DAY 1 - Edinburgh to Kirkwall

Our expedition begins in the outskirts of Scotland’s Royal capital. Since the 11th century, Edinburgh, has been home to an extraordinary range of architectural contrast. From dark, medieval 16th century block towers, to classical Georgian and Victorian masterpieces. Listed as a World Heritage Site, Edinburgh is home to over 16,000 listed buildings. We board our expedition ship in the afternoon in the suburb port of Leith. The Expedition departs in the late afternoon, sailing towards Kirkwall.

Scotland the islands are famous for their abundant marine bird life and dramatic coastal scenery. Our excursions for today will focus not only on this, but also on the many mystical and historical sites of the area. These excursions will include coach visits to the Ring of Brodgar, the Standing Stones of Stennes and the 4500 year old village of Skara Brae.

We sail deep into one of Norway's most beautiful and frequently visited fjords. The Geraingerfjord was listed as a UNESCO World Heritage site in 2005. It is a 15km branch of the Sunnylvsford and it's tiny village of Gerainger, sits at the very tip. We will have plenty of time to explore the beautiful surroundings and waterfalls found within this magnificent fjord.
Today, we will continue on to Trondheim. You will have the choice of either taking an afternoon hike to the Sverresborg Folk Museum, or you can enjoy a city tour which will include the Folk Museum and the elaborate Nidaros Cathedral, built between 1070 and 1300.

The rugged coastline of central Norway features some of the world's most beautiful scenery. The captain will liaise with local Norwegian pilots to determine our best Zodiac landing options. At Torghatten, you can hike up the famous landmark, the mountain with a hole right through it. It is an easy walk and offers rewarding, panoramic views from the top. In the afternoon, we head to the quaint and picturesque Vega Island, another listed UNESCO site. You will have time to wander through the fishing villages and appreciate the slow pace of life found here.
**DAY 10 - Svartisen to Lofoten**

Today we visit Svartisen and Vikingen. Svartisen is Norway’s second largest glacier, and is the lowest accessible glacier in mainland Europe, at only 20m above sea level. We will visit Vikingen, a point directly on the Arctic Circle, which is marked with a Globe-shaped monument.

Climate

Seasonal Climate Despite the northern latitudes the climate in Norway is not extreme, due to the
affects of the North Atlantic Drift. Between May and September is the best time to visit this region,
with summer temperatures reaching the high teens and rain a regular feature year round along the
coast. North of the Arctic Circle the sun does not set between the middle of May and the end of July,
so you can expect to encounter the midnight sun during this period.

These are rubber, waterproof boots that are just below your knees with a strong, ridged non-skid sole. You usually have to step from the Zodiac into icy water up to 30 cm high on most landings. Do not bring heavy, cumbersome boots that make it difficult to walk or boots with metal cleats as they cannot be used for landings. For maximum warmth, wear loose-fitting boots and two pairs of socks. Try out your boots before the voyage.

Tipping is of considerable significance to the people who will take care of you during your travels. It is an expression of satisfaction. The suggested amount is USD $10 - 15 per person per day spent on board. Of course, tipping is a personal choice and the suggested amount is set only as a guideline. The money is collected by the Hotel Manager at the end of the voyage and distributed among the crew and Expedition Staff. The Officers choose not to participate in the tipping pool.

**Transport, Accommodation & Meals**

**Transport Information**

Bus, Expedition, Zodiac

**Ship description**

At a nimble 105 metres (345 ft) in length, with a capacity to hold 132 guests, the Expedition is an ideal vessel to ply polar waters. The ship is large enough to provide stability, speed, spacious cabins and ample public space. Yet she is small enough to manoeuvre in remote areas and get you close to the action. Ship stabilizers ensure a smoother ride in rough waters, such as the infamous Drake Passage enroute to the Antarctic, allowing you to enjoy more of your time at sea. A fleet of ten zodiacs allows passengers to get out and actively explore the remote shores of our destinations. The Expedition is a speedy vessel. A top speed of 16 knots means you'll spend less time getting from A to B, and more time to explore your surroundings.

**Cabins**

The lead-in prices on our website are based on outward facing, category one cabins on the lower deck. Category one cabins are triple or quad share. They are comfortable with a private toilet and shower, and porthole. The Expedition has a number of different cabin categories, ranging from quads, twins and suites - all are outside facing, with two beds (apart from the suites which have queen size beds). Some cabins have larger windows, depending on your cabin grade. We can also offer single occupancy at a supplement which will be subject to availability at the time of booking. A full layout of the deck plan can be found under the Polar Ships section on our website. Your confirmed cabin type will appear on your Booking Confirmation which will be sent on receipt of your deposit payment.
