater air clarity, from October to January, while from February to May the skies may be hazy. Monsoon rains are strongest in June, July and August. The coldest months are December and January.

Budgeting and packing

Clothing

Long Trousers - For everyday walking, light cotton trousers are the most suitable. Knee length shorts are acceptable in the more remote areas, but to avoid giving offence in the villages, you should cover up with trousers. Although comfortable, leggings are also unsuitable as they too cause offence to local people. Jeans are not recommended as they are often difficult to walk in over longer distances and become cumbersome when wet.

Down Jacket - After sunset, temperatures can fall below freezing. A down jacket is the lightest and most convenient way of keeping warm when the temperature drops. Down jackets can be inexpensively hired or bought in Nepal. Details will be given at the briefing in Kathmandu.

Waterproofs - Breathable waterproofs not only protect against rain and wind but also stop you from overheating. They 'breathe' and avoid condensation which you will experience from nylon waterproofs. Rain during the trekking season is fairly rare but can be heavy if it does happen.

Gloves - Especially useful in the morning and in the evening at higher altitudes. Thermal types are most suitable.

Socks - It is best to wear a pair of reasonably thick loop stitch socks. This helps to protect your feet against blisters. Avoid nylon socks, they are abrasive, don't breathe well and can cause blisters.

Thick fleece pullover/jacket - A thick fleece pullover or jacket is necessary as nights can be very cold at altitude. Make sure that your waterproof jacket is loose enough to wear over your pullover or jacket.

Track Suit - Comfortable and much more practical (and warmer) to sleep in than pyjamas. Alternatively, thermal underwear is good.

Thin Shirt/T-Shirt

Thick Shirt or Thermal Vest

Warm Hat

Footwear

We strongly recommend you bring walking boots with ankle support- leather or fabric are both fine. Make sure that your boots are worn-in and comfortable before the start of the trip. Trainers and tennis shoes do not give the ankle support afforded by a decent pair of walking boots. Ideally, visit a specialist outdoor pursuits shop who will offer advice. Also trainers or sandals for relaxing and general wear. We suggest that on international flights you either carry your walking boots in your hand luggage or wear them - should your luggage be lost or delayed, your own boots are the one thing that will be irreplaceable.

Luggage

20kg

Luggage: On tour

Your luggage should consist of three main pieces:

Main Baggage: The item of luggage used to carry all your belongings in the hold of the plane and used to store all of the items you don't need on trek. This can be left behind at the group hotel used prior to the trek.

Trek Kitbag: Customer on all of our treks in Nepal receive a free Explore kitbag on the tour prior to the start of the trek. Approximately 80 litres in size it's ideal for all items you need to take on trek and the luggage preferred by our porters. The weight limit for this is 10kg but you will probably find that you do not need this much.

Daysac/Rucksack: 30-35 litres recommended. During the course of a trekking day, you do not have access to the luggage which is being carried for you by the porters. In any mountain region the weather can change rapidly and you must be equipped for this eventuality. Your daysac should therefore be large enough to carry waterproofs, fleece jacketweater, long trousers (if walking in shorts), warm hat and

gloves, sun hat, sun cream, water bottle (minimum 1 litre) and your camera. Most people normally find that this adds up to about 2 to 3kg. Other optional items in a daysac might be a diary or a book to read at lunch time. On a few occasions it is also necessary to carry your own packed lunch. We advise you to take a waterproof rucksack cover or alternatively line the sack with a large plastic bag to keep the contents dry.

Advice on how and what to pack for the trek will be given at the tour briefing but it may be useful to do a trial pack before you leave home.

Equipment

Sleeping Bag - As you do not carry it yourself this may be down or synthetic, but it should be 4-season (temperature -10°C to -5°C). As most treks pass through a variety of climatic conditions, a long side zip is a good idea. A cotton liner helps to keep your bag clean. Good sleeping bags are expensive but can be rented or bought quite easily and cheaply in Kathmandu, so if you don't own one you could consider this option. Details can be dealt with at the briefing in Kathmandu.

Water Bottle - Water along the trail must never be considered as drinkable. Each day you must sterilise water with Chlorine Dioxide with which to fill your own bottle. 1 litre is the minimum size suitable. If you dislike the taste of sterilised water, it is a good idea to add some powdered fruit juice. You **MUST** bring Chlorine Dioxide with you on this trek. For environmental reasons, we do not encourage the purchase of bottled mineral water nor the boiling of water due to fuel and power shortages.

Plastic Bags - If you pack bits and pieces in plastic bags inside your bag they will stay dry in case of rain and be easier for you to sort through in camp. Remember, the less you have to unpack in the evening, the less you have to repack each morning! A bin liner to pack inside your daysac is also a good idea.

Torch/Batteries/Bulb - A small torch is essential for finding things in your room, going to the loo in the night, etc. Petzl head torches are particularly useful. Remember that in most developing countries only a limited selection of batteries is available so bring spare batteries and bulb. The most common are pen cells (or AA size) and SP/HP2 (D size).

Toiletries - Try to keep heavy cosmetics etc to a minimum. Essentials are toothbrush/paste, bio-degradable soap, small towel, small nail brush and toilet rolls! 'Wet Wipes' are great for a quick clean up, so bring a pack of those (non-perfumed to avoid rashes!).

Sunglasses/Goggles - A good pair of sunglasses are essential for protection against UV rays and glare at high altitudes.

