

Falklands, South Georgia and Antarctica - Expedition

ANTARCTICA, FALKLAND ISLANDS - TRIP CODE ANS

POLAR

Why book this trip?

From Ushuaia we head northeast to the Falkland Islands. This archipelago of over 400 islands is an important breeding ground for penguins, elephant seals and sea lions and an abundance of seabirds along the endless beaches, including the blackbrowed albatross. We spend time in Stanley, the most isolated capital in the world, and learn about the island's heritage. South Georgia 'The Alps in mid-ocean' Often described as the gem of the Southern Ocean, the splendour of South Georgia is hard to describe - stunning snow capped mountain landscapes, deep fjords, tousled tussock grasses and wild beaches all combine to provide superb stunning photo opportunities. Here is the most important colony of king penguins, fur seals and elephant seals and it is estimated that over 10 million sea birds visit South Georgia each year. During the spring months the hillsides are carpeted with wild flowers. The islands are steeped

in the history of Antarctic exploration and here we find the grave of Sir Ernest Shackleton, possibly the most accomplished and courageous of all polar explorers. We push further south and on to Antarctica. En route we hope to visit a wealth of evocative locations, such as the British research station of Port Lockroy in the silent Neumayer Channel, the sunken caldera of Deception Island, the rookeries of Chinstrap, see Adélie, Macaroni and Gentoo penguins on bluffs, points and bays along the way, and perhaps even swim in the hot springs of Pendulum Cove.

- **Sail to the Falkland Islands** - explore this incredible archipelago
- **Follow in the footsteps of Shackleton** - to the shores of South Georgia
- **Prolific wildlife** - view colonies of king penguins, fur & elephant seals

Itinerary

Itineraries on some departure dates may differ, please select the itinerary that you wish to explore.

DAY 1 - Join trip in Ushuaia

Arrive in Ushuaia, the southernmost city in the world. The city has 40,000 inhabitants and is a major ski resort area for both alpine and cross-country skiers.

You can arrive at any time and an arrival transfer is included if arriving in on day one of the itinerary. Upon arrival into Ushuaia City Airport (USH) please collect your luggage and look for a representative in the Arrivals Hall, holding a sign with your name on it. If you have booked your flights independently, please make sure that you have advised us of your arrival flight details into Ushuaia, so that a transfer is booked for you. Be sure to keep all of your important documents - i.e. passport and travel insurance, and also your medication in your hand luggage, as your main luggage will be transferred separately to the hotel.

From our experience we have found that there are significant delays, especially in high season on flights from Buenos Aires to Ushuaia. We highly recommend booking your travel arrangements to arrive into

Ushuaia earlier in the day.

There are no activities planned today. If your flight arrives earlier in the day, perhaps you might choose to explore the city, visit the Maritime Museum or join a tour to Tierra del Fuego National Park, which offers magnificent hiking opportunities.

This is what we've all been waiting for - a chance to step foot on the Great White Continent ! Over the coming days we will navigate southwards, making stops in the South Shetland Islands then through the Bransfield Strait and onto the Antarctic Peninsula. Our goal is to attempt two excursions per day, but our itinerary and daily schedule will be based on the local weather and ice conditions that we encounter as we navigate through these parts.

DAY 6 - Antarctica & the South Shetland Islands

Keeping a lookout from the Bridge or the deck of the ship, as we thread our way along the continent,

you'll feel the same sense of excitement as many of those early Explorers. The continent itself is roughly circular with a spindly arm, called the Antarctic Peninsula, reaching northwards towards Tierra del Fuego. South America is the nearest landmass, some 600 miles away. The Antarctic Peninsula and the South Shetland Islands abound with wildlife activity. Penguin gather with their fast-growing chicks, whale are seen in great numbers, seal haul out onto ice floes and numerous albatross and other seabird trail in our wake.

DAY 8 - Antarctica & the South Shetland Islands

Antarctica is a continent of superlatives. It is the coldest, windiest, iciest and highest of all the major landmasses in the world. It is the continent with the longest nights and the longest days and it is home to the world's greatest concentration of wildlife. It is also one of the last true wilderness areas left on earth - largely unchanged since the early Explorers and Whalers first landed on its inhospitable shores less than two centuries ago.

DAY 9 - Antarctica & the South Shetland Islands

Sailing east we'll set course for South Georgia Island.

There is plenty of time to enjoy the sheer beauty and the breathtaking scenery of ice-choked waterways, blue and white icebergs, impressive glaciers and rugged snow-capped mountains. The Peninsula also has a remarkable history and, during the voyage, we will learn about some of the most important and dramatic expeditions to this remote corner of the world.

On nearby islands we also hope to spot wandering albatross in their nesting grounds.

DAY 13 - South Georgia

The British explorer Sir Ernest Shackleton landed at King Haakon Bay on the southwest coast after the 800-mile journey in a 20-foot open boat from Elephant Island. They proceeded to hike the ice covered mountainous terrain, arriving to Stromness whaling station on May 20, 1916. Shackleton returned to South Georgia in 1922 for one last assault on Antarctica but passed away after suffering a heart attack while in his cabin. He was buried at the whaler's cemetery at Grytviken station at the request of his wife.

