Cruise Into The Arctic

- Fabulous Norwegian Fjords
- **Set sail from Bergen** - the gateway to Norway's fjords - to the remote shores of Svalbard on this dazzling 15-day odyssey across the Norwegian Sea. Walk across the glaciers that carved the stunning landscapes, explore subarctic islands by Zodiac in search of polar bears, walk through history at UNESCO-protected historical sites, and much more. Don't merely pine for the fjords; find them.
- **En - route**, we will have time to enjoy the picturesque Lofoten Islands. This enchanting collection of islands that form the Lofotens are rightly famous for their azure waters and the colourful fishermen's cabins that dot the coast. We also plan to cruise in to the nearby Trollfjord, one of Norway's shortest and yet most dramatic fjords. Called the 'Gateway to the Arctic', Tromsø is the last major habitation before we head deeper into the Arctic Circle towards the usually ice-bound outpost of the Svalbard archipelago,

more commonly known as Spitsbergen. A rugged land of deep fjords, mountains and ice sheets, we spend our time here searching for walrus, seal, reindeer, arctic fox and the mighty polar bear.

Budgeting and packing

Clothing

Parkas

These will be provided by the ship operator. Please register your size with us before travel and we will arrange for your parka to be available in your cabin on arrival.

Gloves

Keeping your hands warm and dry can be a challenge. Thin polypropylene gloves can be worn underneath warm outergloves. This allows you some protection from the cold when removing your gloves to operate your camera etc. We strongly recommend that you bring more than one pair of gloves, in case one gets wet (or lost).

Hat/Cap

Warm, woollen hat/cap to protect your ears, as well as a scarf, neck gaiter or other face protection, such as a balaclava.

Trousers

Water-resistant trousers of coated nylon or, even better, Gore-Tex® are essential for your comfort. They can be worn over your regular clothes to keep you warm and dry. We suggest that you purchase trousers a few sizes larger than you normally wear as you will be wearing them over other clothing. Gore-Tex® or similar fabrics are excellent for keeping out wind and water without trapping excess heat. Rain gear and Gore-Tex® products can be found in any outdoor sport clothing store. In addition to your waterproof trousers, warm ski pants are suggested if you have them. Warm trousers such as jeans, corduroys etc are also good.

Socks

Warm wool socks worn over a thin pair of silk, polypropylene socks should provide enough warmth and insulation for your feet. Bring several pairs of socks, since you will inevitably get your feet wet.

Outer Clothing Woollen, knit or cotton sweaters/tops, polar fleece tops (medium weight), several cotton turtlenecks and T-shirts for layering on and off the ship.

Underclothing

Thermal underwear is highly recommended as it will keep you warm without adding bulk. Most polar travellers prefer a lightweight version.

Footwear

Complimentary, used waterproof boots will be supplied onboard. However, guests might want to bring

their own if they are the following sizes due to the limited quantities onboard:

- men's UK size 12 & 13 1/2
- women's UK size below three & seven and above

Guests must bring their own if they are:

- men's UK size six 1/2 or smaller
- men's UK size 13 1/2 or larger
- women's UK size two or smaller
- women's UK size nine 1/2 or larger

These are rubber, waterproof boots that are just below your knees with a strong, ridged non-skid sole. You usually have to step from the Zodiac into icy water up to 30 cm high on most landings. Do not bring heavy, cumbersome boots that make it difficult to walk or boots with metal cleats as they cannot be used for landings. For maximum warmth, wear loose-fitting boots and two pairs of socks. Try out your boots before the voyage.

Transport Information

Expedition, Zodiac

Ship description

At a nimble 105 metres (345 ft) in length, with a capacity to hold 132 guests, the Expedition is an ideal vessel to ply polar waters. The ship is large enough to provide stability, speed, spacious cabins and ample public space, yet she is small enough to manoeuvre in remote areas and get you close to the action. Ship stabilizers ensure a smooth ride in rough waters, such as the infamous Drake Passage enroute to the Antarctic, allowing you to enjoy more of your time at sea. A fleet of ten zodiacs allows passengers to get out and actively explore the remote shores of our destinations. The Expedition is a speedy vessel. A top speed of 16 knots means you'll spend less time getting from A to B, and more time to explore your surroundings.

Cabins

The lead-in prices on our website are based on outward facing, category one cabins on the lower deck. Category one cabins are triple or quad share. They are comfortable with a private toilet and shower, and porthole. The Expedition has a number of different cabin categories, ranging from quads, twins and suites - all are outside facing, with two beds (apart from the suites which have queen size beds). Some cabins have larger windows, depending on your cabin grade. We can also offer single occupancy at a supplement which will be subject to availability at the time of booking. A full layout of the deck plan can be found under the Polar Ships section on our website. Your confirmed cabin type will appear on your Booking Confirmation which will be sent on receipt of your deposit payment.
