This morning we travel from Edmonton towards Jasper National Park. The park's shimmering glaciers, abundant wildlife, crystal clear lakes, thundering waterfalls, deep canyons and evergreen forest, all surrounded by towering mountains, are some of the reasons the park was named a UNESCO World Heritage Site. It's one of only 15 such sites in Canada. We will take a walk along Maligne Canyon and visit Maligne Lake. Keep your eyes peeled wildlife is frequently seen in this area. Optional activities include renting a canoe to explore Maligne Lake or joining a boat tour on the lake.

## DAY 4 - Explore the Icefields Parkway

You'll have your last hours in the Jasper National Park area before we take a drive along one of the world's top scenic highways today, the Icefields Parkway, which cuts its way through a mountain wilderness filled with rivers and stunning glacial lakes. Every kilometre of the parkway boasts spectacular scenery and we are likely to encounter wildlife along the road itself. Our final destination is the Glacier View Inn, located at the Columbia Icefields Centre. We pass the Columbia Icefields Centre where we have the chance to stop at the Athabasca Glacier and Falls. At the Athabasca Glacier, there is the possibility of taking a guided glacier hike or a snow coach tour.

## DAY 5 - Lake Louise walk and gondola, continue to Banff

We'll have an early start this morning to finish exploring the Icefields Parkway as we drive to Lake Louise. Time permitting we'll be stopping at the Peyto Lake and the Bow Lake and Falls. We'll also head to Yoho National Park for a walk at the base of Takkakaw Falls. Then we continue to Lake Louise, where before taking a ride in the gondola lift, we enjoy lunch in the splendid surroundings of the mountains and the sparkling lake. We then take a ride up the gondola lift at the Lake Louise Ski Resort providing exquisite panoramas of the surrounding peaks and Lake Louise itself. Look out for black bears too as they are often seen from the gondola.

We may also have time to take a short hike to Lake Agnes Tea house. This hike is certainly the most popular in the area and deservedly so. The first part is through pine forest and as we get higher in elevation there are breaks where we will see glimpses of the lake and then at top, the views of the glacier and lake are astonishing. We may remain in Lake Louise for dinner this evening, or alternatively we'll continue to our hotel in Banff for a late dinner.

## DAY 7 - Free day; optionals include Sulphur Mountain or hot springs

Today is free to spend as you wish. We highly recommend taking an optional excursion by aerial tram to the top of Sulphur Mountain - if the weather is clear, the views across the Rockies are simply breathtaking. Banff is also famous for its hot springs; in fact, it was the discovery of the hot springs in 1883 that led to the building of the settlement in this location. Relaxing in these geothermal waters is a wonderful way to while away a few hours. Alternatively, you may choose to explore the town of Banff. For the more active among us, there are numerous optional trips such as mountain biking or horse riding that can be organised locally.

## DAY 8 - Drive to Glacier National Park (USA)

Where the foothills of the Rocky Mountains meet the Great Plains, we will discover one of the world's oldest, largest, and best preserved buffalo jumps - the UNESCO World Heritage Site of Head-Smashed-In Buffalo Jump. The jump bears witness to a method of hunting practiced by the native people of the North American plains for nearly 6000 years. Then we continue south and cross the border into the USA and Glacier National Park. Described by the Montana Tourist Board as 'Mother Nature's Best Work', we will spend a day and a half discovering this breathtaking environment. The park encompasses over one million acres and includes over 130 named lakes, more than 1000 different species of plants, and hundreds of species of animals. We start at the east side of the park giving us access to alpine prairies, lakes, glaciers and wildlife. We explore the Many Glaciers area with optional walks along emerald lakes.

## DAY 9 - Travel along the scenic 'Going to the Sun Road'

On our second day in the park, we travel along the famed 'Going to the Sun Road', one of the highlights of Glacier National Park. This engineering marvel spans 80 kilometres through the park's wild interior, winding around mountainsides and treating visitors to some of the best sights in northwest Montana. In the afternoon we'll be exploring the park on foot, and there are trails of varying length and difficulty to enjoy. Alternatively there is the option to take a boat trip on one of the park's beautiful mirror lakes, sailing below the pine-tree lined mountains.

## DAY 10 - Continue to Bozeman via Great Falls

Today we have a drive of about 6 hours to Bozeman, via Great Falls. The scenic drive takes us through the mountainous Helena-Lewis and Clark National Forest before dropping us on the open road to Bozeman, passing various small communities and towns en route. We arrive in the late afternoon. If there is time, we will be able to wander down Main Street and perhaps visit the Museum of the Rockies.

## DAY 11 - Explore Yellowstone National Park including Mammoth Hot Springs

We have two full days dedicated to exploring Yellowstone National Park. Sitting on an average altitude of 2400m (which can make the nights cold) and surrounded by five different mountain ranges of the Middle Rocky Mountains, Yellowstone is a gigantic park covering almost 9000 square kilometres in Wyoming, Montana and Idaho. It is an ancient volcanic plateau home to more than 10,000 geysers, hot springs, fumaroles and mud pots. Buffalo Bill was the first to bring tourists here (often royalty he'd met on his travels) and these visitors, like us, marvelled at the spectacular scenery. The volcanic activity frightened the Native Americans who believed this to be the land of evil spirits, and so the wilderness remained unexplored until it was declared the first National Park in 1872. Although scenery is the primary draw of this area, the park abounds with wildlife. Having been protected from hunters since the park's inception, bear, moose and elk are frequently seen.

Today we enjoy walks around Mammoth Hot Springs, a large complex of hot springs on a hill of travertine. The most well-known is the Minerva Terrace boasting a wide range of bright colours and ornate travertine formations.

You will stay in simple cabins in West Yellowstone. The bathrooms are shared and are in a communal block.

## DAY 12 - Discover Yellowstone's famous geysers

There are more geysers in Yellowstone than anywhere else on earth. Today we explore some of these including Old Faithful, the most famous and reliable. As the name suggests, Old Faithful never disappoints its spectators - eruptions occur about 20 times a day, reaching a height of 30-55m. Many other geysers will be visited, as well as the Grand Prismatic, the largest hot springs in the park and the third largest in the world. We will take several trails to admire and discover these wonders of nature.

In the afternoon, we will walk along the Grand Canyon of the Yellowstone where two imposing waterfalls fall into a coloured canyon.

## DAY 13 - Travel to Jackson via Grand Teton National Park

Today we travel through Yellowstone National Park to reach Grand Teton National Park. The Grand Teton area is blessed with some of the most dramatic mountain scenery anywhere in North America - 10 summits, carved by glaciation, tower three kilometres above the valley floor. At the foot of the mountains lie several large lakes providing wonderful reflective pools and great photo opportunities.

We head out to Jenny Lake and follow the shoreline on foot on this scenic walk up to Hidden Falls and Inspiration Point (4 hours return). On the way back, we can take an optional boat ride on the lake. Then we continue to the lively cowboy village of Jackson, where it is possible to enjoy a cold beer at the Million Dollar Cowboy Bar.

## DAY 14 - Drive to Salt Lake City; tour the city including the Mormon Temple and Square

Founded by a group of believers of the Church of the Latter Day Saints (Mormons) in 1847, the city is now their international headquarters and some of the finest buildings are ecclesiastical. The setting, below the Wasatch Mountains and beside the Great Salt Lake, is superb and makes this a pleasant city to explore on foot.

This must be done on line - <https://esta.cbp.dhs.gov> no later than 72 hours prior to travel. Travellers who have not registered before their trip are likely to be refused boarding.
