Through the city gates lies a traditional centre home to some beautiful examples of Portuguese architecture dating back to the 17th century. A whole day can easily be spent here, visiting the museums, churches and harbour to see the 3-arched city gates and the Gothic-style Church of St. Sebastian. You spend the next two nights in this beautiful capital.

A striking panorama, which originated with the explosion of an enormous volcano. The walking route ends in the village of Sete Cidades, on the shore of Lagoa Azul. Here you will be picked up by the taxi and driven back to your accommodation.

### DAY 3 - Hike the Rota da Agua or Water route

The day starts with a 30-minute private taxi to Remédios, situated in the southern part of the island near Lagoa. Your walk begins with a descent through fields, following dirt tracks to reach the source of a river or Janela. The most interesting part begins when you enter a woodland and traverse a series of tunnels and aqueducts, formerly used to supply water to the distillery in Lagoa and now used to supply water to the area. The highest point is at Janela do Inferno, a vertical wall with a small waterfall, home to newts. Then you retrace your steps back down to Remédios. Along this trail, enjoy beautiful views over the municipality of Lagoa and Ponta Delgada. Afternoon private transfer to the village of Furnas where you spend the next four nights. Approaching the village, you will smell the sulphurous aroma coming from the Caldeiras (hot springs). Furnas is known as the one of the most beautiful villages in the Azores with its white buildings, decorated churches and cosy little streets. The Terra Nostra gardens (optional) are well worth a visit to see the mix of European deciduous trees next to tropical plants, date palms and cedar and fern trees as well as the geothermal pools.

Today's 9km walk is expected to take between 2.5 and 3 hours and you will ascend 250m and descend 250m.

### **Country information**

#### **Azores**

#### **Portugal**

##### **Climate**

Overall, spring, early summer and autumn are ideal times for a trip to Portugal - though the weather varies enormously from region to region. The northern high plains has both extremes, stiflingly hot in summer, bitterly cold and swept by freezing winds in winter. The Atlantic coast, in contrast, has a tendency to damp and mist, and a relatively brief, humid summer. The Mediterranean south is warm virtually all year round. The islands have very different weather patterns due to their positioning and can have sudden rain falls throughout the year so waterproofs are recommended even in the summer.
