DAY 16 - Spitsbergen

Each day will be planned to take advantage of local ice and weather conditions. Distances are relatively short in the archipelago and as there are no ocean crossings, so the seas are normally calm. Svalbard is one of the few places on the planet that offers such a wealth and diversity of natural and cultural history sites. During the next six days we will visit ice covered seas, fjords with breathtaking mountain scenery and glaciers flowing into the sea around us. We will spend time steaming through the ice in search of polar bears, hunting for seals. Ivory gulls will be a highlight for keen birders, while we keep a constant lookout for walrus hauled out on ice floes or on sandy beaches.

Krossfjord, Konigsfjord, Monaco Glacier, Edgeoya, Hornsund and Bellsund, are just a few of the places that we may visit, depending on ice and weather. We hope to cruise in zodiacs along the ice edge, viewing seals, walrus or polar bears and in fjords with glaciers spilling down to the sea. We'll enjoy spectacular seabird cliffs from the edge of a Zodiac, as well as walks on shore, enjoying the arctic flora and fauna. Being in the land of the polar bear, your expedition staff will carry rifles and flare guns on shore for your protection. We take on an expedition spirit by not having a set itinerary and are free to take advantage of the best that Svalbard has to offer.

Budgeting and packing

Clothing

Parkas

These will be provided by the ship operator. Please register your size with us before travel and we will arrange for your parka to be available in your cabin on arrival.

Gloves

Keeping your hands warm and dry can be a challenge. Thin polypropylene gloves can be worn underneath warm outergloves. This allows you some protection from the cold when removing your gloves to operate your camera etc. We strongly recommend that you bring more than one pair of gloves, in case one gets wet (or lost).

Hat/Cap

Warm, woollen hat/cap to protect your ears, as well as a scarf, neck gaiter or other face protection, such as a balaclava.

Trousers

Water-resistant trousers of coated nylon or, even better, Gore-Tex® are essential for your comfort. They can be worn over your regular clothes to keep you warm and dry. We suggest that you purchase trousers a few sizes larger than you normally wear as you will be wearing them over other clothing. Gore-Tex® or similar fabrics are excellent for keeping out wind and water without trapping excess heat. Rain gear and Gore-Tex® products can be found in any outdoor sport clothing store. In addition to your waterproof trousers, warm ski pants are suggested if you have them. Warm trousers such as jeans, corduroys etc are

also good.

Socks

Warm wool socks worn over a thin pair of silk, polypropylene socks should provide enough warmth and insulation for your feet. Bring several pairs of socks, since you will inevitably get your feet wet.

Outer Clothing Woollen, knit or cotton sweaters/tops, polar fleece tops (medium weight), several cotton turtlenecks and T-shirts for layering on and off the ship.

Underclothing

Thermal underwear is highly recommended as it will keep you warm without adding bulk. Most polar travellers prefer a lightweight version.

Footwear

Complimentary, used waterproof boots will be supplied onboard. However, guests might want to bring their own if they are the following sizes due to the limited quantities onboard:

- men's UK size 12 & 13 1/2
- women's UK size below three & seven and above

Guests must bring their own if they are:

- men's UK size six 1/2 or smaller
- men's UK size 13 1/2 or larger
- women's UK size two or smaller
- women's UK size nine 1/2 or larger

These are rubber, waterproof boots that are just below your knees with a strong, ridged non-skid sole. You usually have to step from the Zodiac into icy water up to 30 cm high on most landings. Do not bring heavy, cumbersome boots that make it difficult to walk or boots with metal cleats as they cannot be used for landings. For maximum warmth, wear loose-fitting boots and two pairs of socks. Try out your boots before the voyage.

Luggage

20kg

Luggage: On tour

One main piece of baggage and daypack. Remember you are expected to carry your own luggage so don't overload yourself.

Equipment

Sunglasses and sun cream

Personal toiletries

A refillable water bottle

Books/reading material

Camera and memory cards (and something to protect the camera when out in the elements)

Seasickness remedy

Walking poles

Personal First Aid

Tipping

Local crew

Tipping is of considerable significance to the people who will take care of you during your travels. It is an

expression of satisfaction. The suggested amount is USD \$10 - 15 per person per day spent on board. Of course, tipping is a personal choice and the suggested amount is set only as a guideline. The money is collected by the Hotel Manager at the end of the voyage and distributed among the crew and Expedition Staff. The Officers choose not to participate in the tipping pool.

Transport Information

Expedition, Zodiac

Ship description

At a nimble 105 metres (345 ft) in length, with a capacity to hold 132 guests, the Expedition is an ideal vessel to ply polar waters. The ship is large enough to provide stability, speed, spacious cabins and ample public space, yet she is small enough to manoeuvre in remote areas and get you close to the action. Ship stabilizers ensure a smooth ride in rough waters, such as the infamous Drake Passage enroute to the Antarctic, allowing you to enjoy more of your time at sea. A fleet of ten zodiacs allows passengers to get out and actively explore the remote shores of our destinations. The Expedition is a speedy vessel. A top speed of 16 knots means you'll spend less time getting from A to B, and more time to explore your surroundings.

Cabins

The lead-in prices on our website are based on outward facing, category one cabins on the lower deck. Category one cabins are triple or quad share. They are comfortable with a private toilet and shower, and porthole. The Expedition has a number of different cabin categories, ranging from quads, twins and suites - all are outside facing, with two beds (apart from the suites which have queen size beds). Some cabins have larger windows, depending on your cabin grade. We can also offer single occupancy at a supplement which will be subject to availability at the time of booking. A full layout of the deck plan can be found under the Polar Ships section on our website. Your confirmed cabin type will appear on your Booking Confirmation which will be sent on receipt of your deposit payment.

The ship is large enough to provide stability, speed, spacious cabins and ample public space, yet she is small enough to manoeuvre in remote areas and get you close to the action. Ship stabilizers ensure a smooth ride in rough waters, such as the infamous Drake Passage enroute to the Antarctic, allowing you to enjoy more of your time at sea. A fleet of ten zodiacs allows passengers to get out and actively explore the remote shores of our destinations. The Expedition is a speedy vessel. A top speed of 16 knots means you'll spend less time getting from A to B, and more time to explore your surroundings.
