This region has over thirty extinct volcanoes, now covered in woodland and vegetation. Olot itself is an historic town, with colourful old buildings in the streets around the centre and a selection of cafes and bars. Our hotel of choice here is a family run hotel with a private garden area and swimming pool, on the outskirts of the town.

From here you follow a trail through protected beech woodland, past long extinct volcanoes including the striking crater of El Croscat, back to your hotel in

Olot.

Your first walk covers 16 kilometres and takes approximately five and a half hours. The total ascent and descent is +365m / -500m.

DAY 3 - Medieval towns: From Santa Pau to Besalu

Today begins with a taxi ride (included) to the medieval town of Santa Pau. The town centre has some interesting buildings including a castle first mentioned in documents dating back to the 10th century. From Santa Pau you follow the GR-2 long distance path through the Ser River valley and across rolling hills before finally descending to the beautifully preserved medieval town of Besalu via the famous 12th century bridge over the Fluvia River. The town's historic centre features arcaded streets and squares, a church consecrated in 1003, a restored Jewish bathhouse (kimveh) dating back to the 11th - 12th century, and a medieval synagogue down near the river. Our hotel of choice here is a centrally located, small, historic hotel.

Today's walk is 19 kilometres and takes approximately six hours. Total ascent and descent is +275m / -625m

DAY 4 - Hike beside River Fluvia to the rural village of Esponella

The walk today is shorter than previously. The trail first passes through fields then follows the River Fluvia where there are numerous swimming spots, and restaurants where you can stop for lunch. After a taxi ride back to Besalu (included) you will have time to further explore this interesting town.

The walk today is either 11 or 14 kilometres depending on route and takes approximately three or three and a half hours. The total ascent and descent is +175m / 160m.

You also pass the ancient Greek and Roman town of Empuries, a fascinating archaeological site that is well worth visiting. Our hotel of choice is situated by the beach on the outskirts of nearby L'Escala, and has a spa.

Your walk today is twenty kilometres and takes approximately five and a half hours. The total ascent and descent is +275m / -365m.

Your last walk takes an adventurous route following historic fishermen's trails, passing cliffs and coves along the Mediterranean coast then via the port, beach and town centre back to L'Escala - with plenty of opportunities to swim. If you don't wish to make the full walk it is possible to take lunch on Montgo beach (after eleven and a half kilometres) and then spend time on the beach before taking a taxi back to your hotel (not included). Equally you could opt for a day on the beach or an easy there and back walk along the coast.

Trip information

Country information

Spain

Climate

Overall, spring, early summer and autumn are ideal times for a Spanish trip - though the weather varies enormously from region to region. The high central plains suffer from fierce extremes, stiflingly hot in summer, bitterly cold and swept by freezing winds in winter. The Atlantic coast, in contrast, has a tendency to damp and mist, and a relatively brief, humid summer. The Mediterranean south is warm virtually all year round. Spain's Islands the Canaries and Balaerics experience very mild winters and warm summers making them ideal year round destinations.
