Itinerary

Itineraries on some departure dates may differ, please select the itinerary that you wish to explore.

DAY 1 - Join trip Lima

Arrive to Lima and check-in at hotel. Afternoon tour of Lima. Lima, Peru's capital, was founded in 1535 AD by the Spanish conquistador Francisco Pizarro. It was built on the Pacific coast, by the Rimac River and close to the natural harbour of Callao, on land that had already been inhabited for thousands of years. Today Lima is a modern city, but there are obvious reminders of its ancient and colonial past. It is also gaining a reputation as a culinary centre.

DAY 2 - Visit Pachacamac. Drive to Paracas National Park

Heading south on the Panamerican Highway we stop at the ancient religious centre of Pachacamac, whose many pre-Inca and Incan adobe walls and temples have miraculously stood for hundreds of years, preserved by the desert climate. We continue on to Paracas and its national park where we can observe some extraordinary lunar landscapes and have the chance to see varied birdlife.

DAY 3 - Optional boat trip to Islas Ballestas. Continue to Nazca

There is the possibility this morning to take an optional excursion to the Ballestas Islands to see a large colony of sea lions, seabirds and even penguins. We then continue south pausing at Ica to visit the small but excellent museum (optional) or the huge sand dunes outside the town at Huacachina Oasis. Then we drive to the mysterious Nazca Lines. Some specialists have speculated that they represent the world's largest astrological calendar. Huge birds, spiders, whales, other creatures and geometrical figures are represented in outline. Here we'll climb the nearby viewing platform for views out over the lines etched into the desert. There should also be time for optional visits to the nearby Antonini Archaeological Museum, the Chauchilla pre-Inca cemetery or the Nazca aqueduct.

Oro Viejo Hotel (or similar)

Grade: Simple Hotel

DAY 4 - Journey inland through the Andean mountains to Arequipa

A full day's drive takes us through desert scenery. Following the coastal route through the desert we pass the settlement of Puerto Chala. In Inca times relays of chasquis (runners) transported fresh fish 250km to Cusco in the mountains in just one day from nearby. Depending on timing we will visit Quebrada de la Vaca Inca ruins either en route, these remains are thought to be part of an original Inca Trail to Cusco, and include ancient llama corrals and grain stores.

As we leave the coastal plain behind, our road climbs steadily through the Andean mountains to reach the beautiful city of Arequipa.

DAY 5 - Explore Peru's 'White City'. Visit Santa Catalina Convent

This morning we explore this beautiful city, situated at 2,380 metres and surrounded by snowcapped mountains including the perfect conical peak of El Misti (5,822m). The city itself was founded by the Spanish in 1540, on the site of an old Inca settlement, and today is famed for its colonial architecture, including what is arguably one of the finest arcaded city squares anywhere in the Americas. Our morning walking tour includes Santa Catalina Convent, a miniature walled town which once housed 450 nuns and serving ladies in total seclusion for nearly four centuries.

The afternoon is free to further explore this fascinating city, starting in the Plaza de Armas you could visit the twin-towered cathedral or the archaeology museum and wander through the colonial districts.

DAY 6 - Continue to the town of Chivay. Optional afternoon walk in the Colca Valley

Heading north from Arequipa we enter the world of the Altiplano (high plain). We drive behind the volcanoes that ring Arequipa and on to Chivay, passing herds of Llama and Alpaca - if lucky we may spot the elusive Vicuña. Today we briefly reach the highest point of our trip at 4,800 metres before descending towards the Colca Canyon.

The afternoon is free to perhaps bathe in the hot springs (optional) or take a walk in the Colca valley. The walk begins from Canocota, following the Colca River through the mini canyon, passing by cactus and flowered bushes. There are also hot springs in La Calera where the walk ends.

Today's optional eight kilometre walk is expected to take around three hours.

