DAY 3 - Fly to Cusco; walking tour of the city and see the Inca wall of Hatunrumiyoc

Today we fly to Cusco. The old capital of the Inca Empire, Cusco is the archaeological capital of the Americas and the oldest continuously inhabited city on the continent. Imbued with an atmosphere of mystery and grandeur, the Spanish-style city of today, with its attractive pink tiled roofs, arcaded plazas and steep winding alleyways, stands upon tremendous Inca foundation stones, its links with the Inca Empire everywhere to be seen, from the stone walls that line the city streets, to the museums filled with artefacts and relics of a long dead people. We will make a short orientation tour of the city with the Tour Leader pointing out the key sites, before some free time to continue exploring further. We will see the Inca wall of Hatunrumiyoc with its famous twelve-sided stone (its typical bevelled joints creating the patterns of light and shadow so typical of Incan walls), as well as the rich majesty of the Plaza de Armas and the incredible remains of Qoricancha, once the heart of Inca society. The city itself is filled with monuments to its more recent colonial past too, with churches and galleries in abundance, making it an ideal city to enjoy at your own pace (entrance fees not included).

DAY 4 - Free day, optional visit to Cusco ruins including Sacsayhuaman Fortress

DAY 5 - Visit Pisac Market, see the Urubamba Valley and ruins on the way

Today we visit the market town of Pisac, strategically located at the head of the Urubamba Valley. Pisac once controlled the road connecting the Inca Empire with Paucartambo on its eastern borders and the magnificent Inca ruins that once so dominated this valley still occupy the mountainside above the town, providing a worthy match for any of the temples of Machu Picchu.

Meals Provided: Breakfast

DAY 6 - Train to Aguas Calientes; visit Machu Picchu

This morning we transfer to the railway station to catch the train to Aguas Calientes, our gateway to one of the greatest of all archaeological sites. The train slowly meanders down the valley, following the tumultuous waters of the Urubamba River through a series of rock cut tunnels before emerging at the small town of Aguas Calientes, serenely nestling amidst a lush landscape of cloud forests. From here we take a public bus up to the mountain complex of Machu Picchu, the fabled 'lost city' of the Incas and probably the most spectacular feat of engineering in ancient America. The rest of our time is then spent in this magnificent city, dividing our time between a guided tour (4 hours) and some free time to explore these spectacular ruins privately. Temples, stairways, palaces and gabled stone dwellings are scattered everywhere, testifying to the energy and ingenuity of the builders. Not without reason is this site probably the most revered tourist attraction in the Americas; its location alone is dramatic in the extreme, teetering on the saddle of a high mountain peak that towers above the valley below. Built in the mid 15th century by Pachacuti, the city was thought to have been a major agricultural centre for the Incan Empire and its inaccessibility seems to have preserved it from the looters of the intervening years, resulting in the remarkably well-preserved ruins that we see today. Returning by bus to our simple accommodation in Aguas Calientes, situated on the valley floor below, this evening then affords a chance to relax in the local thermal baths (optional).

Accommodation: Hanaqpacha Inn Hotel (or similar)

Simple Guesthouse

Single room available

Meals Provided: Breakfast

DAY 7 - More time to discover Machu Picchu (optional); train back to Cusco

We have another chance this morning to explore the site. It is also possible to climb the steep peaks of either Machu Picchu Mountain or Huayna Picchu Mountain to look down on the citadel. Machu Picchu Mountain is a 700m climb from the top of the citadel. There are cobbled stairs all the way up with a few eye-opening drops in some parts, and the round-trip takes about 2.5-3 hours. Huayna Picchu Mountain is only 350m, half the size of Machu Picchu Mountain, but much steeper. There are many more sheer drops, and it is definitely not suitable for someone with a fear of heights. For those who fancy doing the 1 hour climb, you'll be rewarded with world-beating views of Machu Picchu, and the feeling that you're standing on a precipice at the top of the world.

These must be pre-paid at time of booking. If you change your passport between your time of booking and prior to travel please take your original passport with you.

