### **Climate and country information**

#### **Mallorca**

#### **Spain**

##### **Climate**

Overall, spring, early summer and autumn are ideal times for a Spanish trip - though the weather varies enormously from region to region. The high central plains suffer from fierce extremes, stiflingly hot in summer, bitterly cold and swept by freezing winds in winter. The Atlantic coast, in contrast, has a tendency to damp and mist, and a relatively brief, humid summer. The Mediterranean south is warm virtually all year round. Spain's Islands the Canaries and Balaerics experience very mild winters and warm summers making them ideal year round destinations.

## **Budgeting and packing**

### **Optional activities**

The following excursions and/or activities are usually available and may be arranged locally. Estimated costs are provided below for guidance only, are on a per person basis unless shown otherwise, and may depend on the number of participants. Prices quoted are correct as of the date these tour notes were originally issued but may change at any time due to currency fluctuations. Please note: These activities are booked and paid for direct with the supplier and do not form part of your Explore holiday contract.

Throughout the trip there will be opportunities to stop off and visit old local chapels or 'Hermitages'.  
Day 4 - Visit the Fray Junipero museum in Petra, or climb to the hilltop Sanctuary of Bonany to enjoy splended views.

Day 5 - Take time in to visit the Coves de Campanet and in the evening enjoy a stroll along the Port Pollenca beach boulevard.

### **Clothing**

Bring cycling gear such as quick drying cycle tops, padded cycle shorts and cycle gloves. It can be hot in summer, but cool, especially at night and at the start and end of the season, so bring layers of clothing and remember a warmer jacket/fleece depending on the time of year. A raincoat is essential at all times in case of rain.

### **Footwear**

If you are not bringing cycle shoes then try to bring stiff-soled shoes as these are better for cycling - transmitting your energy into the pedals more efficiently. This becomes more relevant and recommended the more demanding the grade and distances to cover. SPD cycle shoes are not well suited to tours that combine sightseeing with cycling.

Comfortable shoes, trainers, sandals or flip flops are useful when not on the bike.

### **Luggage: On tour**

Bring one main piece of baggage as per your airline luggage allowance, maximum 20 kg per person. Remember you are expected to carry your own luggage if using public transport so don't overload yourself. Luggage transfers between hotels are normally arranged by the hoteliers. Please note luggage transfers are restricted to 15 kg per person, any additional weight will need to be packed in your day bag or pannier bag. Mark your bags clearly and leave them at the place and time arranged with them. When travelling on public transport you should always take your luggage with you.

### **Luggage transfer**

Included between each hotel.

### **Equipment**

On all Explore cycle holidays we strongly recommend you bring along and wear your cycle helmet. It is a legal requirement in Spain to wear a helmet that meets current safety criteria. In case of an accident resulting in personal injury, certain insurance policies are invalidated in cases where a helmet was not

being worn.

Cycle glasses (to protect against dust, insects, pollen, sun etc) , cycle gloves (padded for more comfort) and a water bottle or water delivery system (eg camelback or platypus). You may choose to bring your own gel seat cover for added comfort. If a handle bar bag or pannier is not provided (check bike details) then you may like to bring a small rucksack to wear while cycling. Please carry some or all of your cycling equipment e.g. helmet as part of your hand luggage.

Maps - Along with the destination manual and route notes you will be sent a set of maps that have been created specifically for this trip to help you navigate. The route is marked on each map together with a series of numbered waypoints which correspond with instructions in the route notes. Should you wish to purchase a more detailed commercially produced map we recommend the following:-

Mallorca road map, scale: 1:100.000; Publisher: Freytag und Berndt.

Mallorca, scale: 1:75000; Publisher: Kompass (English edition).

Mallorca-Tramuntana, scale: 1:50000; Publisher: Freytag und Berndt.