DAY 7 - Walk along the Colca Canyon

A spectacular river gorge, the Colca Canyon measures twice the depth of the more famous Grand Canyon and at one time it was believed to be the deepest gorge on earth (until it was eclipsed by the deeper Cotahuasi Canyon). Largely unknown to the outside world until the latter years of the 20th century, today it affords us an opportunity to discover a world of Andean villages and Inca terraces that make up one of the most outstanding natural settings in the Americas. This is the world of the Altiplano, where the Rio Colca meanders through a landscape of towering volcanic peaks that offer a stunning backdrop to a land inhabited by Cabana and Collagua Indians.

Today we experience this spectacular natural wonder on foot. Beginning from the town of Coporaque we walk along terraces above the river before climbing to the Pre Inca ruins of Uyo Uyo. We can step back in time exploring the ruins of this village dating to 1200. Descend we walk past colcas (mud and stone caves

used for storing harvested crops) and cross the orange Sifon Bridge to reach the town of Yanque from where we drive back to the hotel.

Today's eight kilometre walk is expected to take around four hours with 160 metres of ascent and descent.

DAY 8 - Condor viewpoint. Drive to Puno on the shore of Lake Titicaca

From Chivay we make an early start to the mirador Cruz del Condor, overlooking the magnificent Colca Canyon, in the hope of spotting the rare Andean Condor. Seeing these magnificent birds in flight is a highlight of any trip.

Driving east, via the Patapampa pass we head towards the beautiful landscapes that surround the unique waters of Lake Titicaca, the highest navigable lake in the world (3,856m) and the legendary birthplace of the Inca civilisation. Our destination is the town of Puno, a centre of Incan folklore nestling in a bay at the northwestern tip of the lake and the perfect base from which to explore something of the cultural and historical significance of the lake itself.

DAY 9 - Boat to Taquile. Stay in island village house

The Uros people dwell on the lake itself, on floating islands of totora, a reedlike papyrus that grows in the shallows and is used in the construction of houses and boats. We continue by motorboat to Taquile Island which has preserved much of its Inca and pre-Inca heritage and the islanders still speak the language of the Inca-Quechua. Accommodation is limited to rustic, dormstyle facilities in a local house. In the late afternoon we walk to the top of this terraced island to watch the sun set.

Today's one kilometer walk is expected to take around one hour with 200m of ascent.

Driving up to the northern limit of the Altiplano we cross La Raya pass (4335m) and descend towards Cusco, and then continue on to Ollanta in the Sacred Valley. The mountain scenery is desolate but magnificent and we may spot flocks of llamas and alpacas grazing on the windswept pastures. Depending on time, those who wish may visit the colonial church at Andahuaylillas (45kilometres south of Cusco).

DAY 13 - Commence Inca Trail. Walk to Llaqtapata ruins

This morning we drive to Ollantaytambo, an original Inca town. Here we have a short walking tour to stretch our legs, visiting a traditional house and our first view of Inca terracing. We continue by bus for another hour to reach KM82, the starting point for the classic Inca Trail. The trail was first explored by Hiram Bingham in 1911 and opened for walkers in 1970. The famous ruins of Machu Picchu are not the only historical remains within the area: many other interesting sites are hidden in places which can only be reached on foot, and have scarcely been explored.

We meet our porters and support staff, beginning our trek after lunch. The route crosses the Urubamba river, following a wide dirt trail alongside the riverbank. The undulating path takes us into the Sacred Valley of the Incas to Llaqtapata (2,700m). Here we camp opposite the ruins of Llaqtapata, a spectacular spot with amazing night skies.

Today's six kilometre walk is expected to take around two-and-a-half hours with an ascent of 100 metres.

Today we follow the course of the Kuschaca river past small communities, crossing it to reach Wayllabamba, a quiet village of Inca origins and the last settlement on the route. After lunch we gradually ascend through the start of the cloud forest to Llulluchapampa (3,800m) which affords stunning views of the snowy peaks of Veronica (5,750m). Here we set up camp for the night; there is a well maintained toilet block at this site.

Today's nine kilometre walk is expected to take around six hours with 1,080 metres ascent.