We will take the afternoon train back to Cusco

Accommodation: Inkarrí Hostal (or similar)

DAY 8 - In Cusco; optional whitewater rafting

Today is a free day with a wide choice of things to do. For river-lovers there is the opportunity of a full-day raft-trip (optional and in season) down the Urubamba in the Sacred Valley of the Incas. This is an exciting way to see the valley and no previous experience of rafting is necessary - full instruction and safety equipment are provided. Please note: Participation in rafting requires that you are able to swim 25 metres unaided. Otherwise you may want to relax in Cusco and enjoy the atmosphere of this lively town.

DAY 9 - Fly to Puerto Maldonado, transfer to Amazon lodge

Today we transfer to the airport for a short flight to Puerto Maldonado, located in the Southern Amazon area of Peru (your Tour Leader stays in Cusco). You can leave your main luggage in Puerto Maldonado and just take with you what you need for the next few days. The Amazon comprises 60% of Peru and the Peruvian Amazon is the second largest section of the Amazon Rainforest after Brazil. The Amazon basin covers two fifths of South America over many countries including Bolivia, Brazil, Colombia, Ecuador, Guyana, Peru and Venezuela and it is the most bio-diverse environment in the world. Most of the basin is covered by the rainforest, which is the largest rainforest in the world.

We travel along the Tambopata River by motorised canoe (approximately 40 minutes) and check into our Amazon lodge. We have a short stop at the lodge for a buffet lunch before our local guide takes us on an exploration of the jungle trails surrounding the Field Station, discovering the tropical trees, medicinal plants, insects, butterflies and other animals we see en route. In the evening, we have a night float along the Madre De Dios River in search of the wildlife that surface during night time such as capybaras, white caimans and nightjars.

The lodge is comfortable but as it is in a remote location, the electricity is provided by a generator and is only available for certain hours of the day.

Accommodation: Inkaterra Field Station (or similar)

Meals Provided: Breakfast, Lunch & Dinner

DAY 10 - In Amazon Jungle; Canopy walk and Carachamayo Trail

We spend the morning on the Inkaterra Canopy Walkway, which is a 1129ft system of 2 observation towers, 8 platforms and 7 hanging bridges 100ft above the ground. The walkway is designed to perform scientific research of the ecosystems inhabiting the rainforest canopy, and gives us an unobstructed view of the wildlife and birds.

During the afternoon, we follow the Carachamayo Trail, visiting a natural water pool known as Carachamayo. Along this trail, there are waterholes where locals enjoy Carachama fishing. Carachama are freshwater fish native to the Peruvian Amazon. The Local Guide will show us the best way of Carachama fishing in the waterholes usually traditional tools, as we explore the forest around the trails.

Accommodation: Inkaterra Field Station (or similar)

Meals Provided: Breakfast, Lunch & Dinner

DAY 11 - In Amazon Jungle; boat ride and Inkaterra experience

This morning, we take a 20 minute boat ride to the river island near our lodge, a large sandbank at the shores of the Madre De Dios River. With our Local Guide, we will walk across the island to explore the floodplains that provides the island an ecosystem with a great diversity of birds such as the Amazonian umbrella bird, one of the Amazon's most sought after species by birdwatchers.

We continue on to visit the Inkaterra Association's Bio Orchard, where organic native goods are cultivated such as palms, vegetables and fruit. We learn the diverse phases of sustainable horticulture, the preparation of recycled compost, sowing and harvesting vegetables, fine herbs and tropical plants, using natural fertilizers, pesticides and herbicides. The lodge is working as sustainably as possible, to help local communities protect their surroundings, and using the forest for good.

During the afternoon, our Local Guide will show us the permanent plot area for rainforest restoration and conservation, and we'll learn about the survival mechanisms of the rainforest, exploring the meanings of the 19 native palm species.

We'll take a night walk through the jungle, listening to the sounds of the birds, mammals, insects and amphibians that wander the forest at night, using the expertise of our local guide to try and spot them.