Sun Hat, High Factor Sun Cream/Block & Lip Salve Choose a high factor suncream (Factor 15 or more) to protect your skin against the sun at high altitudes. A combination sunblock/ lipsalve is ideal for facial protection.

Personal First Aid Kit Each trek carries an extensive first aid kit but no prescription medicines. You should have your own supply of plasters, aspirin, diarrhoea tablets and also a comprehensive blister kit plus any other medications you or your doctor feel advisable. (Please do not give medicines to local people without consulting the trek leader.) See the list in our General Information Booklet.

Trekking poles Trekking poles with rubber points are recommended.

Gaiters

Whistle To attract attention in an emergency.

Boot Cleaning Kit

Spare Laces

Swimsuit

Anti bacterial handwash

Equipment Hire in Nepal - Almost every item required for a trek can be purchased or hired in Kathmandu and your Tour Leader can advise on the best shops to visit at your tour briefing. The costs of hiring are as follows:

Please note: each item has a minimum charge of 7 days and then an additional per day charge added every after that if longer than 7 days:

Sleeping Bag (4 season)- Rs.60 per day (Rs.420 for 7 days- minimum)

Cotton sleeping bag inner liner (new)- Rs.150 per day (Rs.1050 for 7 days- minimum)

Down Jacket- Rs.50 per day (Rs.350 for 7 days- minimum)

Equipment Hire and Trek Training Days in the UK - Trek Hire UK hire out a wide range of kit including quality sleeping bags, down jackets, therm-a-rest sleeping mats and walking poles <http://www.trekhireuk.com>. They also run regular trek training and preparation days from their base in the Surrey Hills, ideal for getting an indication of your overall fitness level and also covering advice on kit and altitude.

Tipping

Explore leader

At your discretion you might also consider tipping your Tour Leader in appreciation of the efficiency and service you receive.

Although entirely voluntary, tipping is a recognised part of life in this region of the world. Some local staff will look to members of the group for personal recognition of particular services provided. Accordingly, you should allow £55 for tipping of trek staff, drivers, guides etc.

In order to make things easier for you, the Tour Leaders may organise a group's tips kitty and if this is the case, they will account for it throughout the tour.

Accommodation notes

Although accommodation choices in Nepal are expanding and overall standards improving, please note that whatever the level, from basic guesthouse to high end city centre hotel, you should always be prepared for standards to be different than in the West. For example, even in the best hotels, plumbing and electricity supplies can be somewhat erratic and although the welcome is always warm, service levels may be less efficient than you may be used to.

Tea houses in Nepal were originally local homes where the family opened their doors to visitors and served drinks and simple meals and a place to sleep for the night. Over time these developed into a homestay-hotel hybrid and the concept of the 'tea house' was established. At the tea houses on this trek will usually be accommodated in a twin room with a bed, mattress and pillow but you will need to bring your own sleeping bag. Occasionally, when there is a larger group and the trails are very busy, you may need to share a triple or even quad room. Tea houses are sometimes likened to 'indoor camping' - there is no central heating and the usually shared toilet and shower facilities will be basic - there may be a squat style toilet and hot water is not always available.

Meals are taken in the heated communal dining area which also provides a place to relax and socialise after the days walking. Over the course of the trek there will be a range of Nepali, Chinese and some Western dishes provided. Vegetarians are well catered for. A comprehensive range of hot and cold drinks will be available. Staying in tea houses is a great way of meeting the kind-natured men, women and children of Nepal and helps to support the economy in these remote mountain communities.

Insurance

It is a condition of booking with Explore that you have adequate valid travel insurance. It is your responsibility to arrange appropriate travel insurance and ensure you have read and understood the full terms and conditions of your travel insurance policy to ensure that you are covered for all activities you intend to undertake whilst on the tour, including all optional activities. Your Insurance Policy must fully cover you for medical expenses and emergency repatriation to your home country. Please ensure your policy includes medical emergency helicopter evacuation in the event of illness or injury and covers the entire duration of your holiday. If you are trekking at altitude please ensure that there is no upper altitude limit which may limit or exclude cover for your trip. The cost of many of our Polar Voyages will exceed the capped amount covered by standard insurance premiums and you will be required to pay an additional premium to cover the full value of your trip. Please ensure that you are covered for the full amount of your holiday cost, as insufficient cover could invalidate a claim under the policy. Medical and repatriation insurance cover is not mandatory for UK residents who are travelling on trips within the United Kingdom.

Altitude information

This trip goes to an altitude where there is a risk of being affected by Acute Mountain Sickness (AMS), a common and usually harmless condition caused by reduced air pressure and a lower concentration of oxygen. Whilst the itinerary has been specifically designed to allow your body to acclimatise gradually, the speed of onset and severity - as well as the height at which AMS develops can vary greatly between individuals; being physically fit affords no special protection. If symptoms occur while on tour you must let your tour leader know immediately. For further advice when travelling at altitude we recommend visiting the medical advice website of Medex and download their information booklet:

http://medex.org.uk/medex_book/english_version.php

Travellers with heart or lung conditions, anaemia, asthma, high blood pressure, or taking the contraceptive pill must seek the advice of their GP and specifically mention the maximum altitude the trip reaches (please refer to Tour Essentials box on front page of your Tour Notes). Please take these to your medical appointment so that your doctor has the full details of your trip.

You must have adequate travel insurance for your trip. Please ensure that your insurance policy covers you to the maximum altitude indicated above. If you have Explore insurance you will be covered to this altitude.

This trip includes night stops where we sleep at altitudes in excess of 4000m. For this reason it is suitable only for participants aged 16 and over