DAY 14 - South Georgia

Known for its brutal whaling and exploratory history, this 170 km long and 40 km wide island is considered the first gateway to Antarctica and was the centre of the huge Southern Ocean whaling industry from 1904 to 1966. The famous captain James Cook was the first to land on South Georgia on January 17, 1775 and named the island after King George III. During the 62 years of whaling activity, any number between 183 whale the first year and the record 7825 whale in 1925-26 seasons were killed annually for their oil. Whale weren't the only animal hunted for their oil at that time. A total of 498,870 seal - mostly giant elephant seal - were also slaughtered. Since the end of whaling activities 40 years ago, wildlife has slowly returned to the island. Today the Island's wildlife is extraordinary, not only in its variety, but also for its sheer abundance. South Georgia is home to roughly 300,000 elephant seal, 3 million fur seal, and 25 species of breeding bird, including wandering albatross. The gravel beach at St. Andrews Bay has a king penguin rookery of 100,000 and an estimated five million macaroni penguin.

DAY 19 - The Falkland Islands

The islands consist of 700 small and mostly uninhabited islands and 2 main islands - East and West Falklands. Located 490 km east of Patagonia, the Falklands were officially discovered on August 14, 1592 by John Davis and remained uninhabited until 1764 when the French built a garrison at Port Louis disregarding the Spanish claim to the islands. From that moment on there have been many disputes between Spain, France, Britain and Argentina, until the end of the Falklands War between Britain and Argentina in 1982 brought the islands firmly under Britain's control. Now with a human population of only 2491, the islands are rich in wildlife. Enjoy the variety of penguin, including the Magellanic, rockhopper, macaroni, gentoo, and king penguin. With a little luck we may also see the elephant seal, sea lion, king cormorant, black-browed albatross, skua, night heron, giant petrel, striated caracaras and of course sheep!

Optional activities

The following excursions and/or activities are usually available and may be arranged locally. Estimated costs are provided below for guidance only, are on a per person basis unless shown otherwise, and may depend on the number of participants. Prices quoted are correct as of the date these tour notes were originally issued but may change at any time due to currency fluctuations. Please note: These activities are booked and paid for direct with the supplier and do not form part of your Explore holiday contract.

To add to your polar adventure, take to a kayak for an eye-to-eye view with seals and whales or camp in some of the most remote and beautiful places on earth.

Kayaking is available as an optional excursion on your Antarctica trip from GBP 1079 per person. Camping is available as an optional excursion on our Antarctica trips from GBP 249 per person.

You must book prior to travel and space is limited - so book early to secure your place! Please speak to one of our polar experts to request availability.

Clothing

Dress on board is informal. Pack comfortable, casual clothing for all activities. Wind and waterproof outer layers are essential, and the most important piece of clothing you will bring is a parka. Beware of tight clothing that leaves no room for trapped air, which is an excellent insulator. Wool, silk and some of the new synthetic fibres, like polar fleece, retain heat better than cotton.

Parkas

This will be provided by the ship operator. Please register your size with us before travel and we will arrange for your parka to be available in your cabin on arrival.

Gloves

Keeping your hands warm and dry can be a challenge. Thin polypropylene gloves can be worn underneath warm outergloves. This allows you some protection from the cold when removing your gloves to operate your camera etc. We strongly recommend that you bring more than one pair of gloves, in case one gets wet (or lost).

Hat/Cap

Warm, woollen hat/cap to protect your ears, as well as a scarf, neck gaiter or other face protection, such as a balaclava.

Trousers

Water-resistant trousers of coated nylon or, even better, Gore-Tex® are essential for your comfort. They can be worn over your regular clothes to keep you warm and dry. We suggest that you purchase trousers a few sizes larger than you normally wear as you will be wearing them over other clothing. Gore-Tex® or similar fabrics are excellent for keeping out wind and water without trapping excess heat. Rain gear and Gore-Tex® products can be found in any outdoor sport clothing store. In addition to your waterproof trousers, warm ski pants are suggested if you have them. Warm trousers such as jeans, corduroys etc are also good.

Socks

Warm wool socks worn over a thin pair of silk, polypropylene socks should provide enough warmth and insulation for your feet. Bring several pairs of socks, since you will inevitably get your feet wet.

Outer Clothing

Woollen, knit or cotton sweaters/tops, polar fleece tops (medium weight), several cotton turtlenecks and T-shirts for layering on and off the ship.

Underclothing

Thermal underwear is highly recommended as it will keep you warm without adding bulk. Most polar travellers prefer a lightweight version.

Footwear

Complimentary, used waterproof boots will be supplied onboard. However, guests might want to bring their own if they are the following sizes due to the limited quantities onboard:

- men's UK size 12 & 13 1/2
- women's UK size below three & seven and above

Guests must bring their own if they are:

- men's UK size six 1/2 or smaller
- men's UK size 13 1/2 or larger
- women's UK size two or smaller
- women's UK size nine 1/2 or larger

These are rubber, waterproof boots that are just below your knees with a strong, ridged non-skid sole. You usually have to step from the Zodiac into icy water up to 30 cm high on most landings. Do not bring heavy, cumbersome boots that make it difficult to walk or boots with metal cleats as they cannot be used for landings. For maximum warmth, wear loose-fitting boots and two pairs of socks. Try out your boots before the voyage.

Luggage

15Kg

Luggage: On tour

One main piece of baggage and daypack. Remember you are expected to carry your own luggage so don't overload yourself.

Please note that a 15kgs luggage weight limit is sporadically enforced on the internal flight to Ushuaia, occasionally charges may be levied against passengers taking luggage in excess of 15kgs.

Tipping

Local crew

The suggested amount is USD \$10 - 15 per person per day spent on board. Of course, tipping is a personal choice and the suggested amount is set only as a guideline. The money is collected by the Hotel Manager at the end of the voyage and distributed among the crew and Expedition Staff. The Officers choose not to participate in the tipping pool.