Accommodation: Inkaterra Field Station (or similar)

DAY 12 - Early morning boat to Puerto Maldonado and end trip at airport

Our Amazon adventure comes to an end today after breakfast and we will travel by motorised canoe back to Puerto Maldonado, before transferring to the airport. If you prefer you can end your trip at the office in Puerto Maldonado and arrange a taxi transfer

to the airport yourself at a time that better suits your own itinerary. The office is a short taxi ride from the town, and about 20 minutes by taxi from the airport.

Bring warm clothing such as a warm fleece, thermal underwear, warm hat and gloves for cooler nights in the mountains when temperatures drop dramatically. Lightweight waterproofs are essential. Bring your swimsuit.

For your jungle extension, you can expect warmer and more humid conditions. However, there may also be heavy rain showers (it tends to be cooler and drier between May and October). Bring light and loose clothing - long sleeved shirts and long trousers are best when walking through jungle, and a lightweight rainjacket. The warmer clothes from your time in the mountains may also come in useful during the evenings, in case of cool weather.

Footwear

Comfortable shoes and lightweight walking shoes and sandals. If participating in the rafting, old trainers are useful (as they will get wet).

A good insect repellent is essential, particularly for use in the jungle. Also bring a small torch, sunhat, sunscreen and a small towel (for rafting and thermal baths).

Equipment that you will need for your jungle experience is:

A good torch and spare batteries for night walks and when the generator is not on.

Card games or books for your evenings in the lodge, particularly if there is no electricity

Long sleeved tshirts and full length trousers are recommended to avoid insect bites

Booking a Single Room

All of our group tours are planned and operated on a twin-share basis, meaning that the standard cost is based either on individual travellers sharing accommodation with another group member of the same sex, or people who book together sharing accommodation. Please refer to the tour notes where the single room option availability is detailed on a night by night basis for this tour, and the price for the available nights is detailed on the dates & prices tab by departure date. For Self-Guided trips the Single Room supplement offers the option of a single room each and is charged per person. The Single Room supplement also applies to the third person in a party of three that will be accommodated in a single room.

The guest accommodation at Inkaterra Field Station although simple, is built to a high standard. Built within the Inkaterra Ecological Reserve, an area of over 10,000 hectares of virgin forest, the Field Station was originally set up as a research centre for scientists and has now opened its doors for travellers to experience the Amazon rainforest. The Field Station is ran by, and is the headquarters for, the Inkaterra Association, an NGO funded by Inkaterra's ecotourism activities which is dedicated to supporting, fieldwork, biodiversity research and conservation.

The communal area and dining room is a wooden structure with a high roof, thatched in traditional style with palm fronds. The Cabanas rooms are a short walk from here and are also built in local wood, blending in with the surrounding forest. They each have an outdoor terrace with seating and are all furnished with crafted wooden furniture and, en-suite bathrooms equipped with a cold (lukewarm) water shower, basin with running water and flushing toilet. There is also a safety box for storing valuables and food. The design of the buildings allows the rooms to be naturally ventilated - the rooms are elevated off the ground and have high unsealed thatched roofs that encourage air-circulation. Good mosquito nets cover the beds (which are well off the floor) and there are ceiling fans. Electricity is provided by a generator twice a day so Wi-Fi and room lights can be used, batteries charged, etc. but a strong torch is also required. Meals are all included during your stay and combine delicious local produce; lunch and dinner are served in the communal area self-serve style. Boiled, filtered drinking water is also available at all times, as is tea and coffee. Fruit juices are provided with breakfast, and beers, Pisco and soft drinks are also available to buy at the bar.

The Inkaterra Explorer guides all have a recognised national guiding qualification and most are from the local area. During your stay they will help you explore the primary forest around the lodge, identify animals and plants, and learn about the biodiversity and local way of life. Keep your eyes open as you travel around by boat or walk through the forest as there is abundant wildlife in the area around the lodge.
