## Climate and country information

### Canary Islands

#### Climate

The Canary Islands enjoy a relatively stable climate making them a good year round destination. The warmer temperatures in the winter months also make the islands a great winter walking holiday choice. The best months for walking are October to April, avoiding the heat of the summer, the evenings can still be chilly and rain is possible in January and February. The Canary Gulf Stream and trade winds provides each island with its own micro-climate, bringing different climatic conditions to each side of the islands.

#### Time difference to GMT

### Spain

#### Climate

Overall, spring, early summer and autumn are ideal times for a Spanish trip - though the weather varies enormously from region to region. The high central plains suffer from fierce extremes, stiflingly hot in summer, bitterly cold and swept by freezing winds in winter. The Atlantic coast, in contrast, has a tendency to damp and mist, and a relatively brief, humid summer. The Mediterranean south is warm virtually all year round. Spain's Islands the Canaries and Balaerics experience very mild winters and warm summers making them ideal year round destinations.

## Budgeting and packing

### Clothing

Bring some lightweight clothing for pleasant, balmy days (including shorts for day walks), but remember that temperatures drop with altitude and that evenings may be cool so a warm sweater or fleece is essential. As mountain weather is changeable it is important to bring a waterproof and windproof outer garment.

### Footwear

Walking or trail boots with good ankle support are essential, plus comfortable trainersandals for relaxing.

### Luggage: On tour

Bring one main piece of baggage as per your airline luggage allowance, maximum 20 kg per person. Remember you may need to carry your luggage at times so don't overload yourself. Luggage transfers between hotels are normally arranged by the hoteliers. Mark your bags clearly and leave them at the place and time arranged with them. When travelling on public transport / a ferry you should always take your luggage with you.

## **Luggage transfer**

Included between hotels.

## **Equipment**

Bring a water bottle, torch, sunhat, sunscreen and sunglasses. A trekking pole is recommended for the steep descents.

Maps - Along with the destination manual and route notes you will be sent a set of maps that have been created specifically for this trip to help you navigate. The route is marked on each map together with a series of numbered waypoints which correspond with instructions in the route notes. Should you wish to purchase a more detailed commercially produced map we recommend the following:-

Canary Islands ADAC. Scale: 1:150,000. Overview of the islands in fairly good detail. Smaller islands like La Gomera do not receive much attention, but still the best choice for a general map.

Tenerife Kompass 233. Scale: 1:50.000. Separate walking map for each island. Easy to interpret.

La Gomera Kompas 231. Scale 1:30.000. Spain / Portugal Michelin 990. Scale: 1:1,000,000. Publisher: Michelin 2002. Best choice for a general map of Spain.