DAY 15 - Cross 'Dead Woman's Pass' (4200m). Through cloudforest to Phuyupatamarca

Today is an earlier start as we trek over the Warmiwanusca (Dead Woman's) Pass to 4,200 metres. The two hour ascent is one of the more challenging sections of the trek, we take it slow and steady with many stops to admire the view and sunrise. After a rest and photo opportunity we descend along a stepped path to the valley of the Pacamayo river with its tropical vegetation. Here we break for brunch before beginning the ascent (mainly on steps) to the second pass of the day. We visit the ruins of Runkuraqay and then it's the final ascent to cross the Runkuraqay Pass (3,950m).

After the pass it was a long gradual descent passing into the start of the main cloud forest to reach the bottom of the valley. The Sayacmarca ruins are visible on a rocky outcrop, they command an imposing view and have only one means of access, a narrow granite stairway. We cross the valley to reach the Sayacmarca campsite for a late lunch. From here the trail goes through cloud forest with vines, exotic flowers (among them orchids) and luxuriant trees, with views (if we are lucky) of the snowcapped peaks of Salkantay. We walk through an Inca tunnel and along a ridge above the Urubamba River to our campsite above the Phuyupatamarca ruins (3,579m). The campsite has amazing panoramic views of the surrounding peaks and down the valley towards Machu Picchu mountain.

Today's 10 kilometre walk is expected to take around eight hours with 1,000 metres ascent and 630 metres descent.

DAY 16 - Arrive to Machu Picchu through the Sun Gate

Today is our final day walking along the Inca Trail. We say thanks and goodbye to our porters and begin our trek into Machu Picchu. We pass the Puyupatamarca ruins and spend the majority of the morning going down following stone paths and stairways, 80% of which are original Inca architecture. Coming out of the cloud forest we are greeted by the spectacular views down the valley, walking through the impressive Inca terraces at Intipata we reach our lunch stop at Winay-Wayna (2,591m). Those who wish can visit the ruins here, this Inca site is built into the steep hillside and like Machu Picchu, was abandoned for unknown reasons.

Winding our way along the edge of the mountain we follow a wide path adorned with wild flowers and orchids to we take the final steps up to reach Inti Punku - the Gate of the Sun. passing through there is a sudden and fantastic view of the Lost City itself, Machu Picchu, set in a grandiose landscape that amazes all spectators. We walk down through the site and then take the public bus down the mountainside to our

hotel in the town of Aguas Calientes situated on the valley floor below Machu Picchu.

Today's eight kilometre walk is expected to take around six hours with 1,000 metres descent.

DAY 17 - Revisit Machu Picchu. Return to Ollantaytambo by train.

Our final morning is spent at Machu Picchu, probably the most astounding feat of engineering in all of ancient America. Temples, stairways, palaces and gabled stone dwellings are scattered everywhere, testifying to the energy and ingenuity of the builders. We have a guided tour with our Explore Leader then before taking the bus back down to Aguas Calientes.

It is also possible to climb the steep peaks of either Machu Picchu Mountain or Huayna Picchu Mountain to look down on the citadel. Machu Picchu Mountain is a 700m climb from the top of the citadel. There are cobbled stairs all the way up with a few eye-opening drops in some parts, and the round-trip takes about two and half to three hours. Huayna Picchu Mountain is only 350m, half the size of Machu Picchu Mountain, but much steeper. There are many more sheer drops, and it is definitely not suitable for someone with a fear of heights. For those who fancy doing the one hour climb, you'll be rewarded with world-beating views of Machu Picchu, and the feeling that you're standing on a precipice at the top of the world.

These climbs must be pre-paid at time of booking. If you change your passport between your time of booking and prior to travel please take your original passport with you. Those doing one of the optional climbs will take the first bus back up the Machu Picchu to begin the climb at 7am after which you will meet up with the rest of the group to take the guided tour.

