We usually reserve a hotel some 3 kms outside of Llanes but please check the hotel details when you make your booking. From the bus station in Llanes you can take a taxi to the hotel. If you are early you can spend some time at the pool before your stroll along the riverside foot path to the centre of town, with numerous shops, bars and restaurants to choose from for dinner. country lanes and unsurfaced tracks around Llanes with some short steep climbs to test your legs and fitness! First you cycle east along the coast to a beautiful view point, where rural farms meet steep cliffs above the sea. Next you follow narrow tarmac lanes and hardpack dirt tracks, cycling inland before you ride back out toward the coast . Along the way there is the chance to visit several villages or stop off for a picnic or swim at a quiet cove.

Your total cycling distance today is approximately 22 kilometres (265 metres total ascent and 265 metres descent).

### DAY 3 - Cycle across green rolling hills to Nueva de Llanes

Today's ride is across rolling green hills to Nueva de Llanes town and there are several spots where you can stop for a dip in the sea and enjoy beautiful beaches. There are a few ascents on today's ride and the main one ascends 175 metres, although this can be avoided if you choose to take the main road instead. You will ride past the ethnographic museum in Porrúa and the beautifully-situated church at Niembro. From the market village of Posada you continue onward, paralleling sections of the Camino, to reach your accommodation overlooking Nueva de Llanes. After arriving you have the option to cycle on for about 4km to the beach at Cueva del Mar from the hotel.

Your total cycling distance today is approximately 27 kilometres (450 metres total ascent and 400 metres descent).

### **Country information**

#### **Spain**

##### **Climate**

Overall, spring, early summer and autumn are ideal times for a Spanish trip - though the weather varies enormously from region to region. The high central plains suffer from fierce extremes, stiflingly hot in summer, bitterly cold and swept by freezing winds in winter. The Atlantic coast, in contrast, has a tendency to damp and mist, and a relatively brief, humid summer. The Mediterranean south is warm virtually all year round. Spain's Islands the Canaries and Balaerics experience very mild winters and warm summers making them ideal year round destinations.

### **Budgeting and packing**

#### **Optional activities**

The following excursions and/or activities are usually available and may be arranged locally. Estimated

costs are provided below for guidance only, are on a per person basis unless shown otherwise, and may depend on the number of participants. Prices quoted are correct as of the date these tour notes were originally issued but may change at any time due to currency fluctuations. Please note: These activities are booked and paid for direct with the supplier and do not form part of your Explore holiday contract.

Day 2 - Stop off at a Niembro beach to relax or swim in the sea.

Day 4 - Have an optional walk to see the Bufones (blowholes) along the limestone cliffs at Lames or visit the 'Cueva de Tito Bustillo' cave paintings (tickets are limited so you will need to book tickets in advance at the local tourist office). Perhaps spend time today at Playa de Vega beach.

Day 6 - Take an optional walk to see dinosaur tracks at Tazones (accessible only at low tide).

Day 7 - Visit El Jardin Botanico del Atlantico (Botanical Garden).

On a number of days there is also the opportunity to visit local medieval churches and museums.

## **Clothing**

Bring cycling gear such as quick drying cycle tops, padded cycle shorts and cycle gloves. Remember that the weather is slightly more changeable in northern Spain, and it can be cool, especially at night and at the start and end of the season, so bring a warmer jacket/fleece. A waterproof cycle jacket is recommended in case of rain. A light windproof jacket is always useful.

## **Footwear**

If you are not bringing cycle shoes then try to bring stiff-soled shoes as these are better for cycling - transmitting your energy into the pedals more efficiently. This becomes more relevant and recommended the more demanding the grade and distances to cover. SPD cycle shoes are not well suited to tours that combine sightseeing with cycling.

Comfortable shoes, trainers, sandals or flip flops are useful when not on the bike.

## **Luggage: On tour**

Bring one main piece of baggage as per your airline luggage allowance, maximum 20 kg per person. Remember you are expected to carry your own luggage if using public transport so don't overload yourself. Luggage transfers between hotels are normally arranged by the hoteliers. Please note luggage transfers are restricted to 15 kg per person, any additional weight will need to be packed in your day bag or pannier bag. Mark your bags clearly and leave them at the place and time arranged with them. When travelling on public transport you should always take your luggage with you.

## **Luggage transfer**

Included between each hotel.

## **Equipment**

On all Explore cycle holidays we strongly recommend you bring along and wear your cycle helmet. It is a legal requirement in Spain to wear a helmet that meets current safety criteria. In case of an accident resulting in personal injury, certain insurance policies are invalidated in cases where a helmet was not being worn. Cycle glasses (to protect against dust, insects, pollen, sun etc) , cycle gloves (padded for more comfort) and a water bottle or water delivery system (eg camelback or platypus). Please note that it is a legal requirement to wear a helmet while cycling in Spain (minimum fine 200 Euros). In case of an

accident resulting in personal injury, certain insurance policies (explore included) are invalidated in cases where a helmet was not being worn. You may choose to bring your own gel seat cover for added comfort. If a handle bar bag or pannier is not provided (check bike details) then you may like to bring a small rucksack to wear while cycling. A lock, pump, spare inner tube and puncture repair kit with tyre levers is provided with the bike. Please carry some or all of your cycling equipment e.g. helmet as part of your hand luggage.

Maps - Along with the destination manual and route notes you will be sent a set of maps that have been created specifically for this trip to help you navigate. follow quiet interior roads (busier near the major towns). The terrain is generally rolling with plenty of uphill sections, although never more than 200m in any one ascent. There are no sections with dedicated cycle paths but traffic is light. On the two circular routes about 30% follows gravel tracks and dirt roads (days 2 and 5). We have graded the route as easy to moderate.