In the afternoon we get the train to Ollantaytambo, located in the Sacred Valley of the Incas, and then return to the historic town of Cusco by bus. Depending on the time of the train, you may have a free afternoon in Aguas Calientes, where there are many restaurants and cafes and a large covered market.

DAY 18 - Walking tour of Cusco. Visit to Sacsayhuaman

The old capital of the Inca Empire survives only in its ruins, imbued with an atmosphere of mystery and grandeur. The Spanish style city of today's Cusco, with its attractive pink tiled roofs, arcaded plazas and steep winding alleyways, stands upon tremendous Inca foundation stones. The interlocking stones, assembled so carefully that a knife blade cannot be forced between the multi-sided joints, were highly functional as well as beautiful - they are earthquake-proof! During our stay, we plan a walking tour of this lovely city to see important Inca and colonial monuments, such as the Inca wall of Hatunrumiyoc with its famous twelve-sided stone. The stone, measuring some 5 feet across, has the typical bevelled joints which create the patterns of light and shadow on Inca walls. We also visit Cusco's temple-citadel, Sacsayhuaman which broods high above the town, its huge, zigzagging stone walls broken into 66 sharply projecting angles to catch attackers in a withering crossfire - and walk back down to the city centre.

During the afternoon, we take 30 minute boat ride, entering the territory of the Tambopata- Reserve. We will trek 5km through the dense vegetation of the tropical rainforest looking out for snakes, monkeys and birds. Our destination is Sandoval Lake. Numerous species of animals live near the lake, keep your eyes out for kingfishers, cormorants, squirrel monkeys, and capuchin monkeys. At the lake itself we may see giant river otters, black caimans and piranhas. This is also the habitat of the giant arapaima, a fish of more than 2.5m, weighing in at more than 200kg.

We continue on to visit the Inkaterra Association's Bio Orchard, where organic native goods are cultivated such as palms, vegetables and fruit. We learn the diverse phases of sustainable horticulture, the preparation of recycled compost, sowing and harvesting vegetables, fine herbs and tropical plants, using natural fertilizers, pesticides and herbicides. The lodge is working as sustainably as possible, to help local communities protect their surroundings, and using the forest for good.

During the afternoon, our Local Guide will show us the permanent plot area for rainforest restoration and conservation, and we'll learn about the survival mechanisms of the rainforest, exploring the meanings of the 19 native palm species.

Clothing

For your trek: In the highlands conditions can be dry and sunny during the day but bring warm clothing such as a warm fleece, thermal underwear, warm hat and gloves. These will be needed when the temperatures drop, especially at night when temperatures can drop dramatically. Lightweight waterproofs are also essential. You may also wish to bring your swimsuit.

Thermals: Useful for walking when cold, around camp and much more practical (and warmer) to sleep in than pyjamas.

Trainers or Trekking sandals: Useful around camp, in towns and when travelling. Waterproof sandals are ideal for rafting.

Socks: Use good quality socks that you are used to walking in, plus liner socks if you are used to these.

Waterproofs: Breathable waterproofs not only protect against rain and wind, but also stop you from overheating.

Thick jumper/fleece jacket: A thick jumper or fleece jacket is necessary as nights can be very cold at altitude, especially in their winter months (June to September). Make sure that your waterproof jacket is loose enough to wear over your sweater or fleece.

T-shirts: We recommend t-shirts made from wicking materials as these keep you drier and warmer.

Shorts: Shorts can be comfortable to walk in but carry long trousers with you in case of strong sun or you feel cold. Remember we shall be passing through the occasional remote village and short shorts (especially on women) can give offence to the local inhabitants.

Gloves and Hat: Essential around camp in the morning, and in the evening, at higher altitudes.

For your jungle extension: Expect warm and humid conditions. However there may also be heavy rain showers. (It tends to be cooler and drier between May and October, the winter)

Bring light clothing (cotton or wicking material) - Long sleeve shirts and long trousers are best when walking through jungle, and a light weight rainjacket. It is worth also bringing some warmer clothes, particularly between May and September, in case of cool weather.

Footwear

We recommend you bring well broken in and comfortable walking boots with ankle support. We do not recommend borrowing or renting boots. It is a good idea to carry your boots in your hand luggage on international flights or wear them - should your luggage be delayed, your boots are the one thing which will be irreplaceable. If you are rafting bring shoes that you don't mind getting wet.

Luggage

20kg

Luggage: On tour

For your trek bring one main piece of baggage and a daypack.

Main luggage:

Your main bag should be lockable as this will be left in storage in Cusco whilst on the trek.

Trek Kit Bag (provided):

Before leaving Cusco there is time to re-organise your luggage. Your trek luggage, including sleeping bag, should be packed into the kit bag to be carried by the porters. The weight limit for this is 7kg but you will probably find that you do not need this much. Advice on how to pack will be given at the trek briefing.

Small Rucksack/Daypack:

During the course of a trekking day, you do not have access to the luggage, which is being carried for you by the porters. In any mountain region the weather can change rapidly and you must be equipped for this eventuality. Your daypack should be large enough to carry your day things including: waterproofs, sweater, long trousers (if walking in shorts), warm hat and gloves, sun hat, suncream, water bottle, tissues and your packed lunch. Camera equipment can be heavy so think carefully when deciding what to take. A rucksack with 20 or 25 litres capacity is usually sufficient.

On the Amazon Extension, due to limited space on the boats your luggage will be limited to 10 kilos - your main bag will be left in Puerto Maldonado while you stay at your Amazon Lodge. There will be time before departing Cusco to re pack enough for four days including clothes, toiletries, shoes, torch, sun cream and insect repellent.

Remember, you are expected to carry your own luggage (i.e. on and off transport etc.) so don't overload yourself. It is recommended you bring lockable bags.

Equipment

For your trek: Remember to bring: torch, water bottle, insect repellent, suncream (at least factor 30), lip salve, good quality sunglasses and sunhat. Please note Drones are prohibited in most tourist areas in Peru. You may also wish to bring binoculars and your own sleeping bag.

Sleeping Bag: This may be down or synthetic, but should be 4-season. A cotton liner helps to keep your bag clean. You do not need a foam mat as thermarests are provided. It is possible to hire an appropriate down sleeping bag for the trek locally (US\$ 20).

Personal Equipment On Trek

Trekking poles: Trekking poles are recommended. Please note metal tipped trekking poles are NOT permitted so please ensure they have rubber/plastic tips

Water Bottle: Water along the trail must never be considered as drinkable. The camp staff provide purified water each day with which to fill your bottle or camelback. Your bottle should hold at least two litre and be reusable as disposable plastic bottles are not allowed on the trail. Metal bottles can also double up as hot water bottles when hot water is available.

Torch/Batteries/Bulb: A small torch is essential for finding things in your tent, visiting the 'toilet' in the night etc. Often a head torch is the most practical option as it allows you to have both hands free. Remember to bring spare batteries.

Toiletries: Only bring essential toiletries such as toothbrush/paste, soap, toilet roll and a small towel. Wet wipes are great for a quick clean up in your tent.

Personal First Aid Kit: On each trek a first aid kit is carried but you should have your own blister kit, supply of plasters, pain relief etc. for your own use.

Cloth bags: Single use plastic bags are not allowed on the trail.

The following equipment list is provided by Explore for the trek:

2-person tents

Dining tent

Thermarest sleeping mat

Stools and table

Toilet tent

Equipment Hire and Trek Training Days - Trek Hire UK hire out a wide range of kit including quality sleeping bags, down jackets and walking poles <http://www.trekhireuk.com>. They also run regular trek training and preparation days from their base in the Surrey Hills, ideal for getting an indication of your overall fitness level and also covering advice on kit and altitude.

Tipping

Explore leader

Tipping isn't compulsory, and we work hard to ensure that our leaders all receive a fair wage. However, you might want to recognise a leader that's done a great job or really added to your trip by giving them a tip. We're often asked about the recommended amount. It's a tricky one, and down to personal preference, but we'd recommend between £15 to £20 per person per week as a guideline

Local crew

Although entirely voluntary, tipping is a recognized part of life in this region of the world. Some local staff will look to members of the group for personal recognition of particular services provided. In order to make things easier for you, your leader may organise a group's tips kitty for included activities and meals and if this is the case, they will account for it throughout the tour.

Accordingly, you should allow US\$ 75, approx. 250 Peruvian Soles per person for group tipping. For all non-included services and meals on your trip please tip independently at your discretion.

If you are unable to provide a valid visa before boarding flights to the US, or entering via another method, you may not be permitted to travel.

Please note for your ESTA application you will be required to supply Point of Contact information. Explore's USA contact information will be listed on your final documentation which you will receive

Insurance

It is a condition of booking with Explore that you have adequate valid travel insurance. It is your responsibility to arrange appropriate travel insurance and ensure you have read and understood the full terms and conditions of your travel insurance policy to ensure that you are covered for all activities you intend to undertake whilst on the tour, including all optional activities. Your Insurance Policy must fully cover you for medical expenses and emergency repatriation to your home country. Please ensure your policy includes medical emergency helicopter evacuation in the event of illness or injury and covers the entire duration of your holiday. If you are trekking at altitude please ensure that there is no upper altitude limit which may limit or exclude cover for your trip. The cost of many of our Polar Voyages will exceed the capped amount covered by standard insurance premiums and you will be required to pay an additional premium to cover the full value of your trip. Please ensure that you are covered for the full amount of your holiday cost, as insufficient cover could invalidate a claim under the policy. Maximum altitude (m)

4200

Altitude information

This trip goes to an altitude where there is a risk of being affected by Acute Mountain Sickness (AMS), a common and usually harmless condition caused by reduced air pressure and a lower concentration of oxygen. Whilst the itinerary has been specifically designed to allow your body to acclimatise gradually, the speed of onset and severity - as well as the height at which AMS develops can vary greatly between individuals; being physically fit affords no special protection. If symptoms occur while on your trip you must let your Explore Leader know immediately. For further advice when travelling at altitude we recommend visiting the medical advice website of "Medex" and downloading their information booklet: http://medex.org.uk/medex_book/english_version.php

Travellers with heart or lung conditions, anaemia, asthma, high blood pressure, or taking the contraceptive pill must seek the advice of their GP and specifically mention the maximum altitude the trip reaches (please refer to Tour Essentials box on front page of your Trip Notes). Please take the trip notes to your medical appointment so that your doctor has the full details of your trip.

You must have adequate travel insurance for your trip. Please ensure that your insurance policy covers you to the maximum altitude indicated above. If you have Explore insurance you will be covered to this altitude.

Additional notes for trips that include the Inca Trail

1. In order to regulate the number of people walking on the Inca Trail it is necessary to buy an Inca Trail Pass specific to the days that you wish to travel. There are 200 passes per day for tourists, the remainder are for guides and porters.
2. If you are travelling on an Explore trip, Explore buy the necessary permit on your behalf. This is non-refundable and can't be refunded or transferred after you have confirmed your booking.
3. Passes sell out quickly, so we would urge that you book your tour well ahead of your intended travel date. New Inca Passes are released in early October of each year, so ideally we would recommend that you book your trip at least 6 months ahead and by December for the following year where possible.
4. Please note that due to the way the passes are distributed in October although a tour departure may be 'Guaranteed' we are unable to guarantee individual Inca Trail passes until we have confirmation that the passes have been purchased. On booking we will be able to tell you the date that your pass should be confirmed, and will contact you immediately in the (unusual) event that it is not. Because of this we would recommend that you either book your flights through Explore or ensure that your tickets are flexible / refundable.
5. In order to buy your pass we will need to take an additional £125 per person non refundable deposit and require your: name as per passport, passport number, date of birth and nationality. If you change passport before travelling it will be necessary to provide a copy of both passports in advance of travelling and to carry a copy of your previous passport with you.
